BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Expedited Review of Growth) Docket No.
Code Denials by the Number Pooling Administrator)
for the West Palm Beach exchange (Gardens) Filed: November 29, 2007
_____)

PETITION FOR EXPEDITED REVIEW OF NXX-X CODE DENIAL

BellSouth Telecommunications, Inc. d/b/a AT&T Florida ("AT&T Florida"), pursuant to 47 C.F.R. § 52.15(g)(iv), Federal Communications Commission ("FCC") Order FCC 00-104, and Florida Public Service Commission ("Commission") Order No. PSC-01-1873-PCO-TL, petitions the Commission to review the Pooling Administrator's ("NeuStar") denial of AT&T Florida's request for additional numbering resources in the West Palm Beach exchange. In support of this petition, AT&T Florida states:

PARTIES

1. AT&T Florida is a corporation organized and formed under the laws of the State of Georgia and an incumbent local exchange company ("ILEC") regulated by the Commission and authorized to provide local exchange telecommunications and intraLATA toll telecommunications in the State of Florida.

2. NeuStar is an independent non-governmental entity, which is responsible for administering and managing the numbering resources in pooling areas. See 47 C.F.R. § 52.20(d).

JURISDICTION

3. The Commission has jurisdiction of this matter pursuant to Industry Numbering Committees (INC) Number Pooling Guidelines Sections 3.7 and 12(c). This

DOCUMENT NUMBER-DATE

10591 NOV 29 07

FPSC-COMMISSION CLERK

provision provides that a carrier may challenge NeuStar's decision to deny numbering resources to the appropriate regulatory authority.

BACKGROUND AND REQUEST FOR RELIEF

4. The West Palm Beach exchange consists of seven (7) central offices and eight (8) switching entities that utilize numbering resources: Gardens (WPBHFLGRDS0), Greenacres (WPBHFLGADS0), Haverhill (WPBHFLHHDS0 and WPBHFLHHRS0), Lake Worth (WPBHFLLEDS0), Main Annex (WPBHFLANDS0), Riviera Beach (WPBHFLRB84E), and Royal Palm Beach (WPBHFLRPDS0).

5. On October 3, 2007, AT&T Florida requested additional numbering resources from NeuStar for the Gardens (WPBHFLGRDS0) switch. See Attachment 1. Specifically, AT&T Florida requested two (2) blocks to meet the request of a specific customer for 1,500¹ consecutive numbers in the format of NPA NXX-2 and 3.

6. At the time of the code request, the West Palm Beach exchange had a MTE of 40.53 and a utilization of 74.61%, while the Gardens (WPBHFLGRDS0) switch had a MTE of 18.80.

7. On October 3, 2007, NeuStar's automated number request system denied AT&T Florida's request for additional numbering resources because AT&T Florida had not met the utilization based criteria, notwithstanding the fact that AT&T Florida is unable to provide the numbering resources requested by the specific customer. See Attachment 1. Pursuant to Commission Order No. PSC-01-1973-PCO-TL, attached to

¹ The customer originally requested 1,500 consecutive telephone numbers but later increased the request to 2,000 consecutive telephone numbers.

this Petition is the MTE and utilization rate for each switch in the West Palm Beach exchange and the customer's contact information. See Attachment 2.

8. As discussed above, both the FCC Order and the INC guidelines provide that state regulatory authorities have the power and authority to review NeuStar's decision to deny a request for numbering resources. See INC Number Pooling Guidelines Sections 3.7 and 12(c).

9. Under earlier MTE procedures used by NANPA, waivers or exceptions were granted when customer hardships could be demonstrated or when the service provider's inventory did not have a block of sequential numbers large enough to meet the customer's specific request. Under existing procedures, NeuStar nor NANPA looks at the number of MTE and utilization for the entire rate center without exception. The current process is arbitrary and results in (1) decisions contrary to the public interest and welfare of consumers in the State of Florida; and (2) decisions that do not necessarily promote the efficient use of telephone numbers.

10. AT&T Florida requests that the Commission's reverse NeuStar's decision to withhold numbering resources from AT&T Florida on the following grounds:

(a) NeuStar's denial of numbering resources to AT&T Florida interferes with AT&T Florida's ability to serve its customers within the State of Florida.

(b) The MTE at the rate center level requirement is discriminatory against the incumbent LEC, since the ILEC is typically the only local service provider with multiple switches in a rate center. The ILEC deploys multiple switches in a rate center in order to meet customer demand for telephone service. The FCC's rules for obtaining numbering resources both penalizes and discriminates against the ILECs for deploying multiple

switches. AT&T Florida believes that it is patently unfair to require that the ILEC only get six (6) MTE in all the switches it has deployed in a rate center, when the CLECs have to meet the MTE requirement in only the single switch that they have deployed to serve their customers in a single rate center or even multiple rate centers.

(c) As a result of NeuStar's denial of AT&T Florida's request for additional numbering resources, AT&T Florida will be unable to provide telecommunications services to its customers as required under Florida law.

WHEREFORE, AT&T Florida requests:

1. The Commission review the decision of NeuStar to deny AT&T Florida's request for additional numbering resources for the West Palm Beach exchange; and
2. The Commission direct NeuStar to provide the requested numbering resources for the West Palm Beach exchange as discussed above.

Respectfully submitted this 29th day of November, 2007.

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia™ LERG™ Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia™ Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI™ tandem of the facilities based provider^x. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. The also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Foot Notes:

ⁱ Identify type of and reason for change(s) in Section 1.5.

ⁱⁱ The Pool Administrator is available to assist in completing these forms.

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).

^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLI™ code of the switch /POI.

^{vi} Rate Center name must be a tariffed Rate Center.

^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the network prior to the effective date of the block(s).
