CC Form 477 Local Telephone Competition and Broadband	Reporting Part III:	Mobile Local Telephone	OMB NO: 3060-0816
Qwest Communications Corporation for Florida June 30, 2007			EXPIRATION DATE: 05/31/2008
Complete Part III if you serve one or more mobile voice telephony subscribus subscribers" and "own facilities".	bers in the state over you	r own facilities. See Instructions for defir	f "mobile voice telephony
Data as of June 30, 2007			
III.A. Mobile voice telephony subscribers in service and served over your own facilities. (Include directly billed subscribers, pre-paid subscribers, and subscribers served via resellers.)	(a) Network telephone service subscribers	(b) Percentage of subscribers reported in (a) that are directly billed or pre-paid subscribers	
III - 1. Cellular, PCS and other mobile telephony.			

Note: In Part III, count a subscriber as a mobile handset, car-phone or other revenue-generating active voice unit that has a unique phone number and that can place and receive calls from the public switched network. Subscriber counts by state should be based on the area codes of the phone numbers provided to subscribers.

FCC Form 477 -- Local Telephone Competition and Broadband Reporting Part IV: Explanations and Comments OMB NO: 3060-0816 EXPIRATION DATE: 05/31/2008 Qwest Communications Corporation for Florida June 30, 2007 Space for comments or explanatory notes. Part Line Comment 

FCC F	orm 477 ·	Local Telephone	Competition and Broadband Reporting	Part V: ZIp Code Listings

OMB NO: 3060-0816

EXPIRATION DATE: 05/31/2008

Qwest Communications Corporation for Florida June 30, 2007

Filers reporting broadband connections (Part I) must supply lists of the 5-digit Zip Codes in which the filer provided each type of broadband connection reported in Part I, except that: (1) filers reporting mobile wireless broadband connections must report in column (g) the Zip Codes that best represent the "coverage area" in which the filer's mobile wireless broadband service was deployed and offered for sale to end users; and (2) the traditional wireline and other categories are combined in column (i).

Filers reporting voice telephone service provided to end users (Line II-1 of Part II) must provide in column (j) a list of the Zip Codes in which the filer provided such service.

 V - 1. 5-digit Zip Codes, in the state, that are associated with the information reported in Part I and Part II, as specified herein.
 (Do not provide customer counts by Zip Code.)

FCC Form 477 - Local Telephone Competition and Broadband Reporting Part I: Broadband OMB NO: 3060-0816 EXPIRATION DATE: 05/31/2008 Qwest Communications Corporation for Florida December 31, 2007 Complete Part I.A if you provide one or more lines or wireless channels in the state that connect end users to the Internet at information transfer rates exceeding 200 kbps in at least one direction. For this purpose, include connections provided over your own local loop facilities or over lines or wireless channels you provisioned to enable information transfer at the end user location at rates exceeding 200 kbps in at least one direction. See Instructions for definitions of "broadband", "end user", "own local loop facilities", and "residential end user premises". If you complete Part I.A, you must provide in Part V specified lists of 5-digit Zip Codes. See Instructions. Do not report anywhere in the form any high-capacity connections between two locations of the same end user customer, ISP or communications carrier. Percentages of lines and wireless channels reported in (a), and Data as of December 31, 2007 1.A. Lines and wireless channels connecting end users to the Internet that you That have information transfer rates exceeding 200 kbps in both directions. provided over your own local loop facilities, or over UNE loops or other lines and: and wireless channels that you obtained from unaffiliated entities and equipped as broadband, categorized by technology at the end user location. (b) (c) (d) (h) (i) (i) (e) **(f)** (g) ster direction greater than 200 kbps diest han 2.5 mbps s in the equal in the Have information transfer rates in the faster direction greater than or equal to 10 mbps and less than 25 mbps Total connections to end users (information transfer rates exceedin 200 kbps in at least one direction) service or your information transfer rates in the direction greater than or equal mbps and less than 10 mbps e information transfer rates in er direction greater than or ec 00 mbps to residential end residential end bg pà r incorporate end users b or agents ractitities or t equivalent Provided to Provided t premises Billed (or billed) to e affiliates o Have in faster of to 100 a Have in faster of to 2.5 r Have i faster and le faster to 25 r I - 1. Terrestrial fixed wireless (licensed or unlicensed). 1 - 8. Terrestrial mobile wireless (licensed or unlicensed).

