9. AT&T DIGITAL LINK

9.2 REGULATIONS

9.2.1 Provision of AT&T Digital Link

AT&T Digital Link may be utilized by Customers only for the completion of AT&T local calls that both originate and terminate within the AT&T Digital Link Local Service Area. Calls which terminate or originate outside the AT&T Digital Link Local Service Area are provided under other appropriate price lists.

9.3 Rates and Charges

ADL calls using dedicated access will be rated from the originating rate center to the terminating rate center.

- A. ADL DID and MLN rates include non-recurring and monthly recurring charges. Main Listed Number (MLN) has been grandfathered and is not available for modifications to existing locations or for new installations as of the grandfathered date specified in Section 9.1.4, preceding.
- B. ADL DOD Usage Calling Plan rates include usage based charges which are billed in arrears and apply to all DOD calls. DOD usage charges are determined by the time periods in Section 9.3.1, following.
- C. ADL Flat Rate Calling Plan

ADL Flat Rate Calling Plan allows the customer to place calls within the Local Calling Area for a fixed monthly fee billed in advance. Charges are based upon a combination of the Flat Rate Calling Plan selected by the customer, the facility capacity used by the customer and the customer's associated long distance plan for each location. The fixed monthly fee is based upon an equivalent of Full DS1 and/or Half DS1 for all Flat Rate Calling Plans except as noted below for VTNS Services. AT&T Digital Link Flat Rate Calling Plans are subject to a usage limit of 80,000 local outbound minutes per Full T1/PRI per month, or where applicable, a usage limit of 40,000 local outbound minutes per Half T1/PRI per month. The company may charge the Flat Rate monthly recurring charge for each additional half or full T1/PRI that would be needed to ensure enforcement of the usage limit. Facility capacity for customers whose ADL service is associated with VTNS (ISDN) will be calculated based upon DS0s with a minimum quantity of 12 DS0s (Half DS1) or 24 DS0s (Full DS1) and in multiples of Half DS1 or Full DS1 thereafter. Facility capacity for customers whose ADL service is associated with VTNS (non-ISDN) will be calculated based upon a minimum of 12 channels of DOD Flat Rate per trunk group (Half DS1 of Flat Rate). Channel quantities greater than 12 on a trunk group can be ordered individually and will incur the appropriate incremental number of DOD Flat Rate channel charges; however, all voice channels in such trunk group must be provisioned with DOD Flat Rate. VTNS (non-ISDN) customers who order a minimum of 12 Channels of Half DS1 will be entitled to 40,000 minutes of Flat Rate calling usage per calendar month. Additional DS0 channels purchased will provide 3,000 incremental minutes of Flat Rate calling usage per DS0 per calendar month.

Monitoring Usage

N

The company reserves the right to audit customer's usage for the above conditions. With the exception of ACC Business customers, the Flat Rate customer's local outbound usage will be monitored on a rolling three (3) calendar month period. If for three consecutive months, based on the Flat Rate Calling Plan and quantity purchased, a customer's local outbound usage exceeds the thresholds identified above, then AT&T reserves the right to move the customer to the Flat Rate billing increment needed to support the customer's average minutes of use. For ACC Business customers, Flat Rate local outbound usage will be monitored on a monthly basis.
