AGENDA

STAFF RULE DEVELOPMENT WORKSHOP

IN RE: INITIATION OF RULEMAKING TO AMEND RULES 25-30.335, 25-30.350, F.A.C.,
AND TO ADOPT RULE 25-30.351, F.A.C., RELATING TO BILLING
FOR WATER AND WASTEWATER UTILITIES.

May 10, 2012, 9:30 a.m.
Betty Easley Conference Center, Room 148
4075 Esplanade Way
Tallahassee, Florida 32399-0850

1. Staff overview of draft rules
2. Comments and alternative suggestions from interested persons
3. Discussion of suggested changes and timeframes for next steps
4. Adjournment

(1) Except as provided in this rule, a utility shall render bills to customers at regular intervals, and each bill shall indicate: the billing period covered; the applicable rate schedule; beginning and ending meter reading; the amount of the bill; the delinquent date or the date after which the bill becomes past due; and any authorized late payment charge.

(2) Where there is sufficient cause, estimated bills may be provided. However, with the third consecutive estimated bill, the company shall contact the customer, to explain the reason for the estimated bill(s) and to provide a utility contact so that the customer may request an actual meter reading. An actual meter reading must be taken at least once every six months. If the utility estimates the bill, the utility shall indicate on the bill that the amount owed is an estimated amount.

(3) When service is rendered for less than 50 percent of the normal billing cycle, the utility shall prorate the base facility charges as though the normal billing cycle were 30 days, except that the utility may elect not to issue an initial bill for service if the service is rendered during a time period which is less than 50 percent of the normal billing cycle. Instead, the utility may elect to combine the amount owed for the service rendered during the initial time period with the amount owed for the next billing cycle, and issue a single bill for the combined time period. For service taken under flat rate schedules, 50 percent of the normal charges may be applied.

(4) A utility may not consider a customer delinquent in paying his or her bill until the 21st day after the utility has mailed or presented the bill for payment.

(5) Each utility shall establish each point of delivery as an independent customer and shall calculate the amount of the bill accordingly, except where physical conditions make it necessary to use additional meters or points of delivery for one class of service to a single customer on the same premises, or where such multiple meters or delivery points are used for CODING: Words underlined are additions; words in struck-through type are deletions from existing law.
(6) A utility may not incorporate municipal or county franchise fees into the amount indicated as the cost for service on the customer’s bill. Rather, the utility shall show any such franchise fee as a separate item.

(7) The utility shall maintain a record of each customer’s account for the most current 2 years so as to permit reproduction of the customer’s bills during the time that the utility provided service to that customer.

(8) In the event of unauthorized use of service by a customer, a utility may bill the customer on a reasonable estimate of the service taken. In addition, the utility may assess a fee to defray the cost of restoring service to such a customer provided that the fee is specified in the utility’s tariff.

(9) If a utility utilizes the base facility and usage charge rate structure and does not have a Commission authorized vacation rate, the utility shall bill the customer the base facility charge regardless of whether there is any usage.

CODING: Words underlined are additions; words in struck through type are deletions from existing law.
25-30.350 Backbilling, Underbillings and Overbillings for Water and Wastewater Service.

(1) A utility may not backbill customers for any period greater than 12 months for any undercharge in billing which is the result of the utility's mistake. The utility shall allow the customer to pay for the unbilled service over the same time period as the time period during which the underbilling occurred or some other mutually agreeable time period. The utility shall not recover in a ratemaking proceeding, any lost revenues greater than the amount collectible under this rule which inure to the utility's detriment on account of this provision.

(2) In the event of overbillings. The utility shall refund the overcharge to the customer for the period during which the overcharge occurred, based on available records. If commencement of the overcharging cannot be established, then a reasonable estimate of the overcharge shall be made and refunded to the customer. The amount and period of the adjustment shall be based on the available records. The refund shall not include any part of a minimum charge.

(3) In the event of an overbilling, the customer may elect to receive the refund as a credit to future billings, or as a one-time payment.

Specific Authority 350.127(2), 367.121 FS. Law Implemented 367.091, 367.121 FS. History—New 11-10-86.

CODING: Words underlined are additions; words in struck-through type are deletions from existing law.
25-30.351 Unauthorized Use.

In the event of unauthorized use of service by a customer, a utility may bill the customer on a reasonable estimate of the service taken. In addition, the utility may assess a fee to defray the cost of restoring service to such a customer provided that the fee is specified in the utility’s tariff.

Rulemaking Authority 350.127, 367.121 F. S. Law Implemented 367.091, 367.121, F.S.
