GENERAL SUBSCRIBER SERVICES TARIFF

This tariff contains regulations and rates applicable for the furnishing of Basic Local Exchange Service, Long Distance Message Telecommunications Service, Mobile Telephone Service, Wide Area Telecommunications Service and for other general subscriber services, equipment and facilities associated with the above services offered by the Indiantown Telephone System, Inc. This tariff and a Map Supplement containing individual Exchange Service Area maps are on file with the Florida Public Service Commission.

EXPLANATION OF SYMBOLS

(C) - to signify changed regulation or tariff
(D) - to signify discontinued rate, regulation or text
(I) - to signify increase
(M) - to signify information moved from or to another page or schedule
(N) - to signify new rate regulation and/or new text
(R) - to signify reduction
(T) - to signify a change in text, but no change in rate or regulation
(O) - to signify obsolete information

When changes are made in any tariff sheet, a revised sheet will be issued cancelling the tariff sheet affected; such changes will be identified through the use of the above symbols.

DEFINITION OF TERMS

ACCESS LINE

The service line between the central office and the subscriber's premises.

ACCESSORIES

Devices which are mechanically attached to, or used with, the facilities furnished by the Company and which are independent of, and not electrically, acoustically or inductively connected to the communications path of the telecommunications systems.

AFFILIATED ENTITIES

Those corporations, partnerships, proprietorships or other groups that are controlled by or under common control hold stock in excess of fifty percent (50%) of the stock of the entity which claims to be affiliated.

ALTERNATING CURRENT SUPPLY

Electrical energy which is used for power purposes, protection of equipment in humid area, and for the operation of bells and signal devices.

BASE RATE

A schedule rate for any form of exchange service or equipment.

(See Cross Reference Sheet for historical derivation.)

DEFINITION OF TERMS

BUILDING (SAME)

The term "same building", as it applies to other than Shared Tenant Service buildings, is to be interpreted as a structure under one roof, or two or more structures under separate roofs but connected by covered passageways not crossing public thoroughfares, in which the cable of the Company can be safely run provided the plant facility requirements are not appreciably greater than would be required normally if all structures were under one roof. In those cases where there are several structures under separate roofs but connected by covered passageways and the plant facility requirements for furnishing telephone service are appreciably greater than would be required normally if all the structures were under one roof, the term "same building" applies individually to each of the separate structures. Pipes and conduits are not considered covered passageways.

BUILDING (SINGLE)

In a Shared Tenant Service application, the term "Single Building" means one structure under one roof. Separate buildings superficially connected are not considered as one building.

CALLING AREA

See "Local Service Area."

CANCELLATION CHARGE

A charge applicable under certain conditions when an application for service and/or facilities is cancelled in whole or in part prior to the completion of the work involved.

(See Cross Reference Sheet for historical derivation.)

DEFINITION OF TERMS

CENTRAL OFFICE

A central office is a local operating unit by which subscribers' lines within a specified area are terminated and inter-connected by means of a dial or manual type of switchboard. Means are also provided for connecting subscribers with the toll or long distance switchboard and, in multi-office exchange areas, with the other central offices.

CENTRAL OFFICE DESIGNATION

See "Telephone Number."

CENTRAL OFFICE DISTRICT

The specific section or area served by a single central office or switchboard and serving all subscribers' lines which have a common central office designation.

CENTRAL OFFICE LINE

See "Access Line."

CLASS OF SERVICE

A description of access line service furnished a subscriber in terms of:

a. For Exchange Service:

DEFINITION OF TERMS

CLASS OF SERVICE (continued)

b. For Long Distance Service:

Type of Call: Station-to-station or person-to-person, credit card and operator assisted.

COIN BOX TELEPHONE

A telephone station, either public or private, equipped with a device for collecting money in payment of telephone messages.

COLLECT CALL

The procedure by which charges for certain messages, upon request, may be reversed (charged to the called station) upon acceptance of the call at the called station.

COMMUNICATIONS SYSTEMS

Channels and other facilities which are capable, when not connected to telecommunications services, of communications between customer-provided terminal equipment or Company stations.

COMPANY

Wherever used in this tariff, "Company" refers to Indiantown Telephone System, Inc., unless the context clearly indicates otherwise.

COMPANY STATION

See "Telephone Station."

DEFINITION OF TERMS

CONFORMING ANSWERING DEVICE

A conforming answering device is a customer-provided device which automatically answers incoming calls, transmits a pre-recorded message or signal, records a voice message if so designed and automatically disconnects from the line. The device may incorporate a remote interrogation function, and must incorporate an authorized protective connecting module and must bear a valid conformance number. A conformance number denotes an identifying number assigned to a particular model showing that it is in conformance with provisions set forth by the Company.

CONNECTING APPARATUS

The terminal block or standard jack to which the single line or terminal equipment may be connected.

CONNECTING COMPANY

A corporation, association, firm or individual owning and operating a toll line or one or more central offices and with whom traffic is interchanged.

CONNECTING STATION

An exchange or toll station of a connecting company.

CONSTRUCTION CHARGE

A separate charge authorized in the tariff for construction of pole lines, circuits, facilities, etc.

(See Cross Reference Sheet for historical derivation.)

DEFINITION OF TERMS

CUSTOMER PREMISES

The discrete real property owned, leased or controlled by the customer for the customer's own business or residential purposes.

CUSTOMER-PROVIDED EQUIPMENT (CPE)

Devices or apparatus and their associated wirings, provided by a customer, which do not constitute a communications system, and which when connected to the communications path of the telecommunications system, are so connected either electrically, acoustically or inductively.

CONTRACT PERIOD

The length of time for which a subscriber is obligated to retain service, facilities and equipment.

COST

The expense to the Company of rendering services, which includes materials, labor, supervision and other overhead expenses.

DATA ACCESS ARRANGEMENT

A protective connecting arrangement for use with the network control signaling unit, or in lieu of the connecting arrangement, an arrangement to identify a central office line and protective facilities and procedures to determine compliance with criteria set forth in Section 15 of this tariff.

(See Cross Reference Sheet for historical derivation.)

DEFINITION OF TERMS

DEMARCA TION POINT

The point of physical interconnection (connecting block, terminal strip, jack, protector, or remote isolation device) between the telephone network and the customer premises wiring. This point is part of the telephone network, provided and maintained by the telephone company under tariff. The location of this point is:

a. Single Line/Single Customer Building - Either at the point of physical entry to the building or a junction point as close as practicable to the point of entry.

b. Single Line/Multi Customer Building - Within the customer's premises at a point easily accessed by the customer.

c. Multi Line Systems - At a point within the same building and within 25 feet of the FCC registered terminal equipment.

DIRECT ELECTRICAL CONNECTION

The term "Direct Electrical Connection" denotes a physical connection of the electrical conductors in the communications path.

DIRECTORY LISTING

a. Caption Listing: The listing of a subscriber's name without address or telephone number followed by a series of indented listings covering branches or different departments of the business.

(See Cross Reference Sheet for historical derivation.)

EFFECTIVE DATE: JAN 31 1992

ISSUED BY:

Charles L. Dennis

DEFINITION OF TERMS

DIRECTORY LISTING (continued)

b. Dual-Name Listings: A directory listing consisting of a combination of names and/or initials of two persons who share the same surname and reside at the same address or of one person known by two sets of first and/or middle names and/or initials.

c. Foreign Exchange Listing: The listing of a subscriber in the alphabetical list of an exchange other than that for the exchange from which the subscriber is served.

d. Free Listing: A directory listing for which no specific charge is made.

e. Indented Listing: A directory listing indented under another listing.

f. Reference Listing: The listing of a generally accepted name of a firm or corporation followed by a reference to another listing.

g. Unsolicited Consumer Calls: An extra line listing in the telephone directory permitted by Florida Statutes for residential subscribers who do not wish to receive unsolicited consumer telephone calls.

(See Cross Reference Sheet for historical derivation.)

EFFECTIVE DATE: JAN 31 1992

Charles L. Dennis
Vice President-Operations
DEFINITION OF TERMS

DISCONNECTION OF SERVICE

An arrangement made at the request of the subscriber, or initiated by the Company for violation of tariff regulations by the subscriber, for a permanent interruption of telephone service; a "final" bill would be rendered showing monies owned to the Company through the date service was disconnected.

DISTRICT SERVICE AREA

See "Local Service Area."

DROP WIRE

Wires used to connect the circuits of open wire, aerial or underground distribution facilities to the standard network interface where connection is made with the inside wiring.

EXCHANGE

A central office or group of central offices, together with the subscribers' stations and lines connected thereto, forming a local system for furnishing telephone inter-communication between subscribers within a specified area, usually a single city or town.

When an exchange includes only one central office it is termed a single office exchange, but when it includes more than one central office, the exchange is termed a multi-office exchange. All of the central office designations in an exchange must also be in the same rate center.

EXCHANGE AREA

The area within which the Company furnishes complete telephone service at the exchange rates applicable within that area.

(See Cross Reference Sheet for historical derivation.)

EFFECTIVE DATE: JAN 31 1992

ISSUED BY:

Charles L. Dennis
Vice President-Operations
DEFINITION OF TERMS

EXCHANGE SERVICE

The general telephone service rendered in accordance with tariff provisions. Exchange service is a general term describing as a whole the facilities provided for local intercommunication, together with the right to originate and receive a specified or an unlimited number of local messages at charges in accordance with the provisions of this tariff.

EXCHANGE STATION

See "Telephone Station."

