**JOINT PETITION FOR APPROVAL TO ACQUIRE ASSETS AND REQUEST FOR
EXPEDITED APPROVAL**

PNG Telecommunications, Inc. d/b/a PowerNet Global Communications d/b/a CrossConnect (“PNG” or “Buyer”) and GlobalTouch Telecom, Inc. (“GlobalTouch” or “Seller”) collectively (the “Parties”), pursuant to the rules and regulations of the Florida Public Service Commission (“Commission”), hereby request that the Commission approve the acquisition by Buyer of a portion of the telecommunications customer base of Seller and to grant such relief on an expedited basis to allow for the consummation of the transaction without undue delay. Expeditious approval of this Joint Petition will allow Seller to promptly assume responsibility for the provision of telecommunications services to the affected Florida customers and bestow the benefit to such customers from this transaction. The Parties therefore respectfully request that the approval of this Joint Petition be granted on an expedited basis.

III. The Transaction

Pursuant to the Agreement between Global Touch and PNG, PNG will purchase certain customers from Global Touch. After the closing, Buyer will provide telecommunications services to Seller's customers pursuant to its own telecommunications authorizations. After consummation of the transactions, Seller will continue to provide services apart from the business being acquired by Buyer.

The proposed transfer of customers to Buyer will have no adverse impact on customers. Seller's customers will continue to receive their existing services at the same rates, terms, and conditions that they have prior to the transfer and any future changes in the rates, terms, and conditions of service will be made consistent with applicable laws and regulations. To avoid customer confusion and ensure a seamless transition, the Parties have provided advance written notice to the affected customers at least thirty (30) days prior to the transfer, explaining the change in service provider in accordance with applicable Commission and state regulations for changing a customer's presubscribed carrier. A copy of the notice of the transfer sent February 11, 2008 is attached as EXHIBIT A.

IV. Public Interest Analysis

The transaction contemplated by the Agreement will serve the public interest. Buyer is a strong company that will continue to provide high quality services to Seller's customers. The purchased customers not only will continue to receive the same services they currently purchase from Seller but also will have access to additional and enhanced products and services offered by Buyer.

The proposed transfer does not present any competitive issues. The Parties note that there are a number of other carriers operating in each market, including the incumbent carrier,

which controls a substantial market share.

Further, Buyer has extensive experience offering interexchange telecommunications services. Consequently, the former Seller customers will continue to receive these services from an experienced and qualified carrier. These customers will also be given sufficient notification of the proposed transaction and their rights. As such, the Parties anticipate that customers will experience a seamless transition of service provider.

V. Expedited Treatment Requested

The Parties hereby respectfully requests that this Joint Petition be considered on an expedited basis.

WHEREFORE, Buyer and Seller, for the reasons stated in this Joint Petition, respectfully request that the Commission approve the acquisition of certain customers of Seller described herein.

IMPORTANT NOTICE REGARDING YOUR TELEPHONE SERVICE

Dear GlobalTouch Telecom Customer:

There is some exciting news to report regarding your telecommunications services. We are proud to announce that GlobalTouch Telecom has entered into an agreement with PowerNet Global Communications ("PNG") through which your telecommunications services, currently provided by GlobalTouch Telecom, will now be provided by PNG.

PNG is a nationwide integrated telecommunications provider serving customers with a full suite of voice and data services, including local and long distance telephone service and high-speed internet service. PNG's mission has always been to deliver outstanding value to its customers through a commitment to excellence in products and customer support.

There is no action required on your part. Your long distance service will be transferred automatically to PNG and you will continue to receive long distance services at the same rates, terms and conditions that you have currently. There also will be no charges assessed to your bill as a result of this transfer. Following the transfer, notice of any future changes in rates, terms and conditions of service will be provided to you as required by the law of your state.

PNG expects that the transfer will occur on or about March 17, 2008; depending on when we receive the appropriate regulatory approvals. Please be advised that if you have placed a "freeze" on your long distance services to prevent their unauthorized transfer to another carrier, it will be automatically lifted to implement a seamless transfer of your services to PNG. If you would like your freeze protection reestablished, please contact your local service provider after the transfer takes place.

Although you are free to choose another long distance carrier at any time, we value your business and are confident that you will be pleased with the superior service that you will receive from PNG. If you do not choose a new long distance carrier before March 17, 2008, your long distance service will be transferred automatically to PNG where we pledge our commitment to provide you with quality services and personalized customer care as we move forward.

If you have questions about the transfer or your service to PNG, you may contact our Customer Care department at 1-866-203-5080. Once again, we look forward to serving you and welcome to PowerNet Global.
