RE: Docket No. 980467-WS - Application for amendment of Certificates Nos. 373-W and 322-S to add territory in Marion County by Florida Water Services Corporation.

Dear Mr. Cloud:

Pursuant to our telephone conversation today, please find the attached address lists and corresponding letters from Marion County residents who oppose Florida Water Services Corporation's (FWSC) application for amendment in Marion County. The short list contains the names of those who were contacted by Commission staff but still insist that they wish to pursue their objections. The long list contains the names of those who sent initial objection letters but were not contacted by staff.

It is my understanding that you will provide letters to these residents regarding the settlement, with the hope of resolving their concerns over FWSC's amendment. I also understand that you will provide both Matthew Feil and myself with a copy of the draft letter prior to mailing.

Thank you for your assistance. If you have any questions, please contact me at (850)413-6181.

Sincerely,
Tim Vaccaro

RE: Docket No. 980467-WS - Application for amendment of Certificates Nos. 373-W and 322-S to add territory in Marion County by Florida Water Services Corporation.

Dear Mr. Feil:

Pursuant to our telephone conversation last week, please find the attached address lists and corresponding letters from Marion County residents who oppose Florida Water Services Corporation's (FWSC) application for amendment in Marion County. The short list contains the names of those who were contacted by Commission staff but still insist that they wish to pursue their objections. The long list contains the names of those who sent initial objection letters but were not contacted by staff.

Please determine, to the extent possible, which of these addresses fall within the proposed FWSC amendment territory set forth in the stipulated agreement between FWSC and Marion County. Hopefully, this information will facilitate in the resolution of the residents' objections. Your assistance in this matter is greatly appreciated. If you have any questions, please contact me at (850) 413-6181.

Sincerely,

Tim Vaccaro

980467-WS

Dear Commissioners:

I am a landowner in Marion County, Florida. Recently I was informed that Florida Water Services Inc. (WS) has submitted an application to amend its Marion Oaks water and wastewater service area that includes my land.

I have not been contacted by representatives of FWS nor have I requested service from the utility and yet they are attempting to certificate my land. Futhermore, the Marion Oaks system has much higher user rates than other utilities in the County.

My reasons for not wanting to be included in this proposed certification include:

1. I just had a pump and well put in and it cost \$1,700, I can't afford to pay more
2. I am a widow
3. I live on a fixed income
4. It would be a hard ship. This is why I live out here, for economy reasons. I barely getting by on my income now

For these reasons I object to the proposed certification amendment to increase the Marion Oaks water and wastewater service area.

Very Truly Yours, *Ruby E. Lee George*

Mr. and Mrs. Leonard Futch
11898 S.W. 141st Place
Dunnellon, Florida 34432

Re: Docket No. 980467-WS - Application for Amendment of Certificate Nos. 373-W and 322-S in Marion County by Florida Water Services Corporation.

Dear Mr. and Mrs. Futch:

In response to your letter filed with the Commission on April 27, 1998, we would like to determine whether you intend to pursue your objection in the above-referenced docket.

As you may know, on April 1, 1998, Florida Water Services Corporation (Florida Water) filed an application with the Commission to amend its water and wastewater certificates No. 373-W and 322-S in Marion County. The Commission is legally obligated to review the application for amendment of certificates pursuant to Section 367.045, Florida Statutes, to ensure that the application satisfies the requirements of the law.

Furthermore, the application filed by Florida Water is an amendment application not an application to increase rates. Thus, your rates should not be impacted because of this application. If you intend to pursue your objection, a formal hearing will be scheduled before the Commission, in which you must provide evidence to support your position. You may choose to represent yourself or be represented by an attorney at the hearing. If you decide not to pursue the hearing, we can place your letter in the correspondence file for the Commission's consideration, and it will be treated as a comment letter.

We also would like to inform you that the Board of County Commissioners of Marion County has filed an objection to Florida Water's application for amendment of territory. As a result of Marion County's objection, a formal hearing will be scheduled in Marion County at a later date. At that hearing, Marion County will present evidence to support its objection to Florida Water's application.

To the Board of Commissioners.

Once control of an area is transformed to an entity, you as a person have lost your rights to them and are at their mercy.

We live in a rural area and the majority of homes are \$30,000 or below.

Our streets belong to us and are unpaved. Our wells now cost us probably about \$15.00 to \$20.00 to operate. ^(a month) If we need services, Inc. Control this area, if we need a new well or septic services they can be denied and we would have to join their service. Again we would be at their mercy. Also our wells could be monitored to pump what they want us to have.