Note: In Part I.A, report actual counts of connections. Do not report voice-grade equivalent measures.

I - 10. All other technologies. Report specific technology and the corresponding number of connections in the comment section

1 - 9. Electric power line.

of Part IV.

C Form 477 — Local Telephone Competition and Broadband Reporting Part I: Broadband (continued)	OMB NO: 3060-0816
	EXPIRATION DATE: 05/31/2008
Qwest Communications Corporation for Florida December 31, 2007	
Complete Part I.B ONLY IF you are an ILEC (or an affiliate of an ILEC) that is reporting asymmetric or symmetric xDSL connections in Part I.A OR you are a cable system (or an affiliate of a cable system) that is reporting cable modem connections in Part I.A.	
For the purposes of completing Part I.B:	
(1) "Residential end user premises" include residential living units, individual living units in such institutional settings as college dormitories and nursing homes, and other end user locations to which you (including affiliates and agents) market broadband services that are primarily designed for residential use.	
(2) The "service area" of an ILEC consists of those residential end user premises to which the ILEC can deliver telephone service over local loop facilities (or the fixed-wireless last mile equivalent) that it owns.	
(3) The "service area" of a cable system consists of those residential end user premises to which the system can deliver cable service over cable plant that it owns.	
I.B. Report your best estimate of the percentage of residential end user premises in your service area, in this state, to which your broadband connections could be provided using installed distribution facilities.  I- 11. Providers of xDSL (asymmetric or symmetric) connections should base responses on the service area of the affiliated ILECs.  1- 12. Providers of cable modern connections should base responses on the service area of the affiliated cable systems.

FCC Form 477 - Local Telephone Competition and Broadband Reporting Part V: Zip Code Listings

OMB NO: 3060-0816

EXPIRATION DATE: 05/31/2008

Qwest Communications Corporation for Florida December 31, 2007

Filers reporting broadband connections (Part I) must supply lists of the 5-digit Zip Codes in which the filer provided each type of broadband connection reported in Part I, except that: (1) filers reporting mobile wireless broadband connections must report in column (g) the Zip Codes that best represent the "coverage area" in which the filer's mobile wireless broadband service was deployed and offered for sale to end users; and (2) the traditional wireline and other categories are combined in column (i).

Filers reporting voice telephone service provided to end users (Line II-1 of Part II) must provide in column (j) a list of the Zip Codes in which the filer provided such service.

V - 1. 5-digit Zip Codes, in the state, that are associated with the information reported in Part I and Part II, as specified herein. (Do not provide customer counts by Zip Code.)

#### Table 1: Traditional Retail Switched Access Lines on a Voice-Grade Equivalent (VGE) Basis

Company Name:	Qwest Communications Corporation	REDACTED
Company Code*:	TX273	MUDACIED

### THIS TABLE IS TO ONLY CAPTURE TRADITIONAL RETAIL SWITCHED ACCESS LINES. DO NOT INCLUDE LINES REPORTED IN TABLE 5.

Complete Table 1 if you provided voice telephone service to Florida end users via one or more voice-grade equivalent (VGE) lines or fixed wireless VGE channels. See FCC Form 477 definitions and instructions for Line A.II-1 and complete this table accordingly.

Each Exchange name and corresponding data must be entered in a separate row.

Do not report special access lines or any high-capacity connections between two locations of the same end user, ISP, or telecommunications carrier.

Please provide data as of June 30, 2007 and as of December 31, 2007 in two separate tables.

DATA AS OF JUNE 30, 2007

<sup>&</sup>quot;\*We are not asking for information contained in columns (c) and (d) of the FCC Form 477.

