ORIGINAL

Seminole Electric Cooperative, Inc.'s Comments
Docket No. 981890-EU

Seminole Electric Cooperative, Inc. submits the following comment related to Staff's Second Revised List of Issues. This comment is offered as a supplement to Seminole's previous issue submittal. Seminole also desires to seek clarification of several Staff issues, however, such clarification can be handled in the discussion at the workshop.

Comment: The current reserve margin docket was established to address "aggregate" (not utility-specific) reserve margins. Staff issues relating to assessing utility-specific plans are adequately addressed in the Ten Year Site Plan process.
