Ms. Beth W. Salak, Director
Division of Competitive Markets and Enforcement
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

Dear Ms. Salak:

Attached are new tariff pages filed to become part of the Verizon Florida Inc. General Services Tariff.

Section A10 Digital Network Services

3rd Revised Page 93
4th Revised Page 94
5th Revised Page 95
6th Revised Page 96

The purpose of this filing is to add a 24 month term option, add Centranet® CustoPAK Features service activation, and reduce some dedicated access rates.

If you require additional information, please call Carlton Ball at (813) 483-2529.

Sincerely,
David M. Christian
Assistant Vice President
Regulatory Affairs Florida

A10. DIGITAL NETWORK SERVICES

A10.13 FLEXGROW TRUNK SERVICE

.1 General

- a. FlexGrow Trunk Service is an intraexchange multifunctional digital service, which provides network access between a customer's premises and the local serving office on a channelized basis (DS0) within a single high capacity (DS1) digital facility.
- b. FlexGrow trunking is provided in capacity increments of 24 DS0 Channels within a single DS1 facility. The following types of network services may be available on a channelized basis via FlexGrow trunking.
 - Analog Voice Service (local exchange lines, PBX trunks, CentraNet® lines, CentraNet® Custopak Features, (N) foreign exchange, off premises extensions and voice grade private lines),
 - Dedicated Access (56, 64, 128, 256, and 384 Kbps),
 - Digital Data Service (2.4, 4.8, 9.6, 19.2, 56, and 64 Kbps).
- c. FlexGrow Trunk Service is available on a digital basis at the network interface at the customer's premises. Analog voice services, Digital Data Services, and Dedicated Access Services are provided to the customer's premises by the Company, encoded as a DS1 bit stream. Each digital channel provided will have identity only as a time slot within a DS1 signaling stream. In cases where the customer does not order the Customer Premises Based Channelization Service Option as a part of the FlexGrow Trunk Service, compatible conversion equipment must be provided by the customer including any Channel Service Units (CSUs).
- d. FlexGrow Trunk Service is comprised of the following options:
 - Option 1 - Central Office Based Channelization Service
 - Option 2 - Customer Premises Based Channelization Service

The rate elements for each option are as specified in Section A10.13.3.
- e. Multi-Jurisdiction provides connectivity between the customer's serving central office and the point-of-presence while FlexGrow provides connectivity between the customer's premises and the central office. Multi-jurisdiction is available for both intraoffice and interoffice channel access service. Service activation is for each digital channel the customer chooses to activate with the digital channel network functionality at the central office. Multi-Jurisdictional Service Activation permits the provisioning of interconnected services on an intrastate or interstate basis.

.2 Regulations

- a. FlexGrow Trunk Service is available only where facilities and conditions permit. Feature availability and service capabilities are dependent on the facilities and digital technology providing the service.
- b. All FlexGrow Trunk Service arrangements must have at least one DS1 equivalent FlexGrow trunk capacity activated. The total number of FlexGrow trunk channels activated by the customer may not at any time exceed the total FlexGrow trunk capacity.
- c. All FlexGrow Trunk Service must be channelized in a single equipment location on the customer's premises; channelization may be provided by the customer or the Company. The FlexGrow Trunk Service can be split among multiple customer locations, provided that each location is served by one or more separate DS1 capacity FlexGrow Trunk(s).
- d. Additionally, there are some necessary restrictions in the total system capacities where certain types of services are channelized, i.e. some channelizing equipment may require two DS0 channels per channel provided by the Company thereby reducing capacity to some degree. The Company will notify the customer when the FlexGrow Trunk capacity is affected by the choice of Service Activation.

