*Kathy Lewis, Regulatory Analyst and Sarah Muchovej, Research Assistant*

This report is based upon statistical data received from sources both inside and outside the Florida Public Service Commission. The report concentrates on data from calendar year 1998, although some tables include data from previous years to illustrate changes over time. The majority of the information presented is specific to Florida though nationwide data was used in several tables when state specific data was not available. Other tables include nationwide data for comparative purposes or to illustrate trends.

We are appreciative of the assistance we received from those who provided information. Sources used to compile the data for each table are acknowledged within the report. Please direct any questions regarding this report or suggestions for the next annual publication to the Division of Auditing and Financial Analysis at (850)413-6480.

Special Note: The corresponding increase/decrease in non-LEC and ILEC pay telephone access lines growth in 1995-1998 is due to the federal deregulation of LEC pay telephones. Many LECs responded by creating separate subsidiary non-LEC companies to handle their payphone operations.

## GLOSSARY

**Access Charge:** A charge made by a local exchange carrier for use of its local exchange facilities for a purpose such as the origination or termination of traffic that is carried to or from a distant exchange by an interexchange carrier.

**Access Line:** The circuit or channel between the demarcation point at the customer's premises and the serving end or class 5 central office.

**Alternative Access Vendor (AAV):** A provider, other than a local exchange telecommunications company, of Alternative Access Vendor Service.

**Alternative Access Vendor Service:** The provision of local private line service between an entity and its own facilities or the facilities of an affiliated or unaffiliated entity at another location or the provision of special access service between an end-user and an interexchange company.

**Alternative Local Exchange Company:** Any company certificated by the Commission to provide local exchange telecommunications services in Florida on or after July 1, 1995.

**Area Code:** A three-digit code used to identify the geographic location of a telephone number.

**Basic Local Telecommunications Service:** Voice-grade, flat-rate residential and flat-rate single-line business local exchange services which provide dial tone, local usage necessary to place unlimited calls within a local exchange area, dual tone multi-frequency dialing, and access to the following: emergency services such as "911," all locally available interexchange companies, directory assistance, operator services, relay services, and an alphabetical directory listing. For a local exchange telecommunications company, such term shall include any extended area service routes, and extended calling service in existence or ordered by the commission on or before July 1, 1995.

**Business Service:** The business service classification and rates apply when telephone service is primarily or substantially of a business, professional, institutional, or otherwise occupational nature or where the listing required indicates business use.

**Central Office:** A location where there is an assembly of equipment that establishes the connections between subscriber access lines, trunks, switched access circuits, private line facilities, and special access facilities with the rest of the telephone network.

**Central Office Switch:** An assembly of equipment for establishing connections from lines to lines, lines to trunks, trunks to lines, and trunks to trunks. (Excludes operator service centers.)

**Certificate:** A Certificate of Public Convenience and Necessity must be obtained from the Florida Public Service Commission prior to construction, operation, or control of telecommunications facilities for the purpose of providing telecommunications services to the public in Florida.

## GLOSSARY (continued)

**Class of Service:** A description of main station service furnished a subscriber in terms of grade of line, type of rate, and location of use. (See *Residential Service* and *Business Service*.)

**Company:** (Also *Telecommunications Company*) Interchangeable terms that mean any person, firm, partnership, or corporation engaged in the business of furnishing communications service to the public under the jurisdiction of the Florida Public Service Commission.

**Commission:** Florida Public Service Commission

**Customer:** See *Subscriber*.

**Exchange:** The entire telephone plant and facilities used in providing telephone service to subscribers located in an exchange area. An exchange may include more than one central office unit.

**Exchange (Service) Area:** The territory, including the base rate suburban and rural areas served by an exchange, within which local telephone service is furnished at the exchange rates applicable within that area.

**Facility Based Carrier:** Company owns and operates or plans to own and operate telecommunications switches and transmission facilities in Florida.

