Comments:

I am writing to you about Gulf Power in Pensacola wanting to add \$2.71 per month for the next two years to help pay for Ivan damages. I am not in favor of allowing the extra cost. My home power bill averages \$268 / month.

Public held companies, such as Gulf Power, certainly take risk when in business. However, the Company is well aware of higher than normal risks operating on the Gulf Coast. They should be prepared for storms by having money set aside or by purchasing risk insurance.

Public Counsel Harold McLean is quoted as saying "the Company did an admirable job in restoring power to the Panhandle" after Ivan. I visited neighborhoods in Santa Rosa County and found trees growing through power lines and around power poles. The Company did not do a very good job of "preventative maintenance" prior to the storm. This should be considered.

Comments:

I find it very disapointing that you voted for an increase to gulf power due to storm damage. what about the citizens have had to pay for. It seems to me you should have voted to decrease rates to help the consumers. How about taking a good look at gulf powers books. they spent over 3 million dollars in advertizing. THEY DON'T HAVE ANY COMPETITION SO WHY ARE THEY TRYING TO CONVINCEN A CITIZEN TO USE THEM. Why do other businesses plan for problems yet a REGULATED company just goes to you and as always you grant the increase.

please include in your response when you have refused an increase to any utility. thanks.

Yes, I wish to be contacted
