Tallahassee, FL 32399-0850

**Re: Docket No. 000121A-TP**  
**In Re: Investigation into the establishment of operations support systems  
permanent incumbent local exchange Telecommunications companies**

Dear Ms. Bayó:

In accordance with Appendix F of the Service Quality Measurements Plan, BellSouth Telecommunications, Inc., d/b/a AT&T Florida ("AT&T Florida") herewith files its Preliminary Data Notification Report for May 2007 data month. The May 2007 changes will be discussed during the March 7, 2007 industry conference call.

A copy of the same is being provided to all parties as reflected in the attached certificate of service.

Sincerely,

  
Robert A. Culpepper

## **PRELIMINARY MAY 2007 DATA NOTIFICATION**

BellSouth Telecommunications, Inc., d/b/a AT&T Georgia ("AT&T Georgia") is considering making the changes described in this document to generate results for the May 2007 data month. Results for the May 2007 data month will be posted as follows:

Preliminary results    June 20, 2007  
Final results            July 02, 2007

AT&T Georgia provides Data Notifications each month in compliance with the SQM Plan. This order specifies that when AT&T Georgia proposes making any changes to the methods by which performance data is calculated, it must provide written notice. This notice must be provided on the first business day of the month before the data month in which the change will be made. AT&T Georgia must also provide notification if it is considering making changes to the method of calculating data for the following month.

ENCORE Releases may affect monthly data flows from the source systems (e.g., LEO, LESOG, etc.) that PMAP uses to calculate measurements. AT&T Georgia will make changes to PMAP to ensure that data continues to be correctly captured as ENCORE Releases are implemented.

### **Ordering Measurements**

- (1) *Affected Measures:* OSS-1 (ARI)

*Description of Change:* Currently, PMAP does not calculate the interval for transactions that receive a timeout response in LENS. AT&T Georgia proposes to modify PMAP to calculate an interval for these transactions and include them in the overall interval calculations. (RQ7274)

*Impact of Change:* For July 2006 data, the LENS RSAG BY TN transactions changed from an average interval of 1.24 seconds without timeouts to 1.25 seconds with timeouts.

### **Collocation Measurements**

- (2) *Affected Measures:* C-1 (ART), C-2 (AT), C-3 (MDD)

*Description of Change:* Prior to the implementation of the Regional SQM in each of the nine Southeastern states, each state's Collocation measurements were mapped according to their "in effect" SQM. Now that the Regional SQM has been adopted by all states, AT&T Georgia is proposing to provide efficiencies for membership mapping and coding for all Collocation measures. The nature of the

change will not affect the data, but will allow for greater expediency in data processing and report production. (RQ8899)

*Impact of Change:* No change to reported results.

### **Special Access Measurements**

(3) *Affected Measures:* SA-1, SA-2, SA-3

*Description of Change:* Currently, PMAP is not excluding certain possible variations of the NO ORDER message, which is manually typed into the ASR. AT&T Georgia proposes to add additional variations of this field, which has the intent of "No Order." (RQ8991)

*Impact of Change:* No change to reported results.
