has previously been approved for the Utility. This Extension Application
is a recent discovery that the service territory authorized for this Utility by
an approximately 16 years ago failed to include the great majority of
the land. The purpose of this Application is simply to correct that oversight and to
ensure that there will be no impact on the customers whatsoever from this Application as it is
based on the existing or proposed development within the Utility's designated
service territory. From many years ago in describing the Utility service territory. In fact,
