Beth Salak, Director  
Competitive Markets and Enforcement  
Florida Public Service Commission  
Attn: Tariff Section  
2540 Shumard Oak Boulevard  
Tallahassee, Florida 32399-0850

Dear Ms. Salak:

AT&T Communications of the Southern States LLC d/b/a AT&T (TA062) hereby files the attached tariff pages revising its Access Tariff.

Access Services Tariff

Section 2 - First Revised Page 20  
Section 2 - First Revised Page 24

This tariff makes AT&T intrastate access tariff references to the FCC consistent across the region on these pages. The tariff is effective on April 30, 2013.

Acknowledgment, date of receipt and authority number of this filing are requested.

Your consideration and approval will be appreciated.

Yours very truly,

Greg Follensbee (slg)

Executive Director

ACCESS SERVICES AND NETWORK INTERCONNECTION SERVICES

ISSUED: APRIL 29, 2013

SECTION 2

EFFECTIVE: APRIL 30, 2013

1ST REVISED PAGE 20

BY: CAROL PAULSEN-TARIFF ADMINISTRATOR

CANCELS ORIGINAL PAGE 20

2. GENERAL REGULATIONS

2.3. OBLIGATIONS OF THE CUSTOMER (continued)

2.3.10 Determination of Charges for Mixed Intrastate, Interstate  
and/or Local Usage (continued)

Identification and Rating of VoIP-PSTN Traffic (continued)

A. Scope (continued)

1. This section governs the identification of originating and terminating intrastate toll VoIP-PSTN traffic and facilities to which interstate switched access rates apply (unless the parties have agreed otherwise) in accordance with the transitional Intercarrier Compensation framework for VoIP-PSTN traffic adopted by the Federal Communications Commission in its Report and Order, FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). Specifically, this section establishes the method that will be used to identify the percentage of the customer's intrastate access traffic, that will be treated as intrastate toll VoIP-PSTN traffic (referred to in this tariff as " Relevant VoIP-PSTN Traffic"),

2. This section applies to originating and terminating intrastate switched access minutes of use ("MOU") and facility rate elements of all Access customers.

3. The customer shall not modify its reported PIU factor to account for the VoIP-PSTN Traffic for MOU and facility rate elements.

B. Rating of VoIP-PSTN Traffic

The Relevant VoIP-PSTN Traffic terminating from the customer to the Company and facility rate elements identified in accordance with this tariff section will be billed at rates equal to the Company's applicable tariffed terminating interstate switched access rates as specified at <http://serviceguide.att.com/ABS/ext/TariffDetails.cfm> in the Company's FCC Access Services Tariff, Sections 17.13.3 - 17.15.1, unless the corresponding intrastate rate is lower. If the intrastate rate is lower, then that rate will be used for billing. Hereafter, these billed rates will be referred to in this tariff as the relevant "VoIP Rates". Relevant VoIP-PSTN Traffic originating from the Company or another provider to the customer will be rated using Intrastate rates and rate structure.

and/or Local Usage (continued)

Identification and Rating of VoIP-PSTN Traffic (continued)

D. PVU Factor Updates

The customer must update the PVUC factor quarterly using the method set forth in subsection (C)(1) through (4), above. The customer shall forward to the Company, no later than September 15, 2012, this new PVUC factor.

Prospectively, the customer may update the PVUC factor quarterly using the method set forth in subsection (C)(1) through (4). If the customer chooses to submit such updates, it shall forward to the Company, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVUC factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. The Company will use the revised PVUC to calculate a revised PVU. The revised PVU factor will only apply prospectively and serve as the basis for billing until superseded by a new PVU.

E. PVU Factor Verification

Not more than twice in any year, the Company may ask the Customer to verify the PVUC factor furnished to the Company. The customer shall comply, and shall reasonably provide the records and other information used to determine their PVUC as specified in section (C)(1) and (4) above. The customer shall retain and maintain (for verification purposes) the records and other information used to determine the PVUC, for at least 12 months after the PVUC is filed (or longer if any other section of the Company's tariffs or applicable law requires a longer period). The verification process shall be conducted consistent with the provisions in Section 2.3.10 of the Company's FCC Access Services Tariff. (T)

F. Verification Process

The Company will review these Customer-provided PVUC records referenced in E. above. If the review results represent what the Company considers to be a substantial deviation from the customer's previously reported PVUC or if the PVUC appears unreasonable as compared to other related types of data, the Company will contact the customer within 30 days. This deviation issue will be dealt with in one of the following ways. The current PVUC will continue to be utilized until resolution from either of the two following methods.