A10. DIGITAL NETWORK SERVICES

A10.13 FLEXGROW TRUNK SERVICE (Continued)

.2 Regulations (Continued)

- e. FlexGrow Trunk Capacity is offered with 12, 24, 36 or 60-month term commitment periods, with DS1 equivalent FlexGrow Trunk or 24 DS0 channel increments. The rates established for FlexGrow Trunk Capacity apply on a monthly basis for the duration of the whole commitment term, regardless of the number of FlexGrow Trunk channels that are actually activated by the customer at any point in time. The customer may order additional FlexGrow Trunk Capacity during a term commitment period. The expiration date of the additional capacity will be the same date as the original term commitment period. (N)
- f. FlexGrow Trunk Service Activation charges are available only on a month-to-month basis for each digital channel (DS0) activated within the FlexGrow Trunk Capacity limits. The Service Activation charges are applicable for each network service (switched or dedicated, voice or data) required by the customer.
- g. In case the customer orders FlexGrow Customer Premises Based Channelization Service (Option 2), the service will be installed on the customer's premises. The customer must provide suitable floor space, controlled environment and a source nonswitched 120 volt 60 Hz AC power within four feet of the demarcation point to support the service. Emergency backup power capabilities are not included. The customer has the option to support premises channelization with CPE devices.
- h. The customer may order any combination of Option 1 and/or Option 2 Trunk Capacity and Service Activation capabilities, provided that the number of Option 1 and Option 2 Service Activations are within the trunk capacity limits that the customer specified under the respective Option.
- i. In the event the customer terminates the service prior to the completion of the term commitment, the Termination Liability in Section A2.3.17 of this tariff will apply. (T)
- j. If the tariff rates on a contract are reduced, the customer will be allowed to cancel the existing contract without penalty, provided the customer signs a new contract for equal or greater monetary value. The customer will be subject to all terms, conditions and rates of the new contract.
- k. Service charges, specified in Section A4.7 are applicable when FlexGrow is established. For initial service, the Network Access Establishment charge will apply. When a customer orders additional FlexGrow channels, requests moves within his present system, or makes changes to his present system on a subsequent order, only the service order charge as specified in A10.13.3.e. shall apply. When the customer moves to a different address, it will be treated as a disconnection of the service and an installation of a new service. (T)
- l. Customers located in exchanges which have Extended Calling Service (ECS) capability as specified in Section A3.15 of this Tariff have two FlexGrow Trunk Service Activation rate options. The FlexGrow Trunk Service Activation rate with ECS will allow the customer to call his respective ECS exchanges without incurring ECS usage charges as specified in Section A3.15.3; the FlexGrow Trunk Service Activation rate without ECS will allow the ECS customer to call his respective ECS exchanges, however, the ECS usage charges specified in A3.15.3 shall apply. Customers who do not reside in ECS capable exchanges must subscribe to the FlexGrow Trunk Service Activation rate without ECS; and shall incur applicable charges as specified elsewhere in this Tariff.
- m. Multi-Jurisdiction – The maximum number of channels that can be activated is equal to the customer's digital channel capacity. The intraoffice and interoffice service activations are incremental to the number of local exchange access lines, CentraNet®, foreign exchange, off-premises extensions, private lines, tie lines, dedicated access service, and digital data service. The number of multi-jurisdiction activations cannot exceed the number of FlexGrow Trunk Service activations. (T)

A10. DIGITAL NETWORK SERVICES

.3 Rates and Charges

a. Option 1 - Central Office Based Channelization

	<u>Monthly Rate</u>		(D)
(1) FlexGrow Trunk Capacity, per DS1 equivalent			
12 Month Contract	\$ 240.00		
24 Month Contract	220.00	(N)	
36 Month Contract	180.00		
60 Month Contract	150.00		
(2) FlexGrow Trunk Service Activation			
(a) Analog Line/Trunk/CentraNet® (without ECS) ¹	6.50		
(b) Analog Line/Trunk/CentraNet® (with ECS) ¹	11.50		
(c) Custopak Features ²	6.00	(N)	
(d) Dedicated Access		(T)	
56 or 64 Kbps	3.00		
128 Kbps	10.00		
256 Kbps	10.00	(R)	
384 Kbps	10.00		
512 Kbps	10.00		
768 Kbps	10.00	(R)	
(e) Digital Data Service		(T)	
2.4, 4.8, 9.6, 19.2, 56 & 64 Kbps	3.00		(D)
(f) Multi-Jurisdiction Access ³		(T)	
Intra-office Channel Access, per DSO	3.00		
Inter-office Channel Access, per DSO	7.00		

