Director, Division of Records and Recording,  
Dear Sir:

I strongly object to the Rainbow Springs Utilities A.C. 8625 SW 200<sup>th</sup> Cir Dunnellon, FL 34431-5325 application to extend its service area to provide water and sewer service to the area described in its letter to said area homeowners dated December 16<sup>th</sup> 1997.

The quality of the water which is supplied by my well is superior, also the water quality and well, were my prime reasons for buying this domicile.

Please take these comments into consideration when considering Rainbow Utilities application to extend their service area.

Thank you.