#### Table 2: Resold Lines Provided to Unaffiliated Telecommunications Carriers on a Voice-Grade Equivalent (VGE) Basis

Company Name:	Qwest Communications
Company Code*:	TX273

### THIS TABLE IS TO ONLY CAPTURE RESOLD LINES PROVIDED TO UNAFFILIATED TELECOMMUNICATIONS CARRIERS.

Complete Table 2 if you provided one or more voice-grade equivalent (VGE) lines or fixed wireless VGE channels to unaffiliated telecommunications carriers, including those under commercial agreements, to enable the unaffiliated carriers to provide voice telephone service to Florida end users. See FCC Form 477 definitions and instructions for Line B.II-2 and Line B.II-3 and complete this table accordingly, except that you should not report any UNE-Ps in this table.

Each Exchange name and corresponding data must be entered in a separate row.

Report all lines and channels under resale arrangements with unaffiliated carriers, including other resale arrangements under commercial agreements that replace, or substitute for, UNE arrangements or linesharing. However, do not report any Local Platform (formerly known as UNE-P) loops in this table, as those should be reported in Table 4. Examples of other resale arrangements also include Centrex/Centron or Special Access service to enable the unaffiliated carriers to provide local telephone service to their end users. However, do not report special access lines or any high-capacity connections between two locations of the same end user. ISP or telecommunications carrier.

Please provide data as of June 30, 2007 and as of December 31, 2007 in two separate tables.

N/A

II.B. Voice telephone service that you provided to unaffiliated telecommunications carriers, categorized by:	(1) Exchange	(a) Total VGE lines and VGE wireless channels in service
Lines and channels under Resale arrangements	N/A	N/A

<sup>\*</sup> Your Company code is shown on the label affixed to the envelope in which this was mailed and on the cover letter.

### Table 3: UNE Loops Without Switching Provided to Unaffiliated Telecommunications Carriers - Not on VGE Basis

Company Name:	Qwest Communications
Company Code*:	TX273

THIS TABLE IS TO ONLY CAPTURE UNE LOOPS WITHOUT SWITCHING PROVIDED TO UNAFFILIATED TELECOMMUNICATIONS CARRIERS.

Complete Table 3 if you provided circuits to unaffiliated telecommunications carriers under an unbundled network element (UNE) loop arrangement, including those under commercial agreements, to enable the unaffiliated carrier to provide voice telephone service to Florida end users. See FCC Form 477 definitions and instructions for Line C.II-4 and complete this table accordingly.

Each Exchange name and corresponding data must be entered in a separate row.

Please provide data as of June 30, 2007 and as of December 31, 2007 in two separate tables.

N/A

II.C. UNE Loops that you provided to unaffiliated telecommunications carriers, categorized by:	(1) Exchange	(a) Total lines and wireless channels (do not convert to VGEs)
Lines and channels under a UNE loop arrangement, where you did not provide switching for the line.	N/A	N/A

<sup>\*</sup> Your Company code is shown on the label affixed to the envelope in which this was mailed and on the cover letter.

Table 4: UNE Loops With Switching (formerly known as UNE-P) Provided to Unaffiliated Telecommunications Carriers - Not on VGE Basis

Company Name:	Qwest Communications
Company Code*:	TX273

#### THIS TABLE IS TO ONLY CAPTURE UNE LOOPS WITH SWITCHING PROVIDED TO UNAFFILIATED TELECOMMUNICATIONS CARRIERS.

Complete Table 4 if you provided circuits to *unaffiliated* telecommunications carriers under a *Local Platform* (formerly known as *UNE-P*) arrangement, including those under *commercial* agreements, to enable the *unaffiliated* carriers to provide voice telephone service to Florida end users. See FCC Form 477 definitions and instructions for *Line C.II-5* and complete this table accordingly, except that you should include the UNE-Ps governed by *commercial* agreements in this table, not in Table 2.

Each Exchange name and corresponding data must be entered in a separate row.

Please provide data as of June 30, 2007 and as of December 31, 2007 in two separate tables.

