RE: ***RSL COM U.S.A., Inc. / Westinghouse Communications
Notice of Transfer of Assets / Tariff Replacement Pages***

Dear Sirs

On behalf of RSL COM U.S.A., Inc. (formerly International Telecommunications Corporation) ("RSL USA"), please find enclosed an original and ten (10) copies of a replacement tariff. The replacement page is being filed pursuant to the transfer of various assets from Westinghouse Electric Corporation d/b/a Westinghouse Communications¹ ("Westinghouse") to RSL USA.

Description of Transaction

On April 23, 1998, RSL USA and Westinghouse entered into an Asset Purchase Agreement ("APA") for the sale of Westinghouse's telecommunications business and substantially all of its assets and liabilities relating to the business to RSL USA. On July 14, 1998, the parties consummated the transfer of assets pursuant to the APA.

Both RSL USA and Westinghouse are authorized to provide resold interexchange, intrastate telecommunications services throughout the state.

The Parties

A RSL COM U S A , Inc

RSL USA is a corporation organized under the laws of the State of Delaware whose principal offices are located at 5550 Topanga Canyon Boulevard, Woodland Hills, California 91367. By itself and through its wholly owned subsidiaries -- LDM Systems, Inc. and RSL COM PrimeCall, Inc. -- it holds several authorizations under Section 214 of the Communications Act of 1934, as amended to provide domestic interstate and international telecommunications service, and is authorized to provide intrastate, interexchange service in 49 states.

At present, the corporate parent of RSL USA, holding 98% of the company's stock, is RSL COM North America, Inc. (formerly known as International Telecommunications Group, Ltd.) ("ITG"), a Delaware corporation. ITG's sole shareholder, holding 100% of its capital stock, is RSL Communications PLC, a corporation organized under the laws of the United Kingdom. The parent corporation of RSL Communications PLC, holding 100% of its capital stock, is, in turn, RSL Communications, Ltd. ("RSL Ltd"), a Bermuda corporation. RSL Ltd is a publicly traded (NASDAQ) corporation.

B Westinghouse Communications

Westinghouse, a division of CBS Corporation, is a non-dominant telecommunications carrier authorized to provide interexchange, interstate and international services. In addition, Westinghouse is authorized to provide intrastate telecommunications services in 46 states.

I Public Interest Considerations

The transfer of assets will serve the public interest by enabling RSL USA to achieve increased economies of scale and compete more effectively in the telecommunication's marketplace. More effective competition will ultimately lead to lower prices and the availability of more products and services to the public.

Thus, the public will benefit both directly, through the availability of, and access to, a more efficient carrier of the competitive services, and indirectly, because the presence of a more efficient competitor in this market will increase the incentives for other telecommunications providers to operate more efficiently, offer more innovative services, reduce their prices, and improve their quality of service. The customers of RSL USA and Westinghouse rely on these companies for high quality, affordable intrastate service. RSL USA will provide notice to existing Westinghouse subscribers, and assure them of RSL USA's commitment to continue the provision of high quality, affordable services pursuant to the company's filed tariff. As such, the transaction will not cause

Page Three
August 14, 1998

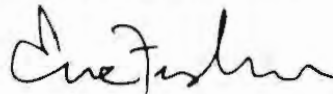

inconvenience or confusion to RSL USA or Westinghouse customers. Indeed, the transaction will be virtually transparent to RSL USA and Westinghouse customers in terms of the services that they receive.

RSL USA certifies that it continues to have the necessary managerial and financial resources to provide the public with quality telecommunications service throughout the state. RSL USA expects that the ample managerial, technical and financial expertise of its management team will enable RSL USA to continue providing high quality service to its existing customers and those of Westinghouse, as well as to expand its customer base. The acquisition will therefore promote competition in the telecommunications services market and serve the public interest.

A courtesy copy of the filing and a self-addressed, stamped envelope are enclosed herewith. Please date-stamp the courtesy copy when received and return it by mail to this office in the self-addressed, stamped envelope.

Should you have any questions concerning this matter, please contact the undersigned attorney.

Sincerely,
FLETCHER, HEALD & HILDRETH, P.L.C.

TARIFF FORMAT

- A. **Sheet Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 16 would be 14.1.
- B. **Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the PSC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the PSC follows in their tariff approval process, the most current sheet number on file with the PSC is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. **Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.1.
 - 2.1.1.
 - 2.1.1 .A.
 - 2.1.1 .A.1 .
 - 2.1.1 .A.1 .(a).
 - 2.1.1 .A.1 .(a).l.
 - 2.1.1 .A.1 .(a).l.(i).
 - 2.1.1.A.1.(a).1.(i) (1)
- D. **Check Sheets** - When a tariff filing is made with the PSC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk. There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the PSC.
