Amended 5-3-83, ___________. Formerly 25-9.52.

(1) A change to a utility’s rate structure must meet one of the following criteria: (a) is cost based; (b) has historical precedent; (c) embodies pricing concepts previously approved by the Commission; or (d) is not unduly discriminatory. The supporting information shall consist of either a utility-specific cost study or an analysis of utility-specific cost and operating data prepared using a methodology previously approved by the Commission for any comparable utility. All additional relevant information deemed necessary by the Commission shall be submitted in addition to the above request.

(2) After review of the utility’s proposed change in rate structure, staff will send written notification to the utility indicating: (a) administrative approval of the documentation or (b) how the proposed rate structure is inconsistent with the criteria listed in subsection (1) of this rule. Data from the comparable utilities shall be considered in conjunction with all submitted information which is specific to the filing utility.