¹ Customers located in exchanges which have Extended Calling Service (ECS) capability as specified in Section A3.15 of this Tariff have two FlexGrow Trunk Service Activation rate options. The FlexGrow Trunk Service Activation rate with ECS will allow the customer to call his respective ECS exchanges without incurring ECS usage charges as specified in Section A3.15.3; the FlexGrow Trunk Service Activation rate without ECS will allow the ECS customer to call his respective ECS exchanges, however, the ECS usage charges specified in A3.15.3 shall apply. Customers who do not reside in ECS capable exchanges must subscribe to the FlexGrow Trunk Service Activation rate without ECS; and shall incur applicable charges as specified elsewhere in this Tariff.

² The Service Activation monthly rate for CentraNet® Custopak Features is in addition to the Service Activation rate for analog line B1 or CentraNet Service. CentraNet® Custopak Features is not available on trunks. (N)

³ The Multi-Jurisdiction Service Activation rate is applied in addition to each FlexGrow Trunk Service Activation rate when the customer selects a multi-jurisdiction option. (T)

A10. DIGITAL NETWORK SERVICES

A10.13 FLEXGROW TRUNK SERVICE

.1 General

- a. FlexGrow Trunk Service is an intraexchange multifunctional digital service, which provides network access between a customer's premises and the local serving office on a channelized basis (DS0) within a single high capacity (DS1) digital facility.
- b. FlexGrow trunking is provided in capacity increments of 24 DS0 Channels within a single DS1 facility. The following types of network services may be available on a channelized basis via FlexGrow trunking.
 - Analog Voice Service (local exchange lines, PBX trunks, CentraNet® lines, CentraNet® CustoPAK, foreign (N) exchange, off premises extensions and voice grade private lines),
 - Dedicated Access (56, 64, 128, 256, and 384 Kbps),
 - Digital Data Service (2.4, 4.8, 9.6, 19.2, 56, and 64 Kbps).
- c. FlexGrow Trunk Service is available on a digital basis at the network interface at the customer's premises. Analog voice services, Digital Data Services, and Dedicated Access Services are provided to the customer's premises by the Company, encoded as a DS1 bit stream. Each digital channel provided will have identity only as a time slot within a DS1 signaling stream. In cases where the customer does not order the Customer Premises Based Channelization Service Option as a part of the FlexGrow Trunk Service, compatible conversion equipment must be provided by the customer including any Channel Service Units (CSUs).
- d. FlexGrow Trunk Service is comprised of the following options:
 - Option 1 - Central Office Based Channelization Service
 - Option 2 - Customer Premises Based Channelization ServiceThe rate elements for each option are as specified in Section A10.13.3.
- e. Multi-Jurisdiction provides connectivity between the customer's serving central office and the point-of-presence while FlexGrow provides connectivity between the customer's premises and the central office. Multi-jurisdiction is available for both intraoffice and interoffice channel access service. Service activation is for each digital channel the customer chooses to activate with the digital channel network functionality at the central office. Multi-Jurisdictional Service Activation permits the provisioning of interconnected services on an intrastate or interstate basis.

.2 Regulations

- a. FlexGrow Trunk Service is available only where facilities and conditions permit. Feature availability and service capabilities are dependent on the facilities and digital technology providing the service.
- b. All FlexGrow Trunk Service arrangements must have at least one DS1 equivalent FlexGrow trunk capacity activated. The total number of FlexGrow trunk channels activated by the customer may not at any time exceed the total FlexGrow trunk capacity.
- c. All FlexGrow Trunk Service must be channelized in a single equipment location on the customer's premises; channelization may be provided by the customer or the Company. The FlexGrow Trunk Service can be split among multiple customer locations, provided that each location is served by one or more separate DS1 capacity FlexGrow Trunk(s).
- d. Additionally, there are some necessary restrictions in the total system capacities where certain types of services are channelized, i.e. some channelizing equipment may require two DS0 channels per channel provided by the Company thereby reducing capacity to some degree. The Company will notify the customer when the FlexGrow Trunk capacity is affected by the choice of Service Activation.
