Docket No. 900039-TL

* April 2, 1991

Issue 2: Recommendation that an alternative plan be offered to Mt. Dora subscribers. Calls between the Mt. Dora exchange and the Apopka, Orlando, and Winter Park exchanges should be rated at $\$ .25$ per call, regardless of call duration for residential customers, and with a one-hour time limit for all other customers. These calls should be furnished on a seven-digit basis. Non-LEC pay telephone providers will charge end users as if these calls were local $\$ .25$ calls, and the providers will pay the standard measured usage rate to the LEC. United Telephone Company and Southern Bell should be ordered to implement this change within 12 months of the final order in this docket. Southern Bell should immediately seek a waiver of the Modified Final Judgement (MFJ) from Judge Greene to carry the traffic on these routes. Toll alternatives should not apply to any other routes.

Issue 3: Recommendation that the toll alternative plan should not permit full recovery of costs and lost revenues, including incremental costs. Rule 25-4.062(4), F.A.C., should be waived.

Issue 4: Recommendation that this docket be closed. staff should place the matter on monitor status to ensure that United and Southern Bell make the necessary tariff revisions and comply with the implementation date.
