Re: Docket No. 000121A-TP
In Re: Investigation into the establishment of operations support systems
permanent incumbent local exchange Telecommunications companies

Dear Ms. Bayó:

In accordance with Appendix F of the Service Quality Measurements Plan, BellSouth Telecommunications, Inc. ("BellSouth") herewith files its Preliminary Data Notification Report for January 2007 data month. The January 2007 changes will be discussed during the November 7, 2006 industry conference call. Also enclosed is a PMAP Notification Schedule that sets forth the dates, times, and call-in numbers for the monthly industry calls to be held in 2007.

Additionally, please be advised that effective with the November 2006 data month, BellSouth will remove the remaining UNE line-sharing measurements from the SQM/SEEM Plan. The removal of such measurements is being made in accordance with the May 19, 2004, Order issued in this docket and the March 2, 2006, Change of Law Order issued in Docket No. 041269. A revised SQM/SEEM Plan, reflecting such revisions will be posted in the "Exhibits" section of BellSouth's PMAP website.

A copy of the same is being provided to all parties as reflected in the attached certificate of service.

Sincerely,

Robert A. Culpepper

PRELIMINARY JANUARY DATA NOTIFICATION

BellSouth is considering making the changes described in this document to generate results for the January 2007 data month. Results for the January 2007 data month will be posted as follows:

Preliminary results	February 20, 2007
Final results	February 28, 2007

BellSouth provides Data Notifications each month in compliance with the SQM Plan. This order specifies that when BellSouth proposes making any changes to the methods by which performance data is calculated, it must provide written notice. This notice must be provided on the first business day of the month before the data month in which the change will be made. BellSouth must also provide notification if it is considering making changes to the method of calculating data for the following month.

ENCORE Releases may affect monthly data flows from the source systems (e.g., LEO, LESOG, etc.) that PMAP uses to calculate measurements. BellSouth will make changes to PMAP to ensure that data continues to be correctly captured as ENCORE Releases are implemented.

Ordering Measurements

- (1) *Affected Measures:* O-9 (FOCT)

Description of Change: Currently, the Resale Design product is on the 12-month FOCT report in North Carolina, but not on the Aggregate FOCT report. BellSouth proposes to modify the code to display the data on the Aggregate report correctly. (RQ8458)

Impact of Change: None.

Provisioning Measurements

- (2) *Affected Measures:* P-7C (CPT)

Description of Change: Currently in PMAP, orders with the same circuit identification are being double counted. BellSouth proposes to modify the code to identify these orders correctly. (RQ8686)

Impact of Change: For December 2005 through June 2006, only 1 record in FL was identified with this condition.

- (3) *Affected Measures:* P-2B (PJ) NC Only

Description of Change: Currently in PMAP, BellSouth is incorrectly identifying the retail analog for some orders for the UNE Analog Loop Design disaggregation. BellSouth

is using the Retail Residence and Business (Design) product group as opposed to the correct product group of Retail Residence, Business and Design (Dispatch) (Excluding Digital Loops). BellSouth proposes to modify the code to place these orders into the correct disaggregation. (RQ8719)

Impact of Change: For August 2006 data, the Retail metric would decrease by .18, to 00.91%.

- (4) *Affected Measures:* P-1 (HOI), P-3 (MIA), P-4 (OCI), P-5 (CNI) All States, P-2A (PJ48), P-2B (PJ), P-9 (PPT) All States except LA, & P-2, P-7 (LA only)

Currently, BellSouth.Net ADSL Services that are ordered by a CLEC through the LNP Gateway are being assigned a CLEC Company ID. These orders should be reported in the product group 'ADSL provided retail.' BellSouth Proposes to modify the code to identify these orders correctly. (RQ8764)

Impact of Change: For July 2006 data, 1 record in Florida was assigned an inappropriate Company Key.

For July 2006 data, there were no records that were assigned an inappropriate Company Key in Georgia.

M&R Measurements

- (5) *Affected Measures:* M&R-2

Description of Change: Currently PMAP is incorrectly identifying the company for some lines in service identified as BellSouth "UNE". BellSouth proposes to modify the code to identify these records correctly. (RQ8763)

Impact of Change: For August 2006 data, there was no change in the metric for Georgia or Florida.

Special Access Measurements

- (6) *Affected Measures:* SA-3 (OVRD)

Description of Change: Currently, the PMAP report is displaying a duplicate row of data for the DS1 product buckets. BellSouth proposes to eliminate the duplicate row, and report only one numerator, volume and metric. (RQ6086)

Impact of Change: None

- (7) *Affected Measures:* SA- 1 (FOCT) GA Only

Description of Change: Currently, the Aggregate report is displaying a numerator value at times when the volume value is zero. BellSouth proposes to modify the code to eliminate this problem. (RQ7441)

Impact of Change: None

- (8) *Affected Measures:* SA-4, SA-5, SA-6, SA-7 & SA-8

Description of Change: Currently, BellSouth is not including orders that have subsequent due dates that differ from the original due date located on the initial ASR. This situation exists when the associated missed appointment code is Null, SP (Subscriber Prior), or SL (Subscriber Later). BellSouth proposes to modify the code to report these orders correctly. (RQ8728)

Impact of Change: For August 2006 data, the CLEC metric for Past Due Circuits due to IXC reasons in Florida changed from 8.82% to 100% for the DS1 and disaggregation.

For August 2006 data, the CLEC metric for Past Due Circuits due to IXC reasons in Georgia changed from 7.14% to 44.44% for the DSO disaggregation and from 6.33% to 36.99% for the DS1 disaggregation.

- (9) *Affected Measures:* SA-7 AL & GA

Description of Change: Currently, the 12-month report for the Past Due Circuits measure is displaying a BSLD Numerator value at times when the BSLD Volume value is zero. BellSouth proposes to modify the code to eliminate this problem. (RQ8733)

Impact of Change: None.

- (10) *Affected Measures:* SA-1

Description of Change: Currently, the 12-month report, is not including the data for the benchmark of ">= 98% within 2 or 5 business days" for some products. BellSouth proposes to modify the code to report these orders correctly. (RQ8781)

Impact of Change: None

2007 PMAP Notification Schedule

The monthly Industry Conference Calls are scheduled to begin at 2 p.m. Eastern Time on the days set forth below.

Dial-In Information:

- If calling locally in Atlanta: (404) 521-5280; Access Code 216621#
- Toll fee within the BellSouth calling area: (888) 255-0009; Access Code 216621#
