FP50-RECORDS/REPORTING

This letter is to register my objection to the proposed extension of the Lakewood Springs Utilities service area.

The Lakewood Springs subdivision is divided into several sections. The majority of residents live on the East side of U.S. 41 in the Country Club Estates. These residents have approximately 1/2 acre lots and are serviced by Lakewood Springs Utilities.

The section we live in is the Woodlands of Lakewood Springs. We are located on the West side of U.S. 41 on one plus acres. And the Woodlands is sparsely populated as compared to the Country Club Estates section.

And due to the excellent poring of the soil and readily available good water from our personal well, I cannot see any need to extend the "Utilities" service area.

Utility companies are always eager to extend their economic base, regardless of the needs or requirements of the property owner.
