TIME WARNER TELECOM OF FLORIDA, L.P.'S AMENDED RESPONSE TO BELLSOUTH TELECOMMUNICATIONS, INC.'S EMERGENCY MOTION TO COMPEL

INTRODUCTION

On June 26, 2000, Time Warner Telecom of Florida, L.P. objected to BellSouth Telecommunications, Inc.'s First Request for Production of Documents and First Set of Interrogatories. On July 11, 2000, BellSouth Telecommunications, Inc. ("BellSouth") filed an emergency motion seeking an order from the Florida Public Service Commission ("Commission") to compel AT&T Communications of the Southern States, Inc. ("AT&T"), Intermedia Communications, Inc. ("Intermedia"), KMC I, II, and III Telecom, Inc. ("KMC"), MCI WorldCom, Inc. ("MCI WorldCom"), and Time Warner Telecom of Florida, L.P., ("Time Warner") to respond fully and completely to BellSouth's discovery. On July 13, 2000, in an effort to avoid a contentious discovery dispute but without waving its previous filed objections, Time Warner responded with publicly available information to the limited BellSouth interrogatories related to depreciation lives to be addressed in Phase I of this proceeding. Time Warner, without waiving its previous filed objections, files this Amended Response to provide information regarding the useful life applicable to specific equipment owned or operated by Time Warner.

RESPONSES

REQUEST 1: Please state the economic lives or useful lives used by [ALEC] for depreciation purposes for the switches it owns or operates to provide telephone exchange service in Florida, including the extent to which such lives vary depending upon the type of switch involved (e.g., Digital Electronic, ATM, etc.). In answering this Interrogatory, please identify all documents referring or relating to the economic lives or useful lives used by [ALEC] for depreciation purposes for the switches it owns or operates to provide telephone exchange service in Florida.

RESPONSE: Time Warner Telecom operates switches in Florida, and assigns a useful life of ten (10) years to those switches. In its 10K Form filed with the SEC dated December 31, 1999 (see attached), Time Warner states in the NOTES TO CONSOLIDATED AND COMBINED FINANCIAL STATEMENTS under the section titled *Property, Plant and Equipment* the following: . . . Depreciation is provided on the straight-line method over estimated useful lives as follows:

Buildings and improvements	5-20 years
Communications networks	5-15 years
Vehicles and other equipment	3-10 years
Fiber optic right to use	15 years

REQUEST 2: Please state the economic lives or useful lives used by [ALEC] for depreciation purposes for the cable it owns or operates to provide telephone exchange service in Florida, including the extent to which such lives vary depending upon the type of cable involved (e.g., Fiber Cable, Metallic Cable, Coaxial Cable, Hybrid Fiber/Coaxial Cable, etc.).

In answering this Interrogatory, please identify all documents referring or relating to the economic lives or useful lives used by [ALEC] for depreciation purposes for the cable it owns or operates to provide telephone exchange service in Florida.

RESPONSE: See Answer to Number 1 above. However, the useful life assigned to cable owned or operated by Time Warner is fifteen (15) years. In the same section noted in the Answer to Number 1 above, Time Warner states, "The Company (Time Warner Telecom) licenses the right to use the majority of its fiber optic cable from TW Cable, in which they are co-located. The costs of these rights, which are prepaid by the Company, is capitalized and reflects an allocable share of TW Cable's costs, which, prior to the Reorganization, generally reflected the incremental costs incurred by TW Cable to construct the fiber for the Company. Subsequent to the Reorganization, the Company pays for its allocable share of the cost of fiber and construction incurred by TW Cable in routes where they are in Joint construction. In routes where the Company is not in joint construction with TW Cable, the Company pays for the full cost of construction. See Answer to Number 1 above.

REQUEST 3: Please state the economic lives or useful lives used by [ALEC] for depreciation purposes for the digital circuit equipment it owns or operates to provide telephone exchange service in Florida, including the extent to which such lives vary depending upon the type of digital circuit equipment involved (e.g., carrier, optical, amplification, signaling). In answering this Interrogatory, please identify all documents referring or relating to the economic lives or useful lives used by [ALEC] for depreciation purposes for the digital circuit equipment it owns or operates to provide telephone exchange service in Florida.

RESPONSE: See Answer to Number 1 above. However, the useful life assigned to digital circuit equipment owned or operated by Time Warner is ten (10) years.

REQUEST 4: Produce all documents identified in response to BellSouth's First Set of Interrogatories.

Produce all documents furnished or provided by [ALEC] or on [ALEC's] behalf to its shareholders, accountants, auditors, creditors, or to stock analysts referring or relating to the economic lives or useful lives used by [ALEC] for depreciation purposes for the switches, cable, and digital circuit equipment [ALEC] uses to provide telephone exchange service or interLATA service in Florida.

RESPONSE: Please see Attachment A – Time Warner's 10-K, dated December 31, 1999.

Respectfully submitted this 17th day of July, 2000.