EXTENSION LINE

A circuit connecting an extension station with a main station or with another private branch exchange station.

EXTENSION STATION

An additional station connected on the same circuit as the main and subsidiary thereto.

FLAT RATE SERVICE

A classification of exchange service for which a stipulated charge is made regardless of the amount of use.

FOREIGN CENTRAL OFFICE MILEAGE

The measurement (air line, route, etc.) upon which is based a charge quoted for the use of part or all of a circuit furnished by the Company. Mileage is classified as follows:

a. Air Line Measurement: The shortest distance between two points.

(See Cross Reference Sheet for historical derivation.)

EFFECTIVE DATE: JAN 31 1992

ISSUED BY:

Charles L. Dennis
Vice President-Operations
FOREIGN CENTRAL OFFICE MILEAGE (continued)

b. Route Measurement: The actual length of a circuit between two points.

c. Foreign Exchange Mileage: The measurement that applies to the portion of a circuit connecting a subscriber's main station or private branch exchange with a central office of another exchange other than that from which the subscriber would normally be served, for which an additional charge is made for the circuit (usually a toll circuit) between the two exchange areas.

FOREIGN CENTRAL OFFICE SERVICE

A classification of service furnished to a subscriber in a multi-office exchange from a central office other than the one from which service would normally be furnished.

FOREIGN EXCHANGE LISTING

See "Foreign Central Office Mileage."

FOREIGN EXCHANGE MILEAGE

See "Mileage."

FOREIGN EXCHANGE SERVICE

A classification of exchange service furnished to a subscriber from an exchange other than the one from which he would normally be served.

GENERATOR

A diesel powered device for producing alternating electrical current for central office operation.

DEFINITION OF TERMS

HYBRID KEY SYSTEM

A customer owned sophisticated multi-function switching arrangement using either key button telephones or single-line non-key instruments and which may be programmed at the user's option to function either as a key system or as a PBX system.

INDENTED LISTINGS

See "Directory Listing."

INDIVIDUAL LINE SERVICE

A classification of exchange service which provides that only one access line shall be served by the same central office line.

INITIAL SERVICE PERIOD

The minimum period of time for which service, facilities and equipment are provided.

INSTALLATION CHARGE

A separate initial charge made for the establishment of service which may or may not be associated with other charges for the service or equipment furnished. An installation charge is not a recurring charge, although the other charges, if any, with which it is associated ordinarily are recurring charges.

(See Cross Reference Sheet for historical derivation.)

DEFINITION OF TERMS

INTERCEPT SERVICE

A service arrangement whereby a person calling a disconnected or discontinued telephone number is informed that the called telephone number has been discontinued, disconnected, or changed to another number, or that calls are received by another telephone.

INTRASYSTEM WIRING

Intrasystem wiring includes all cable and wiring and its associated components (e.g., connecting blocks, terminal boxes, conduit between building's support structures, etc.) which connect a system's station components to one another or to the common equipment of a PBX, key or similar system.

INSIDE WIRE

All wire or cable located on the customer's side of the demarcation point that connects CPE to the telephone network.

JACK

A socket designed to permit the establishment of telephone connections by means of stations equipped with cords ending in plugs.

KEY TELEPHONE SYSTEMS

An arrangement of equipment in combination with telephone sets and associated keys, to connect the associated telephone to any one of a limited number of exchange, PBX, inter-communicating or private lines. Line indicating, signaling, holding features, etc., are, or may be, incorporated.

LIFELINE ASSISTANCE

A program that provides for a federal credit and a state portion provided through a company credit to qualified subscribers.

DEFINITION OF TERMS

LISTING

See "Directory Listing."

LOCAL CALLING AREA

See "Local Service Area."

LOCAL MESSAGE

See "Message."

LOCAL SERVICE

A type of localized calling whereby a subscriber can complete calls from his station to other stations within a specified area without the payment of long distance charges.

LOCAL SERVICE AREA

The area within which telephone service is furnished to subscribers under a specific schedule of exchange rates and without toll charges. A local service area may include one or more exchange areas under extended area service rates.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

The furnishing of facilities for subscribers' communications on an individual message basis between rate centers or, in connection with toll stations, within the same rate center.

MAIN STATION

A telephone station directly connected by means of an individual line circuit or by a toll circuit with a central office or toll operating unit.

(See Cross Reference Sheet for historical derivation.)

EFFECTIVE DATE: JAN 31 1992

ISSUED BY:

Charles L. Dennis
Vice President-Operations
DEFINITION OF TERMS

MAINTENANCE CHARGE

The charge made for keeping telephone equipment or facilities in repair.

MESSAGE

A communication between two telephone stations. Messages may be classified as follows:

a. Local Message: A message between telephone stations within the same local service area.

b. Toll Message: A message between telephone stations in different exchange areas for which a toll charge is made.

MISCELLANEOUS EQUIPMENT

Equipment not regularly furnished with the various classes of exchange service.

MOBILE TELEPHONE SERVICE

A communication service through a land radiotelephone base station.

NETWORK CONTROL SIGNALING

The transmission of signals used in the telecommunications system which perform functions such as supervision (control, status, and charging signals), address signaling (e.g., dialing), calling and called number identification, audible tone signals (call progress signals indicating reorder or busy conditions, alerting coin denominations, coin collect and coin return tones), to control the operation of switching machines in the telecommunications system.

(See Cross Reference Sheet for historical derivation.)

EFFECTIVE DATE: JAN 31 1992

ISSUED BY:

Charles L. Dennis
Vice President-Operations
DEFINITION OF TERMS

NON-LISTED TELEPHONE

An exchange station which is not listed in the directory at the subscriber's request, but which is carried in the Information files.

NON-PUBLISHED TELEPHONE

An exchange station which has the listing omitted from the directory and directory assistance records at the subscriber's request; the Company may decline to complete connections with such stations except by call number, and may decline to furnish the call number of such station.

PERSON-TO-PERSON CALL

See "Long Distance Message Telecommunications Service."

PREMISES

The term "same premises" (except in connection with inside moves) shall be interpreted to mean: (a) the building or buildings, together with the surrounding land occupied as, or used in the conduct of one establishment, business, residence, or combination thereof, and not intersected by a public road or by property occupied by others; (b) the portion of the building occupied by the subscriber, either in the conduct of his business or residence, or a combination thereof, and not intersected by a public corridor or by space occupied by others; or, (c) the contiguous property operated as a single farm whether or not intersected by a public road.

PRIMARY CLASS OF SERVICE

A class of service which the Company undertakes to furnish at any point within the base rate area at a rate common to all applicants for the same class.

(See Cross Reference Sheet for historical derivation.)

EFFECTIVE DATE: JAN 31 1992

ISSUED BY:

Charles L. Dennis
Vice President-Operations
DEFINITION OF TERMS

PUBLIC TELEPHONE

A public telephone is an exchange station installed on the Company's initiative, or at the Company's option, at a location chosen or accepted as suitable and necessary for furnishing service to the general public.

Coin Box Public Telephone: A public telephone equipped with a coin collecting device into which all payments for the use of the telephone are deposited.

RATE CENTER

A designation for central office codes which determines the rating of toll messages. Central office prefixes in the same rate center will share the same V & H coordinate designations, as listed in the AT&T Long Lines Distance Dialing Reference Guide.

REFERENCE LISTING

See "Directory Listing."

SECRETARIAL LINES

Extension station lines or main station lines of patrons of a telephone answering bureau which terminate in telephone answering facilities on the premises of the bureau so as to permit the bureau attendant to answer incoming calls on such lines.

SEMI PUBLIC TELEPHONE

An exchange main station including a coin box, furnished at locations reasonably accessible to the public but not suitable for the installation of public telephones.

(See Cross Reference Sheet for historical derivation.)

EFFECTIVE DATE: JAN 31 1992

ISSUED BY:

Charles L. Dennis
Vice President-Operations
DEFINITION OF TERMS

SERVICE CHARGE

A non-recurring charge for work required due to a subscriber's request, which may be made up of various component charges for categories of work functions, such as premise visit charges, or access line charges or service order charges.

SHARED TENANT PROVIDER

One who has been granted a certificate of public convenience and necessity by the Florida Public Service Commission to provide Shared Tenant Services in accordance with Chapter 86-270, Law of Florida (or Section 364.339, Florida Statutes [Supp. 1986]).

SHARED TENANT SERVICE

A class of resold local exchange service furnished through a common switching or billing arrangement to commercial tenants within a single building by a provider other than an existing local exchange telephone company.

STANDARD NETWORK INTERFACE (SNI)

a. A standard Registration Program jack or equivalent provided by the Company as a part of exchange access, WATS, or Private Line Services.

b. The Standard Network Interface will be located on the subscriber premises.

c. All premises service will connect to the telecommunications network through the Standard Network Interface.

DEFINITION OF TERMS

STANDARD NETWORK INTERFACE (continued)

For an existing installation, the protector or point where facilities enter a customer's premises is to be established as the end of such service. Prospectively, a Company-provided standard Registration Program jack is to be used as the point of connection to the telecommunications network. All newly constructed customer premises will be provided with a Standard Network Interface.

STATION LINE

A private branch exchange station line or circuit which may be terminated in a station or in a pick-up key.

SUBSCRIBER OF RECORD/CUSTOMER OF RECORD

A person, firm, partnership, corporation, municipality or cooperative organization which orders and is responsible for paying the telephone bill for any form of exchange service furnished by the Company. A subscriber may also be the agent for multi-subscribers when the exchange service is for residential individual line service and the service will be used by multi-owners of the individual residential apartment, the individual residential condominium unit apartment, or the single-occupancy residential home.

