Re: Docket No. 080641-TP - Initiation of rulemaking to amend and repeal files in Chapters 25-4 and 25-9, F.A.C., pertaining to telecommunications.
Docket No. 080159-TP - Joint petition to initiate rulemaking to adopt new rule in Chapter 25-24, F.A.C., amend and repeal Rules in Chapter 25-4, F.A.C., and amend rules in Chapter 25-9, F.A.C., by Verizon Florida LLC, BellSouth Telecommunications, Inc. d/b/a AT&T Florida, Embarq Florida, Inc., Quiney Telephone Company d/b/a TDS Telecom, and Windstream Florida, Inc.

The majority of our testimony was about the backbone of communications in the State of Florida. Maintenance of the backbone is in the interest of all Citizens called: consumers of communication. Florida's economy and businesses that depend on communications have a stake in the quality of the infrastructure, and maintenance of the communications backbone. Residential customers like most businesses depend upon the use of the backbone for business and security not as a luxury. Eliminating the needed oversight of the infrastructure should not be in question at a time when citizens are calling for better oversight of American industry. The changes that are proposed both in Docket No. 080159-TP, and Docket No. 080641-TP, along with Docket 000121A, SEEM, combined, may, maintain the maintenance, trouble reporting, and held orders of the backbone, which is in the interest of competition and important to the consumers, residence and business, retail and wholesale. We disagree with any rule that does not sustain oversight of maintenance of the infrastructure, of communications in Florida

We believe the following should be retained as my workers have reported disconnect in error, not the fault of the customer, not the circumstance of an unpaid bill, but a true disconnect in error can sometimes take up to 2-4 weeks to remedy. This time period for a small business or a residential customer unless it is a facility problem, is unacceptable.

Retain

25-4.070 Customer Trouble Reports for Residence Service.

(1) (c) If service is discontinued in error by the telephone company, the service shall be restored without undue delay, and clarification made with the subscriber to verify that service is restored and in satisfactory working condition.

(5) Repeat Trouble: Each telephone company shall establish procedures to insure the prompt investigation and correction of repeat trouble reports such that the percentage of repeat troubles will not exceed 20 percent of the total initial customer reports in each exchange when measured on a monthly basis. A repeat trouble report is another report involving the same item of plant within 30 days of the initial report.

There is one item that is deeply troubling to industry workers that we must bring to the forefront again as we have consistently during PSC Meetings. The general public, the average citizen or worker has had no input into the entire process, except for one Consumer Organization. The Public Service Commission, itself, can testify that when the consumers are asked for comment the halls around the state fill with citizens. Before competition the PSC was arbitrator between rate payers, (consumers), and the industry, but when competition was introduced the PSC changed to arbitrator between industries. The only safety net for the consumers is the PSC Public Council, and in the case of these Dockets in question, Florida's Attorney General was involved for the citizens' security.

As a participant in the Legislative process when the Consumer Information legislation was being drafted into law (s.364), the discussions not only spoke about slamming, cramming, lifeline and Linkup services, but, it was to be used as a way to let the consumers know what changes were happening in an ever changing industry. Keeping the citizens informed was the intent. The Docket does away with that intent, and leaves the average consumer in the dark without a reliable state communication education source.

The Communications Workers of America Council of Florida extends gratitude to the Public Service Commission, your, WONDERFULL Staff, and all involved for allowing our voice to be heard on such important subjects of rule, not only in behalf of our Members but for the citizenry as a whole.

In Unity,
Gail Marie Perry

The PDF files are printing fine now. However, there is still the problem with the attachments being separate from the cover letter. They need to be combined into one filing (with the cover letter), or they each need their own cover letter and reference to the attachments removed from the original cover letter.

Time Warner, Intrado, OPC, AG, and AARP are already on the mailing list. Per this email, I'll go ahead and add ILECs and CLECs. You'll only need to compile the list from the staff workshop. Thanks for the heads up.

Hi Kim --I talked with Ruth and we're going to compile the mailing list for 080159. Definitely all the ILECs and CLECs should be on it. In addition, as Ruth mentioned, AARP, Public Counsel and the ATtorney General. In addition, we have a sign-in sheet from the Staff Workshop -- so we'll add names from that also. And, Time Warner had filed a notice of intent to participate, as well as Intrado and Sprint Nextel.
