A13.21 Billed Number Screening

A13.21.1 General

- A. Billed Number Screening (BNS) will be furnished at the Company's option and upon agreement by the customer to control instances of fraud associated with billed to third party, and/or collect calls. This service may also be furnished in response to a customer request. Service Connection Charges in Section A4 of this Tariff are not applicable when BNS is initiated by the Company. A Secondary Service Order Charge is applicable when BNS is requested by the customer.
- B. Subscriber request of BNS does not relieve the requesting customer of responsibility for calls, other than Company intraLATA calls, which originate from the subscriber's line. Failure of other long distance providers to request BNS or to act on the information digits passed to them when requesting and receiving BNS information could result in charges being placed on the subscriber's line.