SUSPENSION OF SERVICE

An arrangement made at the request of the subscriber, or initiated by the Company for violation of tariff regulations by the subscriber, for temporarily interrupting service. During the period of suspension, the Company's equipment remains at the customer's location; the service is rendered inoperable at the central office frame and billing continues. Facilities are reserved in anticipation that normal service will be resumed at some future date.

DEFINITION OF TERMS

WIRING PLAN

An arrangement of wiring including associated keys and/or relays for connecting main and extension stations, and/or the answering of more than one telephone line from one telephone set.

YEAR-2000 COMPLIANT

An information technology product is "year-2000 compliant" if the product, when used in accordance with its associated documentation or recommended user intervention, is capable of correctly processing, providing, and receiving date data, and will do so for all dates occurring between February 28, 1996, and March 1, 2000, when all other information technology products that are used with the product properly exchange date data with it. An information technology product does not fail to be year-2000 compliant merely because it contains a defect that is unrelated to the manner in which the product processes, provides, or receives date data and that only incidentally causes the product to fail to properly process, provide, or receive date data.

GENERAL REGULATIONS

2.1 APPLICATION

The regulations specified herein are applicable to all communications services offered in this tariff by Indiantown Telephone System, Inc., (hereinafter referred to as the Company). Additional regulations, where applicable, pertaining to specific service offerings accompany such offerings in various sections of this tariff.

2.2 LIMITATIONS AND USE OF SERVICE

2.2.1 Use of Subscriber's Service

a. Telephone equipment and facilities are furnished for the use of the subscriber and his family, employees, agents or guests. The Company will not install or permit exchange service to remain at locations where the use of such service will be by the general public.

b. The service and facilities furnished by the Company are subject to the terms, conditions and limitations herein specified.

2.2.2 Establishment of Identity

The calling party shall establish his identity in the course of any communication as required by law.

2.2.3 Customer-Provided Terminal Equipment and Customer-Provided Communications Systems.

Customer provided terminal equipment may be used and customer provided communications systems may be connected with the facilities furnished by the Company for telecommunications services as provided in Section 15 of this tariff.

(See Cross Reference Sheets for historical derivation.)

EFFECTIVE DATE: JAN 31 1992

ISSUED BY:

Charles L. Dennis
Vice President-Operations
2.2 LIMITATIONS AND USE OF SERVICE (Continued)

2.2.4 Accessories Provided by the Subscriber

Accessories which aid a subscriber's convenience in his use of service furnished under this tariff are permissible, provided any such accessory so used does not interfere with the proper functioning of equipment or facilities of the Company.

2.2.5 Limitation of Length of Communication

The Company reserves the right to limit the length of communication when necessary because of a shortage of facilities caused by emergency conditions.

2.2.6 Transmitting Messages

Employees of the Company are forbidden to accept either oral or written messages to be transmitted over the lines of the Company.

2.2.7 Unlawful Use of Service

The service is furnished subject to the condition that it will not be used for any unlawful purpose. Service will be discontinued if ordered by the PSC or by a Court of competent jurisdiction.

2.2.8 Cancellation of Service for Cause

The Company may refuse or discontinue service under the following conditions, provided the customer shall be given notice and allowed a reasonable time to comply with any rule or remedy any deficiency:

(See Cross Reference Sheets for historical derivation.)

EFFECTIVE DATE: JAN 31 1992 

ISSUED BY:

Charles L. Dennis

GENERAL REGULATIONS

2.2 LIMITATION AND USE OF SERVICE (continued)

2.2.8 Cancellation of Service for Cause (continued)

a. For non-compliance with and/or violation of any State or municipal law, ordinance or regulation pertaining to telephone service.

b. For the use of telephone service for any other property or purpose than that described in the application.

c. For failure or refusal to provide the utility with a deposit to insure payment of bills in accordance with the utility's regulations.

d. For neglect or refusal to provide reasonable access to the utility for the purpose of inspection and maintenance of equipment owned by the utility.

e. For non-compliance with and/or violation of the Commission's regulations or the utility's rules and regulations on file with the Commission, provided five working days' written notice is given before termination.

f. For non-payment of bills for telephone service, provided that suspension or termination of service shall not be made without five (5) working days' written notice to the customer, except, in extreme cases. The written notice shall be separate and apart from the regular monthly bill for service.

(See Cross Reference Sheet for historical derivation.)

EFFECTIVE DATE: JAN 31 1992

ISSUED BY:

Charles L. Dennis
Vice President-Operations
2.2 LIMITATION AND USE OF SERVICE (continued)

2.2.8 Cancellation of Service for Cause (continued)

g. Without notice in the event of customer use of equipment in such manner as to adversely affect service to others.

h. Without notice in the event of tampering with the equipment furnished and owned by the utility.

i. Without notice in the event of unauthorized or fraudulent use of service. Whenever service is discontinued for fraudulent use of service, the utility may, before restoring service, require the customer to make, at his own expense, all changes in facilities or equipment necessary to eliminate illegal use and to pay an amount reasonably estimated as the loss in revenues resulting from such fraudulent use.

Note: For purposes of paragraphs (e) and (f), "working day" means any day on which the utility's business office is open and the U.S. Mail is delivered.

2.3 ESTABLISHING AND FURNISHING SERVICE

2.3.1 Availability of Facilities

a. The Company's obligation to furnish service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the provision of such service.

(See Cross Reference Sheet for historical derivation.)

GENERAL REGULATIONS

2.3 ESTABLISHING AND FURNISHING OF SERVICE (continued)

2.3.1 Availability of Facilities (continued)

b. The rates and charges quoted in this tariff provide for the furnishing of service and facilities where suitable facilities are available or when the construction of the necessary facilities does not involve excessive cost.

c. When excessive costs are involved for the construction of facilities, charges for such construction will be determined in accordance with the regulations as set forth in Section 5, except as otherwise specified.

2.3.2 Application for Service

a. Any applicant for service may be required to sign an application form requesting the Company to furnish the service in accordance with rates, charges, rules and regulations from time to time in force and effect. In case of refusal of service, the Company shall notify the applicant or customer in writing of the reason for such refusal.

b. The Company reserves the right to refuse service to any applicant who is found to be indebted to the Company for service previously furnished until satisfactory arrangements have been made for the payment of all such indebtedness. The Company may also refuse to furnish service to any applicant desiring to

c. The following shall not constitute sufficient cause for refusal of service to an applicant or customer:

(1) An applicant may not be refused service because of delinquency in payment for service by a previous occupant of the premises unless the current applicant occupied the premises at the time the delinquency occurred and the previous customer continues to occupy the premises and shall benefit from such new service.

(2) Delinquency in payment for service by a present occupant who was delinquent at another address and subsequently joined the household of the subscriber in good standing.

The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors, or defect in the transmission, or failure or defects in the service and/or facilities furnished by the Company, occurring in the course of furnishing service or other facilities and not caused by the negligence of the subscriber, or of the Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision or failure of the information technology products of the Company to be "year-2000 compliant," shall in no event exceed an amount equivalent to the proportionate charge to the subscriber for the period of service during which such mistake, omission, interruption, delay, error, or defect in transmission or defect or failure in service or facilities occurs.

2.5.2 Use of Facilities of Other Connecting Carriers

When suitable arrangements can be made, facilities of other connecting carriers may be used in conjunction with the Company's facilities in establishing connections to points not reached by this Company's facilities. Neither this Company nor any connecting carrier participating in a service shall be liable for any act or omission of any other company or companies furnishing a portion of such service.

4.3 APPLICATION OF CHARGES

4.3.1 General

a. Charges apply for the categories of work described herein.

b. More than one type of charge may be applicable to work that is done by the Company.

4.3.2 Categories of Work

a. Receiving Information and Scheduling Activity - Whenever subscribers request action, the Company must receive information and schedule activity, which requires a service order. Service orders are either primary or secondary.

b. Establishing Service - Whenever subscribers request the establishment of service or the move of an existing service to different premises, work is usually required. To establish service or move service to different premises, the Company will charge:
   1) a primary service order charge
   2) a premise visit charge* and
   3) an access line charge

*The premise visit charge will be applied only if it is necessary to actually visit the subscriber's premises.

(See Cross Reference Sheet for historical derivation.)

c. Moving Service - Whenever subscribers request that existing service be moved to different premises the Company will charge:

1) a secondary service order charge
2) a premise visit charge, if necessary to visit the customers premises, and
3) an access line charge.

d. Disconnecting Service - Whenever subscribers request disconnection, work may be required. Even so, unless specified otherwise in other sections of this tariff, there will be no charge applied by the Company.

e. Restoring Service - After suspension of service for non-payment of charges, work may be required whenever a subscriber requests restoration of such service and meets the criteria for restoration, by paying all charges due or, at the discretion of the Company, a substantial portion thereof. Whenever service is so restored, the Company will charge a restoration fee.

i. Locating Trouble - Whenever trouble is reported to the company, it must be investigated, and Company employees may need to be dispatched to the subscriber's premises. If, after arrival, the trouble is determined not to have been caused by Company equipment or facilities, the subscriber will be so notified, and the Company will charge a trouble location charge, and such charge will not cover any repair, maintenance or materials. In order to avoid the assessment of a trouble location charge, the subscriber may join a Trouble Location Plan by paying the Company a monthly recurring charge per access line.

j. Dealing with Dishonored Checks - Whenever subscribers issue a check to the Company which is returned dishonored by the bank upon which it is drawn, the Company must take certain action and may take the steps permitted by Section 823.07, Florida Statutes. The steps include levying a returned check charge.

k. All persons applying for residential service shall be informed of the availability of the Company's installment plan for the payment of service connection charges. The information will be provided at the time of initial contact and shall include, but not be limited to information on rate amounts and installment time periods and procedures. Residential customers are permitted to pay service connection charges in equal monthly installments over a period of three (3) months. A monthly service fee of $1.00 will be charged to applicants who elect to pay the service connection charge in installments.

CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

5.1 CONSTRUCTION CHARGES

5.1.1 Extension of Facilities

a. The Company may require a reasonable deposit from the applicant(s) before construction is commenced in order to guarantee performance. The deposit shall be returnable to the applicant on a pro-rata basis at either quarterly or annual intervals on the basis of installation of service to new subscribers. If returned on a quarterly basis, no interest will be paid; but if refunded annually, the refundable portion shall bear interest at a rate equivalent to the then-current prime interest rate.

b. Any amount due The Company under Rule 25-4.093 may be withheld when the deposit is being returned to the applicant.

c. Any portion of the deposit remaining unrefunded five (5) years from the date The Company is first ready to render service from the extension will be retained by the utility as liquidated damages and credited to an appropriate account.

5.1.2 Construction on Private Property

5.3 CONTRACT SERVICE ARRANGEMENTS

5.3.1 General

A. Contract service arrangements may be offered to meet offerings by any competitive provider of the same, or functionally equivalent, non-basic services in a specific geographic market or to a specific customer.

B. Rates, Charges, Terms and additional regulations, if applicable, for the contract service arrangements will be developed on an individual case basis, and will include all relevant costs, plus an appropriate level of contribution.

C. Costs for the contract service arrangements will include one or more of the following items:
   1. Labor, engineering and materials
   2. Operating expenses, e.g., maintenance, administration, etc.
   3. Return on investment
   4. Taxes
   5. Depreciation
   6. Any other identifiable associated cost

D. Unless otherwise specified, the regulations for contract service arrangements are in addition to the applicable regulations and rates specified in other sections of this Tariff.

E. Contract Service Arrangements may be offered on any non-basic service in this Tariff that satisfies the requirements specified in this section of the Tariff. Contract Service Arrangements may be offered for a basic service only if the basic service is offered as part of a package with non-basic services.

5.3 CONTRACT SERVICE ARRANGEMENTS (continued)

5.3.1 General (continued)

F. Contract Service Arrangements are furnished by the Company to a subscriber only for communications in which the subscriber has a direct interest and shall not be used for any purpose for which a payment or other compensation shall be received by him from any other person, firm or corporation for such use, or in the collection, transmission or delivery of any communication for others. Contract Service Arrangements will not be offered to other Common Carriers (OCC’s) or other parties for the purposes of resale and/or shared use.

G. The subscriber and the Company may elect to enter into an agreement where certain rates and/or charges for contract service arrangements are applicable for a fixed period of time. The Company will continue to offer such contract service arrangements without change in the applicable rates and/or charges unless mutual consent has been reached between the Company and the subscriber to undertake such changes. The Florida Public Service Commission will not adjust contract service arrangement rates and/or charges during this period. At the completion of this period, the agreement may be renewed at the option of the Company and the subscriber. Revised rates and/or charges may apply to any renewed agreement.

DIRECTORY LISTINGS

6.1 REGULATIONS APPLICABLE TO DIRECTORY LISTINGS

a. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory. Listings are intended solely for the purpose of identifying subscribers' telephone numbers and as an aid to the use of telephone service.

b. The listing of subscribers either without charge or at the rate specified herein for additional listings in the alphabetical section of the directory does not contemplate special prominence of arrangement. In accepting listings as requested by subscribers or prospective subscribers, the Company will not be a party to controversies between subscribers as a result of the publication of such listings in its directories.

c. Listings must conform to the Company's specifications with respect to its directories. The Company reserves the right to reject listings when in its judgement such listing would tend to delay or impede the use of the service.

d. The Company reserves the right to limit the length of any listing to one line in the directory by use of abbreviations when in its judgement the clearness of the listing and the identification of the subscriber is not impaired thereby.

e. Each of the following types of services is entitled to one listing which is included in the monthly charge for service:

   (1) Individual access lines, each main station

6.1 REGULATIONS APPLICABLE TO DIRECTORY LISTINGS (continued)

e. (continued)

(2) Private branch exchange directly connected to a central office, each system

(3) Shared tenant service arrangements, each system

(4) Semi-public telephone service, each station

f. Street numbers, followed by the names of streets, will be used in identifying the location of the subscriber, except when in the judgement of the Company, names of buildings, apartment houses or communities serve as a better means of identification. Corner addresses are undesirable and will be used only where the street number is not available. The use of floor, room or suite numbers of buildings or apartment houses, or other such designations is not permitted.

g. Listings are not provided in connection with public telephone service except when in the judgement of the Company, the listing will facilitate the operations of the Company. No additional listings are permitted. Listings in connection with semipublic telephone service are furnished under the same rates and regulations as other business service.
DIRECTORY LISTINGS

6.1 REGULATIONS APPLICABLE TO DIRECTORY LISTINGS (continued)

h. When in the judgement of the Company the use of reference or other listings, in excess of the number of listings permitted without extra charge, as previously outlined, are needed for better identification of the subscriber or governmental offices, or to facilitate the Company's operations, such listings may be provided without charge.

i. In connection with individual line service where there is more than one main station and the telephone numbers of such stations are consecutive and are connected for rotary service, only one listing is regularly furnished, but additional name listings which would otherwise be available at the regular rate for additional listings may be obtained without charge, provided they do not exceed the number of main station lines or auxiliary lines. Additional listings on consecutive numbers usually bear the call number of the first line, but at the customer's request they may bear any of the consecutive numbers.

j. No listing, with or without charge, will be permitted where such listing is a repetition of any other listing furnished the subscriber.

DIRECTORY LISTINGS

6.1 REGULATIONS APPLICABLE TO DIRECTORY LISTINGS (continued)

k. Listing charges date from the day the information records are posted and are payable monthly in advance. Information records are posted at the time the application for the listing is made.

l. Errors or omissions should be promptly reported to the Business Office.

6.2 BUSINESS LISTINGS

6.2.1 General

a. Generally, business listings consist of a name, a designation descriptive of the subscriber's business, if not self-explanatory, the address at which service is rendered, and the business telephone number. The primary listing is ordinarily the name of the individual, firm or corporation which contracts for the service or the name under which the business is regularly conducted, but may be that of a second party designated by the subscriber. Additional listings may be furnished in the names of partners, or members of the firm, if the subscriber is a partnership or firm; the names of officers of the corporation where the subscriber is a corporation, and for any business establishment, the names of associates or employees of the subscriber. additional listings may also be the bona fide names of individuals, firms or corporations which the subscriber owns or controls or is duly authorized to represent. Listings which include names other than these are furnished only subject to the rates and regulations specified in this tariff.

b. All listings of a subscriber's services which are located on the same premises must bear the same address. In the case of off-premise extensions, the address of the off-premise location may be shown.

EFFECTIVE DATE: JAN 31 1992

ISSUED BY:

Charles L. Dennis
Vice President-Operations
6.2 BUSINESS LISTINGS (continued)

6.2.2 Business Designations

a. The designation in a business listing consists of a word or phrase, abbreviated where necessary, that describes the general character of the subscriber's business. Designations will not be used where the name under which the subscriber is doing business is sufficient to indicate the character of the business. The listing of an individual, together with his title and the name of the business with which he is associated or represents, in lieu of a designation of the general character of the business, is not permitted. Likewise, the listing of the name of a firm or corporation, followed by the name or name and title of an individual connected therewith, in lieu of a business designation, is not permitted.

Example of listings not permitted:

Smith, J. G., Mgr., Lewis Grocery Co., 14 Jackson 337-1212

6.2 BUSINESS LISTINGS (continued)

6.2.2 Business Designations (continued)

b. Listings of clergymen, physicians, surgeons, dentists, veterinary surgeons, professors, government officials, etc., may for purposes of identification include abbreviated designation of titles. Also the title of "Mrs.", "Ms." or "Miss" is permitted. Degrees are permitted when they serve as a means of better identification. Titles and designations will be omitted when a degree is used which conveys adequate information.

6.2.3 Trade Names

A trade name created by adding a term such as Company, Agency, Shop, Works, etc. to the name of a commodity or service will be accepted as a listing only if the subscriber shows satisfactory evidence that he is authorized to do business under the trade name. The Company reserves the right to reject listings which appear to be designed primarily to give publicity to the commodity or service, or which in its judgement are otherwise objectionable or unnecessary for identification purposes.

(See Cross Reference Sheet for historical derivation.)
6.3 RESIDENCE LISTINGS

Residence listings consist of a name, the address of the premises at which service is rendered, and the telephone number. The primary listing is ordinarily the name of the individual who subscribes for the service, but the listing may be in the name of a second party so designated by the subscriber. Additional listings may be furnished in the names of relatives, including those by marriage, domestic employees of the subscriber, or other persons residing in the subscriber's home who are recognized as a part of the subscriber's domestic establishment.

