 Subject: Request to provide oral modification to staff's recommendation on Item #10 of the 5/22/07 Agenda Conference

On May 10, 2007, staff filed a recommendation to deny FPL's and PEF's standard offer contracts for renewable generators because the contracts contained an equity adjustment which was contrary to Rule 25-17.280. This afternoon, both FPL and PEF filed revised standard offer contract sheets that remove the equity adjustment. In addition, FPL has added language regarding the right of first refusal for TREC's which is consistent with the other three utilities. As such, staff no longer has any issues with the standard offer contracts. In an effort to facilitate the approval of these contracts, I would request that staff be allowed to orally modify its recommendation at the 5/22/07 Agenda Conference to approve all four standard offer contracts.

I will provide you with a copy of the changes and I will attempt to notify each Commissioner's office of the modification to staff's recommendation. Please let me know if you concur.