My husband and I looked in Marion Oaks & all areas before we moved here. We chose where we live because of the choice of well & septic and not living in a subdivision on a 1/3 or 1/4 acre lot.

Most families in this area are working people making minimum wage or a little more or living on social security. We are not living in \$60,000, 100,000 or \$150,000 dollar homes & do not have golf course.

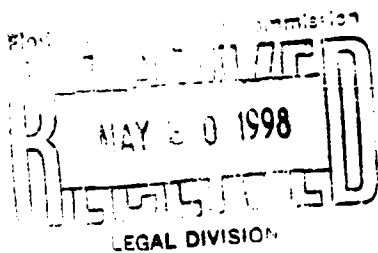

Living an area without being decided upon by each new project also shuts out women and minorities.

A person can get a loan to pay for a new well or septic. They can not get a loan to pay for a new well every month.

~~We read in the paper and hear people~~
We read in the paper and hear people
Complain all the time about \$100.00 to \$200.00
water and sewer bills or rate hikes from
Maier Oaks. Why would we want
anything to do with this company. Again
we have a well and septic which is ours
& in jeopardy of being controlled or taken
for someone else to make large profits
at our expense.

I object strongly and think our
area should be disqualified or exempt
from their petition. Each ^{new} project should
have to be bid on. ~~boards~~

I hope this and all other objects is
-treated more than comment. I do not like
to feel that ~~our~~ our opinions do not
count or our life style. ~~that~~ ~~there~~
~~there~~ Thank you

Sincerely,

Glenda Hester

LEGAL DIVISION

Dear Commission:

Re: Docket No. 980467-WS

This is in response to your letter of May 13, 1998 concerning the above proposed amendment.

We still strongly object to this and would be more than glad to attend the public hearing or any other hearings associated with this matter.

You say this doesn't impact existing wells + septic systems now. But what if they decide, in the future, for some reason (and we have every reason to believe that they will find some reason to force us to

B.C.
1251
3
D

hook up to their system) we have to hook up with them or when we build a new home, what happens. I moved to a rural area so I wouldn't have to deal with water + sewer companies like this. If I wanted to pay for these services I would have moved into a subdivision that offered the services.

We do fully intend to pursue our objection to this proposal on a variety of reasons, the ones I mentioned being a very few.

Sincerely
William + Brent Grafton

To whom it may concern,

In response to your letter about putting a water & Sewer service running to the Florida Highlands, from Marion Oaks, I am 100% against it. First thing the letter states NEW CONSTRUCTION. I am not new construction. I am assuming that will exclude me from this service that is not needed on my land. I have lived at this address since 1981. Hopefully I won't hear any more about this matter!

Sincerely

Gayle Fisher

Dear Commissioners:

I am a landowner in Marion County, Florida. Recently I was informed that Florida Water Services Inc. (WS) has submitted an application to amend its Marion Oaks water and wastewater service area that includes my land.

I have not been contacted by representatives of FWS nor have I requested service from the utility and yet they are attempting to certificate my land. Futhermore, the Marion Oaks system has much higher user rates than other utilities in the County.

My reasons for not wanting to be included in this proposed certification include:

1. Cost
2. I have water + waste ~~at~~ ~~sewer~~ well + septic
3. I don't believe ~~it's~~ it's in my best interest
4. I don't want any one infringing on my rights

Dear Commissioners:

I am the Trustee for the Owner of land in Marion County, Florida. Recently I was informed that Florida Water Services Inc. (FWS) has submitted an application to expand its Marion Oaks water and wastewater service area, which expansion would include land under my Trusteeship.

I have not been contacted by representatives of FWS nor have I requested service from the utility, and yet they are attempting to take jurisdiction for water and wastewater jurisdiction over this land.

I have consulted with the Owner about this matter. The Owner does not wish to be included in this proposed certification at this time for the following reasons:

1. It is premature for the Owner to make such a commitment pending the preparation of at least a preliminary use plan.
2. It will then take a substantial amount of time for review of the preliminary plans with the appropriate county and state planning officials.
3. A complete feasibility study must then be done after the preliminary development/use plans are approved.
4. The Owner would then conduct a study to determine if; 1) the rates charged by the Marion Oaks system are competitive to other potential providers, and/or 2) alternative methods for these services are appropriate.