6.3.1 Special Residence Designations

Listings of clergymen, physicians, surgeons, dentists, veterinary surgeons, professors, government officials, etc. may, for the purpose of identification, include abbreviated designations of titles. Also, the title "Mrs.", "Ms." or "Miss" is permitted.

6.3.2 Dual Name Listings

a. Dual-name listings are defined as a combination of names and/or initials of two persons who share the same surname and reside at the same address or of one person known by two sets of first and/or middle names and/or initials.

b. The following examples illustrate the format options for dual-name listings:

6.4 NON-PUBLISHED NUMBER SERVICE

6.4.1 General

a. Some subscribers request their telephone numbers be omitted from the directory and the Company's information records. Such requests when presented in writing may be fulfilled through the assignment of a non-published telephone number subject to the regulations outlined below. Such requests are discouraged as far as possible, and the subscriber is required to sign a written statement releasing the company from all responsibility for losses arising from such an arrangement.

c. Listing charges are automatically discontinued upon termination of the main contract for service and additional listing charges may be discontinued upon request after the expiration of the initial contract period for additional listings. Charges for additional listings of those other than the subscriber may be discontinued upon request from the subscriber in case the listed party becomes a subscriber to exchange service, similar in classification, i.e., business or residence, as that under which such party already is listed, or in case of death of the listed party or in case the listed party moves from the premises at which the exchange service listed is furnished.

d. No Sales Solicitation Calls

Residential customers desiring to be placed on a "no sales solicitation calls" list may notify the Division of Consumer Services of the Department of Agriculture and be placed on a list for a charge of $10.00, renewable annually for $5.00. Section 501.059, Florida Statutes. The expression of a desire not to receive telephone solicitation may no longer be listed in the Company's directory.

6.7.6 Alternate Listings

Subscribers may obtain listings which refer calling parties to certain other telephone numbers. Alternate listings are of two general types as described below:

a. Nights, Sundays and Holidays

   (1) This type of alternate listing refers calling parties to an alternate telephone number to be used after business hours and on Sundays and holidays or on special calling instructions. The monthly rate for such listing is the same as the additional listing rate for the first line, and the additional line rate for each line thereafter.

   (2) Names of individuals are not permitted in listings of this type; however, telephone numbers may be shown of those entitled to use the service, in connection with which the alternate listing is to be provided, and who are agreeable to the use of their numbers in such alternate listing.

6.8 PRIVATE BRANCH EXCHANGE LISTINGS

a. In connection with private branch exchange service, additional listings may be furnished without extra charge when, in the judgment of the Telephone Company, they are necessary to properly identify the subscriber or would be helpful to his service, provided they do not exceed the number of trunk lines. All of the listings, with or without extra charge, usually bear the call number of the first trunk line but at the customer's request they may bear any of the consecutive numbers including listings of those numbers employed in making calls when the private branch exchange operator is not on duty. The listing of a trunk line number of a separate rotary series of trunk lines may be arranged to meet special conditions.

b. When in the judgment of the company the use of reference or other listings in excess of the number of listings permitted without extra charge, as set out above, are needed for better identification in order to facilitate the Company operations, such listings may be provided without charge.

FOREIGN EXCHANGE SERVICE

9.1.1 General Description

a. Foreign Exchange service is exchange service furnished to a subscriber from an exchange other than the one from which the subscriber would normally be served.

b. The service is provisioned via dedicated facilities from the subscriber's premises to the foreign office. The service allows subscribers to have local presence and two-way communications in an exchange different from their own.

c. Foreign Exchange service is provided as a voice grade service and is not represented as suitable for satisfactory transmission of data. Transmission characteristics may vary depending on the distance and routing required to originate or complete the switched portion of the call at the open (dial-tone) end.

9.1.2 Definitions

Certain terms used generally throughout this tariff are defined as follows:

CLOSED END

The term "Closed End" denotes the station end of the Foreign Exchange service which is located in the subscriber's Serving Wire Center.
FOREIGN EXCHANGE SERVICE

9.1.2 Definitions (Cont'd)

HOME WIRE CENTER

The term "Home Wire Center" denotes the wire center from which a customer or authorized user would normally be served for local exchange service.

OPEN END

The term "Open End" denotes the dial-tone end of the Foreign Exchange service which is located in the foreign exchange and where network switching of calls occurs.

9.1.3 Regulations

a. Foreign Exchange service may only be provided where all facilities and serving points are located in the same LATA.

b. This service may be furnished on a link (partial channel) basis; however, in these situations the Exchange Access rate element as well as the Foreign Exchange usage charges will continue to apply regardless of any substitutions (partial or otherwise) with respect to the Local Channel and/or Interoffice channel.

c. Other services, equipment or facilities used in connection with Foreign Exchange service, except as otherwise indicated in this tariff, are furnished subject to rates and regulations applying in the exchange in which the foreign office is located.

BY: Charles L. Dennis, Vice President - Operations
9.1.3 Regulations (Cont'd)

d. Foreign Exchange service is furnished subject to the same restrictions as to the use of the service by other than the subscriber and his representatives as apply in connection with other classes of service.

e. Subscribers to Foreign Exchange service are not required to subscribe to other services in the exchange from which they would normally be served.

f. When service is interrupted due to causes other than the negligence of the customer, or to the failure of facilities furnished by the customer, a credit allowance will be made upon request as set forth in B2.4 of the Private Line Service Tariff, as appropriate.

g. This service is not offered in conjunction with optional extended area local calling plans.

h. Resale of this service is not permitted.

9.1.4 Rate Categories

a. Service Configuration

There are two types of service configurations which can be provided. These are described as follows:
FOREIGN EXCHANGE SERVICE

9.1.4 Rate Categories (Cont'd)

a. Service Configuration (Cont'd)

(1) Single-Point Service

(a) A single-point service connects a subscriber's premises to a central office other than the one from which the subscriber would normally be served.

(2) Multipoint Service

(a) Multipoint (extension) service provides foreign office dial-tone for more than one customer premises.

(b) Multipoint bridging can be provided out of the foreign office or the subscriber's serving wire center.

b. Types of Rates and Charges

(1) Monthly Rates

Monthly rates are recurring charges that apply each month or fraction thereof that a service is provided. For billing purposes, each month is considered to have 30 days.
FOREIGN EXCHANGE SERVICE

9.1.4 Rate Categories (Cont'd)

b. Types of Rates and Charges (Cont'd)

(2) Nonrecurring Charges

Nonrecurring Charges are one-time-charges that apply for a specific work activity.

(a) Installation of Service

The charges for the installation of services are set forth in Section 30 E. following as nonrecurring charges for the Local Channel and Interoffice Channel rate elements.

Nonrecurring Charges apply for each service terminated at the subscriber's premises. When more than one of the same type of service, between the same locations and for the same customer, is ordered and installed at the same time, one local channel at each location is billed at the First Service Installed rate and the others are billed at the Additional Service Installed rate.

(2) Nonrecurring Charges (Cont'd)

(b) Service Rearrangements

1. Service rearrangements are changes to existing (installed) services which do not result in a change in the physical location of the point of termination at a customer premises. Changes in the physical location of the point of termination are treated as moves and are described and charged for as set forth in 3. following.

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the service.

Administrative changes will be made without charge(s) to the customer. Such changes require the continued provision and billing of the Foreign Exchange service to the same entity (i.e., customer remains responsible for all outstanding indebtedness for the service). Administrative changes are as follows:

(2) Nonrecurring Charges (Cont'd)

(b) Service Rearrangements (Cont'd)

1. (Cont'd)

-Change of customer name (i.e., the customer of record does not change but rather the customer of record changes name).

-Change of customer or customer's premises address when the change of address is not a result of a physical relocation of equipment.

-Change in billing data (name, address or contact name or telephone number).

2. All other service rearrangements will be charged for as follows:

-If the change involves the addition of other customer designated premises to an existing multipoint service, the nonrecurring charge for the local channel rate element will apply. The charges will apply only for the location(s) that is being added.

-For all other changes a charge equal to a Local Channel rate element nonrecurring charge will apply. Only one such charge will apply per service, per change.

3. A Telephone Number Change Charge, as set forth in Section 7 of this tariff, applies to any subscriber requested change of telephone number.

4. Service Charges as specified in Section 7 of this tariff may also be applicable.

(3) Usage Charges

In addition to the monthly and nonrecurring charges, the subscriber will pay a Flat Rate Usage Charge each month.

c. Moves

(1) A move involves a change in the physical location within the subscriber's serving wire center, of one of the following:

(a) The point of interface at the subscriber's premises.

(b) The subscriber's premises.

(2) The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(2) (Cont'd)

(a) Moves Within the Same Building

When the move is to a new location within the same building, the charge for the move will be an amount equal to one-half the nonrecurring for the local channel.

(b) To a Different Building

The nonrecurring charge for the local channel will apply for moves to a different building.

d. Basic Rate Elements

Following are the basic rate elements which apply to Foreign Exchange service:

(1) Local Channel

(a) The primary local channel provides for a communications path between a subscriber's premises and the home wire center of that premises. One local channel applies per channel termination.

(b) Where multipoint service is provided, the secondary local channel provides a communications path between an additional subscriber's premises and the home wire center of that premises.

(2) Interoffice Channel

(a) This rate element provides for the transmission facilities between the subscriber's home wire center and the foreign office.

Interoffice mileage is portrayed in mileage bands. A fixed rate and a rate per mile applies to each band.

