Re: **Docket No. 000121A-TP**
**In Re: Investigation into the establishment of operations support systems
permanent incumbent local exchange Telecommunications companies**

Dear Ms. Cole:

In accordance with Appendix F of the Service Quality Measurements Plan, BellSouth Telecommunications, Inc., d/b/a AT&T Florida ("AT&T Florida") herewith files its Proposed Data Notification Report for September 2007 data month. The September 2007 changes will be discussed at the August 7, 2007 industry conference call.

A copy of the same is being provided to all parties as reflected in the attached certificate of service.

Sincerely,

Robert A. Culpepper

PROPOSED SEPTEMBER 2007 DATA NOTIFICATION

BellSouth Telecommunications, Inc., d/b/a AT&T Georgia ("AT&T Georgia") is considering making the changes described in this document to generate results for the September 2007 data month. Results for the September 2007 data month will be posted as follows:

Preliminary results	October 22, 2007
Final results	October 31, 2007

AT&T Georgia provides Data Notifications each month in compliance with the SQM Plan. This order specifies that when AT&T Georgia proposes making any changes to the methods by which performance data is calculated, it must provide written notice. This notice must be provided on the first business day of the month before the data month in which the change will be made. AT&T Georgia must also provide notification if it is considering making changes to the method of calculating data for the following month.

ENCORE Releases may affect monthly data flows from the source systems (e.g., LEO, LESOG, etc.) that PMAP uses to calculate measurements. AT&T Georgia will make changes to PMAP to ensure that data continues to be correctly captured as ENCORE Releases are implemented.

System releases related to the merger between BellSouth and AT&T may affect monthly data flows from the source systems that PMAP uses to calculate measurements. AT&T Georgia will make changes to PMAP to ensure that data continues to be correctly captured as system changes are implemented.

Ordering Measurements

(1) *Affected Measures:* O-8 (RI)

Description of Change: Currently, PMAP is multiplying the denominator by 4 on the Aggregate report for the product Local Interconnection Trunks. AT&T Georgia proposes to modify PMAP so that the denominator and metric on the Aggregate reports matches the correct denominator and metric as shown on the 12-month reports. This proposed change was Item (1) on the Preliminary September 2007 Data Notification filed on July 2, 2007. (RQ8871)

Impact of Change: The denominator and metric on the Aggregate reports will match the denominator and metric on the 12-month reports for the product Local Interconnection Trunks. Due to the impact of this change, re-posting is not necessary.

Provisioning Measurements

- (2) *Affected Measures:* P-7C (CPT), P-7D (NCDD), & P-9 (PPT)

Description of Change: Currently, in PMAP duplicate records exist in a provisioning reference table. AT&T Georgia proposes to modify PMAP by removing the invalid records. (RQ9312)

Impact of Change: AT&T Georgia continues to investigate the impact of this change.

- (3) *Affected Measures:* P-13C (LAT)

Description of Change: Currently, PMAP is capturing Remote Call Forwarding records in its data. AT&T Georgia proposes to exclude the Remote Call Forwarding records to comply with the exclusions for this measure as identified in the Regional SQM. This proposed change was Item (2) on the Preliminary September 2007 Data Notification filed on July 2, 2007. (RQ9093)

Impact of Change: For April 2007 data in Florida, the LNP metric would change from 99.93% to 99.94%. Due to the impact of this change, re-posting is not necessary.

For April 2007 data in Georgia, the LNP metric would not change. Due to the impact of this change, re-posting is not necessary.

Special Access Measurements

- (4) *Affected Measures:* SA-9

Description of Change: Currently the annualized calculation for Failure Rate includes more than 12 months of data. AT&T Georgia proposes to change calculation to a 12-month annualized rate as per the SQM. This proposed change was Item (3) on the Preliminary September 2007 Data Notification filed on July 2, 2007. (RQ9172)

Impact of Change: For April 2007 data in Florida, the IXC DS0 Annualized Failure Rate would change from 3.96% to 3.38 %. The Retail DS0 Annualized Failure Rate would change from 5.59 % to 4.51 %. Due to the impact of this change, re-posting is not necessary.

For April 2007 data in Georgia, the IXC DS0 Annualized Failure Rate would change from 3.69% to 3.20 %. The Retail DS0 Annualized Failure Rate would change from 4.24 % to 3.11 %. Due to the impact of this change, re-posting is not necessary.