N/A

II.C. UNE Loops that you provided to unaffiliated telecommunications carriers, categorized by:	(1) Exchange	(a) Total lines and wireless channels (do not convert to VGEs)
Lines and channels under a UNE loop arrangement, where you also provided switching for the line ("Local Platform, formerly UNE-P").	N/A	N/A

<sup>\*</sup> Your Company code is shown on the label affixed to the envelope in which this was mailed and on the cover letter.

#### Table 5: VoIP Access Lines on a Voice-Grade Equivalent (VGE) Basis

Company Name:	Qwest Communications Corporation					
. ,	TX273					
Company Code*:	the label affixed to the envelope in which this was mailed and on the cover latter					

#### THIS TABLE IS TO ONLY CAPTURE VOIP LINES. DO NOT INCLUDE LINES REPORTED IN TABLE 1.

Complete Table 5 if you provided VoIP service to Florida end users via one or more voice-grade equivalent (VGE) lines or wireless VGE channels.

An access line connects the end user's customer premises equipment (CPE) to the serving switch and allows the end user to originate and/or terminate local telephone calls on the public switched telephone network (PSTN). The access line counts in Table 5 below must be based on all of your different types of access lines (including fixed wireless) that are used to provide VoIP service.

Each field must be populated. All entries must be made without quotation marks.

#### TABLE COLUMN INSTRUCTIONS:

Column (a). List Exchanges in alphabetical order corresponding to the primary location where service is provided. Reported exchange data should not be based on secondary service locations (i.e., where service has been moved temporarily to a secondary location such as a vacation home).

Column (b). Enter the abbreviation Res for Residential lines or Bus for Business lines. Residential lines and business lines must be entered in separate rows.

Column (c). Enter line count as voice-grade equivalents (VGEs). Report VGEs based on how the customer is billed. If the customer is billed for a dynamic bandwidth VoIP product, the line count would be the maximum number of VoIP lines available. If the customer is billed for a specific number of VoIP lines, or a range of lines, the VoIP line count would be the number of VoIP lines or the highest number of the range, respectively. Each line count must be entered in separate rows.

Please provide data as of June 30, 2007 and as of December 31, 2007 in two separate tables.

#### Data as of June 30, 2007

Your Company code is shown on the label affixed to the envelope in which this was mailed and on the cover letter.

#### Table 5: VolP Access Lines on a Voice-Grade Equivalent (VGE) Basis

Company Name:	Qwest Communications Corporation			
Company Code*:	TX273			

### THIS TABLE IS TO ONLY CAPTURE VOIP LINES. DO NOT INCLUDE LINES REPORTED IN TABLE 1.

Complete Table 5 if you provided VoiP service to Florida end users via one or more voice-grade equivalent (VGE) lines or wireless VGE channels.

An access line connects the end user's customer premises equipment (CPE) to the serving switch and allows the end user to originate and/or terminate local telephone calls on the public switched telephone network (PSTN). The access line counts in Table 5 below must be based on all of your different types of access lines (including fixed wireless) that are used to provide VqIP service.

Each field must be populated. All entries must be made without quotation marks.

#### TABLE COLUMN INSTRUCTIONS:

Column (a). List Exchanges in alphabetical order corresponding to the primary location where service is provided. Reported exchange data should not be based on secondary service locations (i.e., where service has been moved temporarily to a secondary location such as a vacation home).

Corumn (b). Enter the abbreviation Res for Residential lines or Bus for Business lines. Residential lines and business lines must be entered in separate rows.

Column (c). Enter line count as voice-grade equivalents (VGEs). Report VGEs based on how the customer is billed. If the customer is billed for a dynamic bandwidth VoiP product, the line count would be the maximum number of VoiP lines available. If the customer is billed for a specific number of VoiP lines, or a range of lines, the VoiP line count would be the number of VoiP lines or the highest number of the range, respectively. Each line count must be entered in separate rows.

Please provide data as of June 30, 2007 and as of December 31, 2007 in two separate tables.