(b) Interoffice mileage to be used to determine the monthly rate for this rate element is calculated on an airline distance as follows, regardless of how the service is physically routed:

1. For the primary leg - between the subscriber's serving wire center and the foreign office.

(c) The V & H coordinates method is used to determine mileage.

(3) Bridging Equipment Charge

(a) This rate element provides for multipoint bridging for each bridges local channel. Bridging will be provided for each bridged local channel at one of the following locations as appropriate:

1. The serving wire center of the primary local channel, or

2. The foreign office of the service.

(4) Exchange Access

(a) This rate element provides dial tone at the foreign office. Usage charges also apply as described in e. following.

(5) Foreign Exchange Usage Charges

(a) This rate element provides traffic sensitive switching for all calls originated by the subscriber and terminating within the local calling area of the foreign exchange subscriber.

(b) Rates and charges for the closed end of the service include local channel(s), interoffice mileage, and, where appropriate, bridging charges as set forth in Section 30.F following.

FOREIGN EXCHANGE SERVICE

9.1.5 Billing of Foreign Exchange Service Provided by Multiple Companies

a. Each company will bill for the portion of the service provided by their respective tariff based on their regulations, rates and charges as appropriate.

b. The charges billed by each company for the interoffice channel between telephone company central offices are determined as follows:

   (1) The total mileage for the service is computed using the V & H coordinates set forth in the National Exchange Carrier Association, Inc. (NECA) Tariff F.C.C. No. 4.

   (2) A billing factor is determined from the NECA Tariff No. 4. This factor represents the percentage of the distance between exchange telephone company central offices that will be billed by each company. The billing factor is multiplied by the total charge for all of the miles to determine the amount to be billed by the Company.

PRIVATE BRANCH EXCHANGE SERVICE

11.1 GENERAL

a. The rates quoted herein for private branch exchange service contemplate the use of standard equipment. When equipment of a special type is used, the determination of the rates to apply is based upon the individual requirements of each case.

b. All operation at the subscriber's premises is performed at the expense of the subscriber and is required to conform with the rules and regulations the Company may adopt as necessary in order to maintain a proper standard of general service.

c. The rates specified hereinafter apply for service provided to stations located within the same building as the switchboard.

11.2 TRUNK LINES

11.2.1 General

a. The monthly rate per trunk line is $42.03. (T)

11.2.2 Special Access Services Capable of Using the Local Exchange Network

a. Exchange services (i.e. PBX or B-1 Lines) that are associated with devices capable of interconnecting intrastate interexchange private lines, or interLATA special access lines or private bypass facilities to the local exchange network will carry a charge as follows in addition to the charges shown in 11.2.1, above.

11.2.2 Special Access Services Capable of Using The Local Exchange Network

a. (continued)

(1) Measured Rate $.03/min. in offices with measurement capability

(2) Message Rate $.12/msg.

b. When an interexchange private line, special access line or private bypass facility is connected to a device capable of interconnecting the interexchange private line, special access line or private bypass facility to the local exchange network, and the customer does not certify that the facility does not leak, the exchange service rate associated with that device (e.g. the PBX trunk in the case of a PBX) will be rated as message or measured service.

c. Under the conditions of (b) above mandatory measured/message rate service is imposed on the IXC's customer to assure that they are not using private lines to complete long distance calls over the switched network; i.e. that they do not have a "leaky PBX."

d. The additional charge will not apply when a customer certifies that toll calls are not completed over these private lines. Refer to the Florida Access Tariff, E7.4.2. and the

11.3 DIRECT-IN-DIALING (DID) TO CUSTOMER-PREMISES LOCATED SWITCHING SYSTEMS

11.3.1 General

a. Direct-In-Dialing Service is furnished subject to the availability of facilities and telephone numbers.

b. The service includes the central office switching equipment necessary for in-dialing from the exchange and toll network directly to the stations associated with switching equipment located at the customer's premises.

c. The service must be provided on all lines in a trunk group arranged for inward service.

d. The customer must subscribe to trunks in sufficient number, as determined by the Company, to prevent degradation of service.

e. The rates for the service are based on the use of standard Company equipment and serving arrangements. When equipment or a serving arrangement of a special type is requested and provided, rates and charges are based on the costs incurred to meet the individual requirements of each case.

f. The Company shall not be responsible to the customer or authorized user if changes in protection criteria or in any of the facilities, operations, or procedures of the Company authorized user, make obsolete or require modification or alteration of such equipment or system, or otherwise affect its use or performance.

g. Customer-provided switching systems must provide for the intercepting of assigned numbers.

h. The operational characteristics of interface signals between any connecting arrangements which may be required and the customer-provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.

i. Directory listings will be provided in accordance with the regulations found in Section 6.8 of this tariff for PBX trunks. (DID numbers furnished herein are not entitled to free directory listings.)

### 12.1.3 Rates and Charges

#### a. Centrex Service lines will be furnished at the following rates. The monthly rate depends upon the number of lines in service. The monthly rate does not include the Subscriber Line Charge (SLC). The Subscriber Line Charge may be calculated using the trunk equivalency table shown in 12.1.3d. If the trunk equivalency table is used to calculate the SLC, the number of simultaneous conversations allowed on the system will be the number shown in the equivalent number of trunks column. If the customer elects to use a greater number of trunks, the regular SLC applies to each additional trunk.

ISSUED BY: Charles L. Dennis
Vice President-Operations
13.3 CUSTOM CALLING FEATURES

13.3.1 General (continued)

b. Custom Calling services are furnished only from central offices which have been arranged to provide these services. These services are provided subject to the availability of facilities.

c. Custom Calling services are furnished to all types of services.

d. When Custom Calling features are furnished, charges apply for each access line.

e. The following features are available:

(1) Call Forwarding - This provides an arrangement for transferring incoming calls to another telephone number in the local calling area by dialing a code and the number of the service to which calls are to be transferred.

NOTE: The subscriber, not the calling party, is billed for any toll charges when the forward-to-number is outside the subscriber's local area.

13.3 CUSTOM CALLING FEATURES (continued)

13.3.1 General (continued)

e. (continued)

(2) Three-Way Calling - Permits an existing call to be held while a second telephone call is dialed and added to the connection.

(3) Call Waiting - Alerts a user of a telephone with a tone signal when another caller is trying to reach that station. Permits putting the first call on hold so that the incoming second call can be answered.

(4) Speed Calling - Provides for the calling of a telephone number by dialing an abbreviated code.

(5) Wake-Up Service - Allows programming a telephone to ring at any time designated. When the telephone is answered a recorded message will indicate a wake-up call.

13.4 SPECIAL REVERSED CHARGE TOLL SERVICE

13.4.1 General

a. Special Reversed Charge Toll Service is an arrangement whereby charges for toll messages will be reversed to the called customer without specific request of the calling party. It is not available for calls to a semi-public or public telephone.

EFFECTIVE DATE: JAN 3 1 2009

ISSUED BY:
Jeffrey S. Leslie
President
13.4 SPECIAL REVERSED CHARGE TOLL SERVICE (continued)

13.4.1 General (continued)

b. The Telephone Company assigns a special call number designation for the use of patrons in each exchange in which the service is to be furnished. One directory listing in the alphabetical section is provided without charge for each such exchange.

c. Calls for the special number designation are accepted only on a station-to-station basis and when originated at telephones located in the exchange to which the special number has been assigned. Only those toll calls placed by calling the special number are considered as coming within the scope of service.

d. Customers contracting for the Special Reversed Charge Toll Service assume all charges for completed calls made to their special numbers.

13.4.2 Rates

a. Each completed call is charged for at the established rate for a completed sent-paid station-to-station call.

b. In addition, a monthly service charge of $4.00 applies for each exchange in connection with which the service is furnished. Additional directory listings may be provided at charges shown in the DIRECTORY LISTINGS Section of this tariff.

13.5 REMOTE CALL FORWARDING (RCF)

13.5.1 General

a. Remote Call Forwarding (RCF) is a service whereby a call placed from an originating station to an RCF subscriber's telephone number in one exchange is automatically forwarded by Company central office equipment to another station designated by the RCF subscriber which is located in a different exchange.

b. RCF service will be provided subject to the following limitations:

(1) RCF service is offered subject to availability of suitable facilities.

(2) RCF service is not offered where the termination station is a public telephone.

(3) The Company will not provide identification of the originating telephone number to the RCF subscriber.

(4) Call Forwarding will not be available as a feature on the RCF terminating number.

(5) RCF will not be provided when the terminating station is within the Local Calling Area of the RCF central office.

c. One listing in the alphabetical section of the directory covering the exchange in which the RCF central office is located is provided without additional charge.

13.8 SELECTIVE CLASS OF CALL SCREENING

13.8.1 Application

a. Selective Class of Call Screening Service allows a customer to permit outgoing toll calls to be made only if they are charged to the called telephone, a third number or a credit card account.

b. Selective Class of Call Screening Service will permit local calls, calls to Company repair service, Directory Assistance Service and emergency agencies (911).

c. Selective Class of Call Screening Service is available to hospitals, hotels, motels and other establishments only where facilities permit.

13.8.2 Rates and Charges

a. The Company will charge a Secondary Service Order Charge of $18.00 to establish service.

b. The following monthly rates are applicable for Selective Class of Call Screening:
   (1) Per toll access line equipped $3.14
13.9 BILLED NUMBER SCREENING

13.9.1 General

Billed Number Screening (BNS) is a service offering providing for the automatic blocking of third number billing, collect billing or both. The BNS feature is established for a particular billing number via service order.

