POST HEARING BRIEF OF
POLO PARK RESIDENTS

Pursuant to Rule 25-22.056(3), F.A.C. and the prehearing
6 conference May 30, 1996 in Tallahassee Before Commissioner
7 Julia L. Johnson, as pre-hearing officer, the Polo Park
8 residents file this brief. Certain issues will not be
9 addressed in this brief as our position has not changed since
10 filing our pre-hearing statement March 22, 1996.

ISSUE 1: Is there a sufficient community of interest on the
11 routes listed in Table A to justify surveying for
12 nonoptional extended area service as currently defined
13 in the Commission rules, or implementing an alternative
interLATA toll plan?

Based on the exhibits A, B, C, C2, D & E, filed by Polo Park residents
14 and included in pre-hearing statement of issues & positions(also
15 reference Composite Exhibit # 8, page 201, at June 14 public
16 hearing), as well as an outpouring of approximately 550 residents
17 during public hearing sessions June 14, 1996, it would appear that
18 a sufficient community of interest has been established.

It would now appear the overall strong feeling of Polo Park
19 residents(as well as the hearing witnesses) is that an
20 alternative non-optional ECS plan, with a set per call charge
21 would be the most appropriate to solve our serious toll call
22 problems,
23
