RE: Filing of an emergency item for the March 30, 1999, agenda conference in Docket No. 950495-WS - Application for rate increase and increase in service availability charges by Southern States Utilities, Inc.

On March 1, 1999, Florida Water Services Corporation filed Objections to Staff's First Set of Interrogatories and First Request for Production of Documents on Remand and Motion for Protective Order. After consulting with the Prehearing Officer, it has been decided that a ruling on the objections should be made by the full Commission. Due to time constraints involved, the Commission should rule upon these objections at the March 30, 1999, agenda conference. Accordingly, staff requests that it be given until the close of business on March 25, 1999, to file a recommendation on this matter.