13.9.2 Limitations

a. Special equipment serving the originating caller's location is required to make this feature operable.

(1) When such equipment is installed:

Call attempts which have been screened will not be completed. The operator will advise the calling party that alternate billing arrangements will have to be made before the call can be completed.

(2) When such equipment is not installed:

Call attempts on a third number basis will complete but not bill. Therefore, all subscribers to Billed Number Screening are advised that calls so completed will be thoroughly investigated as fraudulent calls. The party placing these calls will be expected to make full restitution and will be legally responsible for them.

13.14.1 Restricted Local Exchange Telephone Service (RLETS)

A. General

The Restricted Local Exchange Telephone Service (RLETS) bundle will be offered to Residential customers only where facilities and telephone numbering resources are available;

- The RLETS bundle allows the Company’s customers to subscribe to High Speed Data service without subscribing to the Company’s full basic local service, and allows customers to have the reliability of wireline access to all of the services delineated below.

- The RLETS bundle will be subject to technical, provisioning and activation considerations.

- The RLETS bundle consists of the local access line and the following three components:

1. High Speed Data Service, provided via Digital Subscriber Line technology, a non-regulated service provided by an affiliate of the Company, and;
2. Inbound
   Unlimited inbound traffic.
3. Outbound-Emergency Line Service
   - 911 & 611 calls
   - 5 free local calls per month, and each subsequent local call shall be billed on a per call basis at rates indicated in Section E below.
   - Directory Assistance will be allowed at the normal cost per call
   - Access to Operator Services
   - Third number calls and collect calls will be blocked and Toll limitation is available for qualifying low-income customers

B. High Speed Data Service

1. High Speed Data (HSD) service is provided over the Company’s Digital Subscriber Line (DSL) network, and is considered a non-regulated Internet access service.
2. For purposes of the RLETS bundle, HSD service is only provided in conjunction with Restricted Line service pursuant to the rates and charges as indicated on the RLETS Bundle Price List.
13.14 Bundles Local Service

13.14.1 Restricted Local Exchange Telephone Service (RLETS) (Cont'd)

C. Emergency Line Service

1. Emergency Line service provides the Company’s customer with access to emergency services (911) and with the ability to call the Company’s customer service and repair centers (611).

D. Long Distance Service

1. Long Distance Service can be added to the RLETS bundle.
2. ITS Long Distance Company must be the selected Presubscribed Interexchange Carrier used to provide long distance service in conjunction with the RLETS Bundle.
3. Long Distance Service rates associated with the RLETS bundle are assessed on a per-minute-of-use basis, and are posted in the ITS Long Distance Company Tariff and the RLETS Bundle Price List.

E. Rates and Charges

1. The RLETS Access line rate associated with bundled services is $5.62.
2. Local calls are billed at $0.50 per call after the first five (5) calls each month.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

18.1 APPLICATION

This Tariff applies to intrastate long distance message telecommunications service which originates in the certificated territory of the Company and terminates at another point in the Southeast Local Access and Transport Area (LATA) which is outside the certificated territory of the Company.

18.2 GENERAL

a. Long distance message telecommunications service is the furnishing of facilities for communications between stations in different rate centers for either two-point or conference service.

b. Rates for service between points are based on airline mileage between Indiantown and other rate centers within the Southeast LATA. Airline mileage between Indiantown and other rate centers is set forth in Section 18.5. Rate centers are synonymous with the telephone exchanges bearing the same name, and such exchanges may contain other small towns or communities.

18.3 TWO-POINT SERVICE

18.3.1 Service Between Land Wire Telephones

a. Classes of Service

Service is offered on a direct dial or operator handled basis. The per minute charge for each schedule is listed in Section 18.3.1.h.1. There are additional charges for certain types of calls on a charge per call basis. See Section 18.3.1.h.2.

18.3.1 Service Between Land Wire Telephone (Cont'd)

a. Classes of Service (Cont'd)

1. Direct Dial Calls

(a) Direct Dial call rates apply to all sent-paid, direct dial type telephone communications, except those made from Company pay stations. See Section 18.3.1.e.

(b) Direct Dial type telephone communication denotes a call dialed, billed to and completed by the customer from a residence or business telephone without the assistance of an operator, except that an operator will:

(1) Reestablish a call which has been interrupted after the called number has been reached.

(2) Record the originating telephone number where automatic recording equipment fails to record the number.

(3) Place a call for a calling party who has identified himself as being handicapped and unable to dial the call because of his handicap.

18.4 CONFERENCE SERVICE (Cont'd)

18.4.1 General (Cont'd)

c. All stations on a conference connection are interconnected so that each may communicate with all the others, or arrangements may be made whereby one station will be the transmitting station and all others receiving stations.

d. Only person to person operator handled service is offered whether the call is to specified persons or specified station.

e. The Company, upon request, will arrange for the establishment of a conference call at a specified time.

18.4.2 Rate and Charge Application

a. The initial period is one minute or any fraction thereof and the additional period is one minute or any fraction thereof.

b. Rate airline distances are determined as provided in Section 18.5.

c. Timing of Messages

1. Timing of messages as specified in Section 18.3.1.c. will apply for conference service except:

   a. Chargeable time begins when the connection is established between all the persons or specified stations on the conference call.

   b. Chargeable time ends on a given two-point connection of a conference call when the connection is terminated by the originating station or the called party.

   d. Charges for conference calls may, upon request, be reversed, provided, the total charge will be billed against one called station and the charge is accepted at the designated station.

18.6 DIRECTORY ASSISTANCE SERVICE

18.6.1 General

The company furnishes directory assistance for the purpose of aiding subscribers in obtaining telephone numbers.

EFFECTIVE DATE: OCT 02 1993

ISSUED BY:
Charles L. Dennis
Vice President-Operations
18.6 DIRECTORY ASSISTANCE SERVICE (Cont'd)

18.6.1 General (Cont'd)

When Indiantown customers request assistance in obtaining telephone numbers of subscribers who are located outside their local calling area, but within the same Number Plan Area, the charges set forth in Section 18.6.2.a.1.(a) apply.

18.6.2 Rates

a. A charge is applicable for each call to directory assistance except as noted below.

1. Directory Assistance Service

   (a) Each call

      Rate

          $.25

   (b) Maximum telephone numbers obtainable per call - two (2)

b. There shall be no charge for up to fifty calls per billing cycle from lines or trunks serving individuals with disabilities; however, the prevailing tariff rate shall be charged for every call in excess of 50 within a billing cycle.

18.7 INTRALATA LONG DISTANCE VERIFICATION AND EMERGENCY INTERRUPT SERVICE

18.7.1 General

Verification and Emergency Interrupt Service is furnished where and to the extent that facilities permit. The customer shall indemnify and save the Company harmless against all claims that may arise from either party to the interrupted call or any person.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

18.7 INTRALATA LONG DISTANCE VERIFICATION AND EMERGENCY INTERRUPT SERVICE (Cont'd)

18.7.1 General (Cont'd)

a. Verification

1. The Company furnishes Verification Service for the purpose of aiding subscribers with legitimate call completion problems. Upon request the operator will verify and provide the line status condition of a subscriber line within the intraLATA calling area but outside the local calling area.

2. A subscriber originated request for verification of an intraLATA long distance number other than an emergency agency number is a chargeable verification request if a Company operator determines that the line is in use. No charge applies if the line is out of order.

b. Emergency Interrupt Service

1. The Company furnishes Emergency Interrupt Service when a subscriber who has originated a verification request to a line which has been found in a busy talking state informs the operator that an urgent or emergency situation exists and requests that the operator have the busy line cleared.

2. A subscriber originated request for Emergency Interrupt to an intraLATA long distance number other than an emergency agency number is a chargeable Emergency Interrupt request.
INTRALATA LONG DISTANCE VERIFICATION AND EMERGENCY INTERRUPT SERVICE (Cont’d)

18.7.2 Application of Rates and Charges

a. No charge will apply if the requesting customer identifies that the call is to or from an official public emergency agency. An official public emergency agency is defined as a government agency which is operated by the Federal, state or local government, or a private entity which has the capability and legal authority to provide prompt and direct aid to the public in emergency situations. Such agencies include police, fire and hospitals.

b. Charges may not be billed on a collect basis or on a third number basis to the number being verified or interrupted.

c. If the number verified is not in use, or as a result of interrupt the line is cleared, and, at the calling party’s request, the operator completes the call, the charges as specified in 18.3.1.h.2. of this tariff apply in addition to the applicable verification and emergency interrupt charges.

Non-recurring Charge

1. Verification Request
   (a) Each Request $ .95

2. Emergency Interrupt Request
   (a) Each Request 1.40

INTERCONNECTION OF LOCAL EXCHANGE SERVICES TO SHARED TENANT SERVICES

23.1 INTERCONNECTION OF LOCAL EXCHANGE SERVICES TO SHARED TENANT SERVICES

23.1.1 General

a. Shared Tenant Service (STS) is a class of resold local exchange service furnished through a common switching or billing arrangement to commercial tenants within a single building by a provider other than an existing local exchange telephone company.

b. The reseller, or STS provider, is a person, firm, partnership or corporation which has requested and received a proper Shared Tenant Service Certificate from the Florida Public Service Commission (FPSC). All other arrangements for resale or sharing of local exchange service are not permitted except as specified in 23.1.6 and 23.1.7 of this section of the tariff.

c. In an STS arrangement, the company's subscriber of record/customer of record is the STS provider who orders service and is responsible for paying the telephone bill. The STS tenant, or end user, is a "client" of the STS provider. Service arrangements for the STS client must be made through the STS provider except as defined in 23.1.3.a. following.

d. Requests to provide connection to the local exchange network for the purpose of reselling local service, i.e., establishing an STS system, must be provided to the Indiantown Telephone System, Inc. in writing.

