GTE FLORIDA INCORPORATED'S REQUEST FOR CONFIDENTIAL CLASSIFICATION AND MOTION FOR PROTECTIVE ORDER

Under Commission Rule 25-22.006, GTE Florida Incorporated (GTE) seeks confidential classification and a protective order for certain information in its response to Staff's 1999 Annual Report on the Status of Local Competition, 2nd LEC Data Request, September 1999. While a ruling on this Request is pending, GTE understands that the information at issue is exempt from Florida Statutes section 119.07(1) and Staff will accord it the stringent protection from disclosure required by Rule 25-22.006(3)(d). A highlighted, unredacted copy of the confidential material is attached to this request as Exhibit A.

All of the information for which GTE seeks confidential treatment falls within Florida Statutes section 364.183(3)(e), which defines the term, "proprietary confidential business information," to include "information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of information."

The confidential information covered in this filing includes ALECs' access line counts by exchange. The access line data is expressed as the number of residential and business resold access lines and unbundled loops and ports provided to customers. GTE believes the ALECs would regard this data as valuable competitive information. With it, competitors could discern the level of competition and preferred locations in Florida and

tailor their marketing, entry and expansion plans accordingly.

The specific information for which GTE seeks confidential protection is given in response to questions 1 and 2, pages 1 through 15, columns C through F.

Respectfully submitted on September 17, 1999.
