### 18. A. Managerial Capability

Phone XP will be operated under the management and technical skills of PriStar Communications, LLC (formerly Blonder Tongue Telephone, LLC).

### John Godsey, Senior VP

John has been working as a consultant for PriStar for the past year and brings with him a wealth of industry and management experience. After graduating from the University of Alabama with a degree in Industrial Management, he was hired by General Motors and quickly became their youngest Zone Manager in General Motors. GM sold the division where John was employed, and he went into business for himself and began operating as an entrepreneur. He has experience as a land developer, owner of convenience stores, oil exploration, owned a restaurant and developed a liquor brand. In 1996, he began a private cable business and enhanced his operational skills by attending numerous continuing education classes relative to cable, satellite technology, and telephone. In his current role, John has been actively involved in financing, sales, installation, administration, and general customer service. The Richmond Group, one of many developers that John has established a relationship with, operates over twenty-five thousand apartment units. They are currently working with John and PriStar on the installation of phone to over one thousand new units to be constructed by October of this year with many more new and existing properties to follow.

### Greg Fath, CFO / HR

Greg has held key positions in his 19 year telecom career while working at Verizon Communications and ATX Telecommunications. After graduating from Seton Hall University in 1987 with a Summa Cum Laude with a degree in Finance, he joined Verizon (New Jersey Bell at that time) as an assistant manager in the company's executive development program. Greg performed many functions ranging from project management to team building within various operational departments. After spending four years in Human Resources and completing his MBA, his career focused on Network Operations and Customer Operations where he was responsible for field organizations (directing the efforts of over 150 employees located at 26 separate garage locations) and customer service departments (managing 1.3 million access lines for residential and business customers). In 1999, Greg was recruited by ATX to build their local services group, including the company's entry into UNE (unbundled network elements) services. Within a year, he was named the company's Director of Customer Operations, at which time he was responsible for Field Services, Customer Service, and Provisioning of the company's entire customer base, while closely managing a \$7 million budget. In 2002, Greg joined PriStar as their CFO and is currently overseeing all finances, operational and Human Resources functions. Greg has been very active within the community and has been the head coach for numerous athletic teams for which the company sponsors. He currently serves as the commissioner for the Washington Township basketball program, which includes over 300 teams and 2,400 participants in various leagues.

### Dana Weichert, VP Provisioning and Billing Services

Dana received a degree in Business from South Hills Business School in State College, PA. She then relocated to Philadelphia and was hired by ATX Telecommunications to begin the development and implementation of resale services and migration of 200 business customers per month to the ATX platform. Once the resale process was well established, ATX made a business decision to move into the dedicated local market. Dana was selected as the point person to once again develop and implement ATX's new Dedicated Local Service. Dana was tasked with building a team and formulating stringent quality controls and associated methods and procedures. Dana surpassed the initial goals and expected revenues throughout her career at ATX. She was recognized as one of the company's top operational performers receiving several awards including Quest for Quality, Highest Quality of Service and Employee of the Year. Having been promoted multiple times, she was recruited by PriStar to lead the operations team as a Director of Provisioning. Dana is credited with building PriStar's telephony back office support group from inception and has continued to play an integral role in PriStar's ability to provide communication services to its subscribers.

### 18. B. Technical Capability

### **Douglas Bell, President**

Douglas currently serves as the President and co-owner of PriStar Communications, LLC. Mr. Bell started in the satellite TV industry twenty-five years ago. Together with his two brothers, the family business opened ten stores across Florida and grew to be one of the largest retailers of satellite television to residential subscribers. As the residential market diminished due to the evolution of scrambling technology, Douglas' attentions became redirected towards the commercial arena of Multi Dwelling Units (MDUs). Eventually efforts were concentrated on commercial users and MDUs as well as a particular niche in the Resort RV parks. Over the course of the next five years, over one hundred properties were being serviced with more than twenty thousand subscribers. The company received numerous awards and accolades such as the coveted National Campground Association's "Supplier of The Year Award." Douglas and his brothers started Broadstar to directly compete with incumbents in MDUs. They developed a business model utilizing in-house installation crews and technicians as well as a customer service center answered by trained staff as opposed to answering systems. PriStar now services properties from Pennsylvania to Florida, including numerous prime properties in the Philadelphia region, Comcast's corporate headquarters.

Douglas received degrees in architectural and civil engineering from Northeastern University and has continuing educational credits from the Hartford Graduate Center in project management and marketing. He is actively involved in community service and youth organizations.

### 18. B. Technical Capability (continued)

### Kashif Khan, IT Manager / Director of Technology

Kashif serves as PriStar's Information Technology manager. He is a Microsoft Certified Network Engineer (MCSE) and currently working on his certification as a Cisco Certified Network Administrator (CCNA). After graduating from Temple University with a degree in business and computer science, he worked for Proscape Technologies developing Sales Automation Software for Fortune 500 companies. Subsequently, he worked for First American Insurance as their system and IT manager. In this position he also provided training classes and support for over two hundred of the company's employees. In addition to constructing and maintaining the company's servers and network, Kashif's responsibilities within PriStar include design/engineering of data systems and distribution for properties serviced by PriStar via cable modems, DSL or Ethernet delivery. He also designed and deployed PriStar's first, and one of the industry's first wireless internet systems to service a large, horizontal build-out of condominiums. Kashif's other areas of responsibility and expertise include evaluation and implementation of the latest technologies such as VOIP, WIFI, Fiber, remote monitoring and activations, as well as system security software and hardware.