(See Cross Reference Sheet for historical derivation.)

INTERCONNECTION OF LOCAL EXCHANGE SERVICES TO SHARED TENANT SERVICES

23.1 INTERCONNECTION OF LOCAL EXCHANGE SERVICES TO SHARED TENANT SERVICES (continued)

23.1.1 General (continued)

(1) Such written requests must contain at a minimum, but are not limited to, the following information:

(a) Name and address of STS provider;

(b) Billing responsibility if different from (a);

(c) Florida Public Service Commission Certificate Number;

(d) STS technical advisor, if applicable and if different from (a);

(e) New Building or Retrofit;

(f) A forecast as to the anticipated local exchange access requirements for 60 months following initiation of the STS system;

(g) Number of suites/offices in building;

(h) The name of the agent or representative responsible for placing orders, if different from (a);

(See Cross Reference Sheet for historical derivation.)

INTERCONNECTION OF LOCAL EXCHANGE SERVICES TO SHARED TENANT SERVICES

23.1 INTERCONNECTION OF LOCAL EXCHANGE SERVICES TO SHARED TENANT SERVICES (continued)

23.1.1 General (continued)

(1) (continued)

(i) A representative or agent for purposes of this tariff is one who is authorized to act on behalf of another—usually under legal contract. Changes to the STS system or directory listings will be accepted by the Company only from this authority.

(2) All STS providers of local service through key systems must be certificated by the FPSC pursuant to Section 364.339, Florida Statutes.

(a) Key systems of seven (7) lines or more are required to pay the current rates and charges in effect for STS inter-connection. These key systems are subject to the same terms and conditions, specified in this section of the tariff, as STS providers which utilize PBX equipment. They are also required to file tariffs with the Commission reflecting the local rates charged to their clients.

(See Cross Reference Sheet for historical derivation.)

Vice President-Operations
INTERCONNECTION OF LOCAL EXCHANGE SERVICES TO SHARED TENANT SERVICES

23.1 INTERCONNECTION OF LOCAL EXCHANGE SERVICES TO SHARED TENANT SERVICES (continued)

23.1.1 General (continued)

(2) (continued)

(b) Key systems of six (6) lines or less are not subject to the STS rates and charges and are not required to file tariffs reflecting the local rates they charge. However, when directly applicable, they are subject to the same terms and conditions specified in this section of the tariff.

23.1.2 Limitations

a. Shared Tenant Service is limited to service of commercial tenants in a single building. The term "single building" means one structure under one roof. Separate buildings superficially connected, i.e., by a covered walkway, etc., shall not be considered as one building.

b. If more than one building is served by a single PBX, the trunk groups serving each building must be partitioned, i.e., not shared by the other, and each requires certification.

c. STS arrangements are limited to two-hundred fifty (250) trunks per PBX switch.

(1) This trunk limitation includes all inward, outward and combination trunks connected to the STS PBX switch regardless of whether the trunks are pooled or switched.

(See Cross Reference Sheet for historical derivation.)

23.1 INTERCONNECTION OF LOCAL EXCHANGE SERVICES TO SHARED TENANT SERVICES (continued)

23.1.2 Limitations (continued)

c. (continued)

(2) All outward and combination trunks connected to a switch which has shared trunks will be message rated trunks.

d. STS providers may arrange for sharing or "pooling" of STS trunks for use by their clients.

e. No intercommunication may take place behind the STS, PBX or key system between unaffiliated STS clients.

f. Suspension of service as provided in 23.1.4 is not permitted in connection with Shared Tenant Service.

23.1.3 Regulations

a. STS providers are required to guarantee access for the Company to any STS client requesting direct service from the Company.

(1) The Company must be able to gain access to all facilities up to the demarcation point of the building and/or the client's premises. The Company will retain responsibility and maintenance of the network up to that point.

23.1.3 Regulations (continued)

a. (continued)

(2) The Company may construct facilities to directly serve the STS client; or, in lieu of Company-owned facilities, the Company may choose to utilize privately owned distribution facilities, including purchase or lease of such facilities from the STS provider.

(3) Should the Company choose to purchase or lease facilities from the STS provider, the Company will provide reasonable compensation, not to exceed what it would have cost the Company to construct its own facilities.

(4) In no case will the Company be a party to controversies between an STS provider and an STS client desiring direct service from the Company.

b. STS Providers must permit client access to the Company operators "zero" (0) for emergencies and to 911 where available. Unrestricted access must be provided to all locally available interexchange carriers and to the intraexchange toll service handled by the Company.

c. An STS provider may not provide shared Wide Area Telephone Service (WATS) unless granted additional authority to do so by the Florida Public Service Commission.

23.1 INTERCONNECTION OF LOCAL EXCHANGE SERVICES TO SHARED TENANT SERVICES (continued)

23.1.3 Regulations (continued)

d. Private bypass facilities, e.g. microwave towers, may not be constructed for interconnecting STS locations or systems. STS providers are also prohibited from establishing dedicated private line facilities to an interexchange carriers point of presence.

e. STS providers may not authorize, arrange for or otherwise permit telephone intercommunication between unaffiliated commercial tenants.

(1) An affiliated entity, for purposes of this tariff, is defined as one that holds in excess of 50% of the stock of the entity which claims to be affiliated.

(2) An unaffiliated entity, therefore, is one that controls less than 50% of the other entities stock.

f. Tie lines are restricted to the private use of a single STS client and cannot be used to access local exchange service in lieu of STS trunks.

g. An STS system may not be connected through private lines to other communication systems which subscribe to flat rate exchange service.

h. Customer premises equipment associated with STS and the provisioning thereof is the responsibility of the STS provider.

h. (continued)

(1) All repairs, rearrangements, moves and changes to the STS system beyond the Company's demarcation point or network interface will be the responsibility of the STS provider except as provided in 23.1.3.a.

(2) The STS provider will be responsible for payment of a Trouble Location Charge for visits by the Company where a service difficulty or trouble report results from customer-provided equipment or facilities regardless of whether the trouble was reported to the Company Repair by the STS provider or an STS client.

23.1.4 Shared Tenant Service Client Information

a. The rates and charges listed are those charged the STS provider for resale of local exchange service. The company will not retain nor provide to any caller the rates charged to the STS client by the STS provider. It is the STS provider's responsibility to disclose such information to the client(s).

23.1.4 Shared Tenant Service Client Information (continued)

b. Each STS provider is required to inform STS clients of its current rates and charges for resold local service. The STS provider must also inform each client that the Florida Public Service Commission will not set rates or regulate the service quality standards of the providers of the STS system.

c. The STS provider is responsible for establishing repair reporting procedures to be used by STS clients. The charge in 23.1.3.h will be applicable if an STS client reports trouble to Company Repair and a subsequent premises visit by a Company technician locates the trouble in the STS equipment or facilities.

d. STS arrangements are provided one free directory listing. STS clients are allowed an additional directory listing at a charge of $.35 per month. The STS provider is responsible for determining the clients desired listing arrangement and for conveying that information to the Company in a timely manner.

(1) The client's listing is provided under the rules and regulations specified in Section 6 of this tariff.

b. (continued)

(2) The rates specified herein are in addition to the rates shown elsewhere in the tariff for the services with which this offering is associated (e.g., STS Trunk Rates and Charges, etc.)

(3) DID service is optionally available and includes central office switching equipment necessary for indialing from the network directly to stations associated with customer premises switching equipment. Subscribers to DID service will be required to maintain an adequate number of DID trunks as determined by the Company in order to provide "quality" grade of service and prevent network degradation.

(4) The service must be provided on all lines in a trunk group arranged for inward service. Where DID is required on more than one group of trunks or central office lines, each such group shall be considered as a separate DID service.

Where the equipment configuration requires the assignment of blocks of telephone numbers or where the customer requests additional blocks of telephone numbers held in reserve for future use, rates and charges as shown are applicable for each unused block of telephone numbers. The Company does not guarantee to provide DID numbers arranged in a consecutive manner.

(6) When equipment or service of a special type arrangement is requested and provided, rates and charges are based on costs involved to meet the individual requirements of each case.

(7) Operational characteristics of interface signals between the Company-provided facilities and the customer-provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service as specified in other sections of this tariff.

23.1.6 Provision of Shared Service to Transient End Users

a. For purposes of this tariff, a transient end-user is considered to be one temporarily occupying the premises, with occupancy not to exceed nine months.

b. By virtue of the transient nature of the end-user, certain other sharing arrangements are considered neither duplicative or competitive with the local exchange service provided by the Company. Therefore, existing rates and service conditions as specified in other sections of this tariff will continue to apply to the following sharing arrangements.

1) Hospitals - sharing is permitted within a hospital for patient rooms and administrative offices due to the critical need for rapid communication of the hospital staff.

   (a) Sharing may not be extended to physicians in private practice offices unless the hospital becomes a certificated STS provider.

   (b) As an alternative, trunks serving physicians' individual private practice offices can be partitioned from the trunks serving the hospital administrative offices, patient rooms and other private practice offices.
