FINAL ORDER GRANTING CERTIFICATE

AND

NOTICE OF PROPOSED AGENCY ACTION
ORDER ESTABLISHING RATES AND CHARGES

BY THE COMMISSION:

NOTICE IS HEREBY GIVEN by the Florida Public Service Commission that the action discussed herein, except for the granting of the water certificate, is preliminary in nature and will become final unless a person whose interests are substantially affected files a petition for a formal proceeding, pursuant to Rule 25-22.029, Florida Administrative Code.

Background

On March 16, 1993, the Board of County Commissioners of Gadsden County adopted a resolution pursuant to Section 367.171, Florida Statutes, declaring that the privately owned water and wastewater utilities in that County are subject to the provisions of Chapter 367, Florida Statutes. Pursuant to Section 367.031, Florida Statutes, all utilities subject to the Commission's jurisdiction must obtain either a certificate to provide water and wastewater service or an order recognizing the exempt status of the system.

On July 27, 1993, Joyland Water System (Joyland) filed an application for a certificate to provide water service in Gadsden County. Joyland provides water to approximately 44 residential

customers within the Joyland Subdivision and two general service customers.

Application

Joyland's application complies with the governing statute, Section 367.171, Florida Statutes, and other pertinent statutes and administrative rules concerning an application for a grandfather certificate for an existing utility currently charging for service. The application contains a check in the amount of \$150.00, which is the correct filing fee pursuant to Rule 25-30.020, Florida Administrative Code.

The applicant has provided evidence that the utility owns the land upon which the utility's facilities are located as required by Rule 25-30.035(6), Florida Administrative Code.

Adequate service territory, system maps and a territory description have been provided as prescribed by Rule 25-30.035(9), (10), and (11), Florida Administrative Code. A description of the territory requested by the applicant is appended to this memorandum as Attachment A. According to the Department of Environmental Protection there are no outstanding notices of violation.

Based on the above information, we find it is in the public interest to grant Joyland Water Certificate No. 559-W to serve the territory described in Attachment A of this Order.

Rates and Charges

Joyland's water rates and charges are as follows:

Monthly Service Rates

Residential and General Service

Base Facility Charge	\$7.50
Gallonge Charge	\$3.00 per 1,000 gallons

Miscellaneous Service Charges

Initial Connection Fee	\$15.00
Normal Reconnection Fee	\$15.00
Violation Reconnection Fee	\$15.00
Premises Visit	\$10.00
(in lieu of disconnection)	

Service Availability Charges

Meter Installation Fee \$35.00

Generally, the Commission approves by final action the rates and charges that are in effect for a utility on the date the Commission received jurisdiction in a county. However, since there was no documentation of Joyland's rates and charges because Joyland did not keep records of its billings, we find it appropriate to approve Joyland's rates and charges by proposed agency action.

As they are the rates and charges that were being charged by this system on the date we obtained jurisdiction in Gadsden County, we hereby approve the above rates and charges. Joyland has filed a tariff which reflects the above rates and charges. The effective date shall be the stamped approval date of the tariff.

Further, Joyland shall be required to pay Regulatory Assessment Fees for 1993 and file a 1993 Annual Report within 45 days of the date of this Order. Pursuant to Rule 25-30.120(2), Florida Administrative Code, "Any utility which is subject to this Commission's jurisdiction on or before December 31 of that year or for any part of that year, whether or not the utility has applied for or been issued a certificate" is required to pay regulatory assessment fees. Additionally, Rule 25-30.110(3), Florida Administrative Code, states that "(t)he obligation to file an annual report for any year shall apply to any utility which is subject to this Commission's jurisdiction as of December 31 of that year, whether or not the utility has actually applied for or been issued a certificate."

Based on the foregoing, it is, therefore,

ORDERED by the Florida Public Service Commission that Joyland Water System, 1333 E. Jefferson Street, Quincy, Florida 32351, is hereby granted Water Certificate No. 559-W to serve the territory described in Attachment A. It is further
