Subject: Progress Energy's Rate Increase Request

CONSUMER

Interesting how PE is making their request for Jan 1, 2007 so it will be in "another" year. I have a suggestion - why not let the real owner's of the utility - the shareholders- share in the increase. Put part of the ratable expense in rates and part back on the utility with pressure on PE to reduce their dividend payout.

This should happen when the request is made for extraordinary - Hurricane related expenses. Let the "owners" share with the consumers in the "expense".

If you allow this to happen you would be "heros" to al;l of Progress Energy's customers.
