**TAMPA ELECTRIC COMPANY'S RESPONSE,
MOTION FOR PROTECTIVE ORDER AND OBJECTIONS
TO RELIANT'S SECOND REQUEST FOR PRODUCTION (NOS. 11-14)**

Tampa Electric Company ("Tampa Electric" or "the company"), submits the following Response, Motion for Protective Order and Objections to Reliant Energy Power Generation, Inc.'s ("Reliant") Second Request for Production of Documents to Tampa Electric Company (Nos. 11-14) and, as grounds therefor, says:

Preliminary Nature of These Objections

The objections stated herein are preliminary in nature and should additional grounds for objections be discovered as Tampa Electric attempts to produce documents in this proceeding, the company reserves the right to supplement or revise or modify its objections. Should Tampa Electric determine that a further protective order is necessary with respect to any of the information requested, Tampa Electric reserves the right to file a motion with the Commission.

FPSC-RECORDS/REPORTING

GENERAL OBJECTIONS

Tampa Electric makes the following general objections to Reliant's Second Request for Production of Documents in this proceeding:

1. Tampa Electric objects to each request insofar as it seeks to impose obligations on Tampa Electric which exceed the requirements of the Florida Rules of Civil Procedure or Florida law.

2. Tampa Electric objects to each and every discovery request to the extent such request calls for information which is exempt from discovery by virtue of the attorney/client privilege, work product privilege, or other applicable privilege. Moreover, the use of the terms "referring to, or otherwise relating to," or "supporting" or "underlying" as used in individual requests would improperly require Tampa Electric in its response to disclose the mental impression and other privileged work product of its attorneys.

3. Tampa Electric objects to each and every discovery request insofar as the request is vague, ambiguous, overly broad, imprecise or utilizes terms that are subject to multiple interpretations but are not properly defined or explained. Tampa Electric objects to the use of the terms "referring to, or otherwise relating to," "support," "underlying" or "basis" on grounds that the terms are vague and that the use of these terms as used in individual requests renders the individual requests vague, overbroad and ambiguous.

4. Tampa Electric objects to each and every discovery request insofar as the request is not reasonably calculated to lead to the discovery of admissible evidence and is not relevant to the subject matter of this proceeding.

5. Tampa Electric objects to each discovery request to the extent that the information requested constitutes "trade secrets" which are privileged pursuant to Section 90.506, Florida Statutes, or which is proprietary confidential business information.

6. Tampa Electric objects to each discovery request to the extent it calls for Tampa Electric to produce or divulge information (including computer inputs and outputs) that constitute proprietary confidential business information the disclosure of which would be harmful to Tampa Electric and its general body of ratepayers.

7. Tampa Electric objects to each and every request to the extent it seeks "all" documents in a specified category on grounds that such a requirement is burdensome, excessive, oppressive or excessively expensive. Tampa Electric is a large corporation with employees located in many different locations. In the course of its business, Tampa Electric creates numerous documents that are not subject to Florida Public Service Commission or other governmental records retention requirements. These documents are kept in numerous locations and are frequently moved from site to site as employees change jobs or as the business is reorganized. Therefore, not every document can be provided in response to these discovery requests. Tampa Electric will make a good-faith effort to locate responsive documents in files and other locations where they are expected to be found in the ordinary course of business.

Motion for Protective Order

8. Tampa Electric's objections to Reliant's discovery requests are submitted pursuant to the authority contained in Slatnick v. Leadership Housing Systems of Florida, Inc., 368 So. 2d 78 (Fla. 3rd DCA 1979). To the extent that a Motion for Protective Order is required, Tampa Electric's objections are to be construed as a request for a Protective Order.

Objections to Specific Requests

9. Response: Subject to and without waiving its general or specific objections, Tampa Electric will produce certain documents that may be responsive to Request No. 11, with the exception of producing computer models and associated user's manuals which are protected by license agreements and which may not be shared with third parties. Tampa Electric objects to producing such models, work products and manuals as they consist of confidential proprietary business information the disclosure of which could be harmful to Tampa Electric and its customers.

10. Response: Subject to and without waiving its general or specific objections, Tampa Electric will produce certain documents that may be responsive to Request No. 12, with the exception of producing computer models and associated user's manuals which are protected by license agreements and which may not be shared with third parties. Tampa Electric objects to producing such models, work products and manuals as they consist of confidential proprietary business information the disclosure of which could be harmful to Tampa Electric and its customers.

11. Response: Subject to and without waiving its general or specific objections, Tampa Electric will produce certain documents that may be responsive to Request No. 13, with the exception of producing computer models and associated user's manuals which are protected by license agreements and which may not be shared with third parties. Tampa Electric objects to producing such models, work products and manuals as they consist of confidential proprietary business information the disclosure of which could be harmful to Tampa Electric and its customers.

12. Response: Subject to and without waiving its general or specific objections, Tampa Electric will produce certain documents that may be responsive to Request No. 14, with the exception of producing computer models and associated user's manuals which are protected by license agreements and which may not be shared with third parties. Tampa Electric objects to producing such models, work products and manuals as they consist of confidential proprietary business information the disclosure of which could be harmful to Tampa Electric and its customers.

WHEREFORE, Tampa Electric submits the foregoing as its Response, Motion for Protective Order and Objections relative to Reliant's Second Request for Production of Documents (Nos. 11-14).

DATED this 14th day of February, 2000.

Respectfully submitted,

LEE L. WILLIS