### Joe Sulock, Project Manager

Joe, with over fifteen years of installation and design experience, is a second generation installer/contractor. His cable career began at age twelve working with his father. He went on to become a construction manager for Comcast and his responsibilities were inclusive of crew management, deployment, design of cable and data distribution as well as hands-on installation. Joe has been with PriStar for four years and has played a key role in the design and implementation of communications services at many of new Multi Dwelling Units throughout the region. He is proficient at the installation of all levels and tiers of communication inclusive of telephony, data, video and even security systems which ideally fit Broadstar's model of providing bundled services to properties. He has recently completed studies in fiber distribution at the Light Line Institute.

#### TARIFF FORMAT SHEETS

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

**B.** Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the FPSC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc, the FPSC follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

**C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

> 2. 2.1. 2.1.1. 2.1.1.A. 2.1.1.A.1. 2.1.1.A.1. (a). 2.1.1.A.1. (a).I. 2.1.1.A.1. (a).I. 2.1.1.A.1. (a).I. (i). 2.1.1.A.1. (a).I. (i).

**D.** Check Sheets - When a tariff filing is made with the FPSC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the FPSC.

It shall be the customer's obligation to notify the Company immediately of any service interruption for which a credit allowance is desired. Before giving such notice, the customer shall ascertain that the trouble is not being caused by any action or omission by the customer within his control, if any, furnished by the customer and connected to the Company's facilities. No refund or credit will be made for the time that the Company stands ready to repair the service and the subscriber does
- 2.4.2 not provide access to the Company for such restoration work.
- 2.4.2 No credit shall be allowed for an interruption of a continuous duration of less than seventy-two hours after the subscriber notifies the Company.
- 2.4.3 The customer shall be credited for an interruption of more than seventy-two hours as follows:

Issued:

Effective:

#### SECTION 2 - RULES AND REGULATIONS continued

#### 2.4 Interruptions of Services continued

Credit Formula:

Credit =  $A/B \times C$ 

"A" - outage time in hours "B" - total hours in month "C" - total monthly charge for affected facility

#### 2.5 Disconnection of Service by Carrier.

The company (carrier), upon 5 working days written notice to the customer, may discontinue service or cancel an application for service without incurring any liability for any of the following reasons:

- 2.5.1 Non-payment of any sum due to carrier for regulated service for more than thirty days beyond the date of rendition of the bill for such service.
- 2.5.2 A violation of any regulation governing the service under this tariff.
- 2.5.3 A violation of any law, rule, or regulation of any government authority having jurisdiction over such service.
- 2.5.4 The company has given the customer notice and has allowed a reasonable time to comply with any rule, or remedy, and deficiency as stated in Rule 25-4.113, F.A.C., Refusal or Discontinuance of Service by Company.

#### 2.6 Deposits

The Company does not require a deposit from the customer.

#### 2.7 Advance Payments

For customers whom the Company feels an advance payment is necessary, the Company reserves the right to collect an amount not to exceed one (1) month's estimated charges as an advance payment for service. This will be applied against the next month's charges and if necessary a new advance payment will be collected for the next month.

#### SECTION 2 - RULES AND REGULATIONS continued

#### 2.8 Taxes

All state and local taxes (i.e., gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates.

#### 2.9 Billing of Calls

All charges due by the subscriber are payable at any agency duly authorized to receive such payments. Any objection to billed charges should be promptly reported to the Company. Adjustments to customers' bills shall be made to the extent that records are available and/or circumstances exist which reasonably indicate that such charges are not in accordance with approved rates or that an adjustment may otherwise be appropriate.

Issued:

Effective:

#### SECTION 3 - DESCRIPTION OF SERVICE

#### 3.1 Timing of Calls

#### 3.1.1 When Billing Charges Begin and End For Phone Calls

The customer's long distance usage charge is based on the actual usage of the Company's network. Usage begins when the called party picks up the receiver, (i.e. when 2 way communication, often referred to as "conversation time" is possible). When the called party picks up is determined by hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. When software answer supervision is employed, up to 120 seconds of ringing is allowed before it is billed as usage of the network. A call is terminated when the calling or called party hangs up.

#### 3.1.2 Billing Increments

The minimum call duration for billing purposes is 2 minutes for a connected call and calls beyond 2 minutes are billed in 1 minute increments.

#### 3.1.3 Per Call Billing Charges

Billing will be rounded up to the nearest penny for each call.

#### 3.1.4 Uncompleted Calls

There shall be no charges for uncompleted calls.

#### 3.2 Calculation of Distance

The Company does not calculate calls based on mileage.

#### 3.3 Minimum Call Completion Rate

A customer can expect a call completion rate  $\underline{I}$  of not less than 90% during peak use periods for all FG D services ("1+" dialing).

Issued:

Effective:

#### **SECTION 3** - DESCRIPTION OF SERVICE continued

#### 3.4 Service Offerings

#### 3.4.1 Long Distance Service

Long Distance Service is offered to residential and business customers. The service permits direct dialed outbound calling at a single per minute rate. Service is provided from presubscribed, dedicated or shared use access lines. Calls are billed in one minute increments. No monthly recurring charges or minimum monthly billing requirements apply.

#### 3.4.2 Individual Case Basis

I

Arrangements will be developed on a case-by-case basis in response to a bonafide request from a Customer or prospective Customer to develop a competitive bid for a service offered under this tariff. Rates quoted in response to such competitive requests may be different than those specified for such service in this tariff. Packages offered feature

call-anywhere-in-the-continental-US for a monthly fee of a \$15 minimum to \$45.00 maximum;

monthly fee of \$4.95 minimum, \$15.95 maximum plus
per minute rate of \$.039 minimum, \$.089 maximum;

per call fee of \$.039 minimum to \$.099 maximum plus per minute rate of \$.03 minimum to \$.079 maximum.

ICB rates will be offered to the Customer in writing and on a non-discriminatory basis. Specific contracts will be made available to the Commission upon request.