**Fiber Optic Cable:** Thin filaments of glass or other transparent material enclosed in a protective sheath through which a light beam may be transmitted.

**Incumbent Local Exchange Company:** A local exchange company certificated by the Florida Public Service Commission prior to July 1, 1995.

**Individual Line Service:** A classification of exchange service which provides that only one main station shall be served by the circuit connecting such station with the central office equipment.

**Interexchange Access Lines:** Those dedicated exchange lines which connect local exchange company customers to interexchange carriers over the local telephone company switched network. These include WATS, 800 service, feature group A, and toll terminal access lines.

**Interexchange Company:** Any telecommunications company, as defined in Section 364.02(12), Florida Statutes, which provides telecommunications service between local calling areas as those areas are described in the approved tariffs of individual local exchange companies.

## GLOSSARY (continued)

***Interstate Toll Message:*** Those toll messages that do not originate and terminate within the same state.

***Intrabuilding Network Cable:*** Cables located on the carrier's side of the demarcation point or standard network interface inside subscribers' buildings or between buildings on one customer's same premises.

***Intrastate Toll Message:*** Those toll messages that originate and terminate within the same state.

***Local Access and Transport Area (LATA):*** A geographical area, which is loosely based on standard metropolitan statistical areas, within which a local exchange company may transport telecommunications signals.

***Local Calling Area:*** (Also *Local Service Area.*) The area within which telephone service is furnished subscribers under a specific schedule of exchange rates and without toll charges. A local service area may include one or more exchange areas or portions of exchange areas.

***Local Exchange Company:*** Any company certificated by the commission to provide local exchange telecommunications service in Florida on or before June 30, 1995.

***Local Service Area:*** See *Local Calling Area.*

***Main Station:*** The principal telephone associated with each service to which a telephone number is assigned and which is connected to the central office equipment by an individual or party line circuit or channel.

***Message:*** A completed telephone call.

***Multi-Location Discount Aggregator:*** Company contracts with unaffiliated entities to obtain bulk/volume discounts under multi-location discount plans from underlying carriers and offers the resold service by enrolling unaffiliated customers.

***Non-basic service:*** Any telecommunications service provided by a local exchange telecommunications company other than a basic local telecommunications service, a local interconnection arrangement described in Section 364.16, F.S. or a network access service described in Section 264.163, FS.

***Operator Service Provider:*** company provides or plans to provide alternative operator services for IXCs; or toll operator services to call aggregator locations; or clearinghouse services to bill such calls.

## GLOSSARY (continued)

**Pay Telephone Provider:** Any telecommunications company which provides pay telephone service as defined in Section 364.3375(4), Florida Statutes.

**Prepaid Debit Card Provider:** Any person or entity that purchases 800 access from an underlying carrier or unaffiliated entity for use with prepaid debit card service and/or encodes the cards with personal identification numbers.

**Reseller:** company has or plans to have one or more switches but primarily leases the transmission facilities of other carriers and bills its own customer base for services used.

**Residential Service:** The residential service classification and rates apply when telephone service is of a domestic nature and not used substantially for occupational purposes.

**Shared Tenant Service (STS):** The provision of service which duplicates or competes with local service provided by an existing local exchange telecommunications company and is furnished through a common switching or billing arrangement to tenants by an entity other than an existing local exchange telecommunications company.

**Statewide Average Rates:** an aggregate representation of the average tariffed rates of Florida incumbent local exchange companies for approximately 100 services published annually for tax purposes by the Florida Public Service Commission in accordance with Sections 166.231(10) and 203.01(9), F.S.

**Subscriber:** (Also *Customer*.) Interchangeable terms that mean any person, firm, partnership, corporation, municipality, cooperative organization, or governmental agency supplied with communications service by a telephone company.

**Switchless Rebiller:** Company has no switch or transmission facilities but may have a billing computer. Company aggregates traffic to obtain bulk discounts from underlying carrier and rebills end users at a rate above its discount but generally below the rate end users would pay for unaggregated traffic.
