3. Air Products is a retail customer of Gulf Power Company and is currently negotiating with several Florida utilities for the construction of cogeneration facilities in the state. The Commission's policies on cogeneration pricing and standard offer contracts form the basis for cogeneration contract negotiations with investor-owned electric utilities in Florida. These issues, as well as virtually every other issue which concerns cogeneration in the state, are decided in this "generic" docket. For these reasons, Air Products is directly and substantially affected by the decisions made in this docket.
