RE: Revision No. 3 to MGC IXC Tariff No. 1

000426 - TP

Dear Commission Administrator:

MGC submits the following revisions to its IXC Tariff No. 1:

- 1st Revised Sheet 1, canceling Original Sheet 1
- 2nd Revised Sheet 2, canceling 1st Revised Sheet 1
- 1st Revised Sheet 16, canceling Original Sheet 16
- 1st Revised Sheet 17, canceling Original Sheet 17
- 2nd Revised Sheet 19, canceling Original Sheet 19

An original and 3 copies are enclosed.

This filing reduces the MGC Calling Card Service Residence rate and revises the name of our long distance and 800 service. This filing also changes our address to our new corporate headquarters in Pittsford, New York.

If there are any questions concerning this filing, please contact me at 716-218-8680.

Sincerely,

Carol Lisowski

Carol Lisowski
National Tariff Director

SECTION 3 – DESCRIPTION OF SERVICE3.1 Timing of Calls3.1.1 When Billing Charges Begin and End for Phone Calls

The Customer's long distance usage charge is based on the actual usage of the Company's network. Usage begins when the called party picks up the receiver (i.e., when 2-way communication, often referred to as "conversation time" is possible). When the called party picks up is determined by hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. When software answer supervision is employed, up to 60 seconds of ringing is allowed before it is billed as usage of the network. A call is terminated when the calling or called party hangs up.

3.1.2 Billing Increments

Toll calls are billed in six (6) second increments with a six (6) second minimum. (T)
Customer billing is rounded to the next whole cent.

3.1.3 Uncompleted Calls

There shall be no charges for uncompleted calls.

3.2 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications Research in their NPA-NXX V & H Coordinates Tape and Bell's NECA Tariff No. 4.

FORMULA:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

SECTION 3 – DESCRIPTION OF SERVICE – CONT'D

3.3 Minimum Call Completion Rate

A Customer can expect a call completion rate (number of call completed/number of calls attempted) of not less than 90% during peak use periods for all FGD services ("1+" dialing).

3.4 Service Offerings

3.4.1 MGC Long Distance Service

MGC Long Distance Service is offered to residential and business customers of its Local Exchange services. The Company does not offer toll services to casual users on a no-presubscribed basis.

The service permits direct dialed outbound calling at non-distance and non-time of day/day of week sensitive usage rates for all Intrastate/Interstate calling. Service is provided from presubscribed, dedicated or shared use access lines. Calls are billed in six second increments with a six second minimum. Customer billing is rounded to the next whole cent. No monthly minimum recurring charges or minimum monthly billing requirements apply.

In addition, where live or automated operator assistance is required for call completion or billing, applicable operator service call placement charges of either the Company or any other carrier will be applied.

3.4.2 MGC 800 (Inbound) Service

(T)

MGC 800 (Inbound) Service is offered to residential and business customers. The service permits inbound 800 calling at a single per minute rate. Service is provided from presubscribed, dedicated or shared use access lines. Each call is billed a six (6) second minimum and six (6) second increments thereafter. Customer billing is rounded to the next whole cent.

SECTION 4 – RATES4.1 MGC Long Distance Service

Intrastate toll service is available to residential and business customers. It offers customers non-distance and non-time of day/day of week sensitive usage rates for all their Intrastate calling. Intrastate toll calls are billed in six (6) second increments with a six (6) second minimum. Customer billing is rounded to the next whole cent. The Record Order Change Charge will be waived for customers wishing to switch from their present carrier to the Company's Long Distance Service.
