Ms. Argenziano I was sorry to read you leaving the PSC commission. My only hope is you will continue in politics. Florida needs people like you. Mr. Skop, I am very upset, but not surprised concerning the story in today's Palm Beach Post concerning FPL asking courts to eliminate you from discussions concerning them. You along with Ms. Argenziano, Mr. Klement and Stevens were a credit to the PSC and the residents of Florida. The cartoon below should read FPL laid off 25 Congressmen. Thought you would enjoy the ?cartoon.

Subject: FPL Actions
Importance: High

To All Commissioners,

With regards to the actions of FPL towards Nathan Skop, you *all* have need to be concerned and must take action to stop FPL towards achieving their end - which is having Commissioner Skop removed from all future FPL hearings.

Such an action would set a precedent that would provide FPL unmitigated control over all of your actions and to the detriment of the ratepayers that you are there to serve.

FPL has proven that it has taken questionable actions before and if this action is successful against Commissioner Skop, then all of you are endangered as well as your successors.

Please take whatever measures you can to ensure that FPL does not succeed in it's quest.

The repercussions are just too dangerous.

Very truly yours,
Linda M. Drake

Dear Commissioner Skop,

It seems I am continually upset with the news in the Palm Beach Post concerning you and FPL, and the latest story on 9/14/2010, which I have enclosed for you to read. I don't have the words to express my gratitude to you for all you have done, and tried to do for the consumers who have no choice but to use FPL.

There was a list of senators and representatives who make up the nominating committee, and I have written them all and expressed my dissatisfaction with them and of course have not heard back from any of them. I have no doubt that FPL have these people in their pockets, and care more about "taking care" of them than the public. What upsets me more is the consumer who won't or can't get involved beyond talking about how high their electric bill is while standing around the water cooler. These fools, in my opinion, will get what they deserve when you and Ms. Argenziano complete your term in January. As for the politicians hopefully they will get what they deserve come November. You take care of yourself, sir. And again "Thank you"

FPL turns up heat on PSC member

By **SUSAN SALISBURY**

Palm Beach Post Staff Writer

Updated: 7:59 p.m. Monday, Sept. 13, 2010

Posted: 7:49 p.m. Monday, Sept. 13, 2010

In its battle to bar outgoing Florida Public Service Commissioner Nathan Skop from dealing with any of its issues, Florida Power & Light Co. pulled out all the stops Monday, seeking to prevent Skop from participating in a PSC hearing today.

The Juno Beach-based company filed additional motions with the Tallahassee-based 1st District Court of Appeal and the PSC on Monday in its latest attempt to keep him out of its business.

Late Monday the PSC deferred FPL's portion of today's hearing until Sept. 28.

The PSC, including Skop, is still expected to discuss other utility companies' energy-saving programs.

"Our goal is to stop him from participating in FPL matters," Barry Richard, a Tallahassee attorney representing FPL, said Monday.

FPL officials said in court filings that in the past year Skop has become increasingly hostile toward the company, and that his antagonistic behavior has been reserved for FPL. The company contends Skop is no longer fair and impartial.

Skop, 43, whose term ends Jan. 1, did not respond to a request for comment Monday.

In January, Skop and four other commissioners unanimously voted to reject FPL's proposed \$1.2 billion rate increase. The company was granted a \$75.5 million increase. Skop has stated that FPL "owns state government," and accused it of "spin" and "selective disclosure," and accused FPL's counsel of "misrepresentations," according to court filings.

Richard filed an emergency motion for a stay Monday, asking the 1st District Court of Appeal to stop Skop from hearing any FPL matters. On Sept. 2, FPL filed a motion with the PSC asking Skop to disqualify himself from involvement in any FPL issues.

At a nuclear cost hearing a week ago, Skop said the motion was moot because it was not issued far enough in advance of the hearing and did not cite the appropriate statute.

Skop's refusal to disqualify himself set off a series of court filings by FPL attorneys, including one that asks the court to force Skop to rule on the disqualification motion.

Friday, the appellate court gave Skop until Thursday to respond as to why FPL's petitions should not be granted.

The company's recent settlement of its rate case, and 10 other FPL issues are pending before the PSC this year.

Subject: Call In Comments from FPL Customer

Ann,

Mr. Larry Kraatz of Vero Beach (721 Timber Ridge Trail) called the Office of Commissioner Skop at 9:20 AM today to express his displeasure regarding FPL filings designed to remove Commissioner Skop from FPL-related dockets. He stated he was very concerned about FPL's attempts to silence Commissioner Skop, their "mafiosa tactics", their attempts to increase rates. He stated Commissioner Skop's input should be valued despite having voted against FPL. Mr. Kraatz stated he supports the appointment to the utility board of any advocate who supports people's rights.

Thank you for taken on F.P.L. and representing the hard working families in Florida. In the past it always been F.P.L. who has been dictating to the consumers and it's nice to finally see a commissioner who is standing up for the people of Florida! The amount of electricity that needs to be generated today is getting to be less and less. With all the "green" lighting, Appliances, Motors, A.C. units, etc.... our electric bill should be decreasing each year when in fact it is constantly on the rise. I've never seen so many excuses for increases. Make them open their books for the consumer to see. It would be in the best interest of the consumers. I look out my back window and see several old Electric poles that are rotted, and they claim that they have strengthened the electrical grid. Please keep on them and don't back down!

Thank You for your Fine Job as Commissioner.

Chris

Dear Mr. Skop. I just wanted to thank you on behalf of all Florida FPL customers. It's an outrage that FPL can be so brazen and open about trying to silence you, with not one word of support from your colleagues on the commission. Are they all bought and paid for by FPL? And where are our elected officials who are supposed to be looking out for us against a monopoly company which continues to be caught in lie after lie regarding costs and rates. Although I'm only one angry customer, I would like to help in any way I can. Who else is on our side? I live in a gated community in St Lucie county and I have hundreds of email addresses throughout the state. I will forward any communication or actions to them. Thanks again for standing with us. Patrick Mahoney, 1571 SE Ballantrae Ct. Port St Lucie FL.34952. 772 337 2681.

Subject: FPL upgrades

Dear Commissioner Skop,

We read in today's (3/3/10) Palm Beach Post that you voiced dismay about FPL's suspension of modernization of its Riviera Beach facility. As residents of Singer Island, close neighbors of this messy, polluting facility, we would like to express our deepest thanks to you for saying what we have been thinking since FPL announced this ridiculous decision. We feel that this action was a deliberate retaliation in return for denying them their requested rate increases.

Before that plant went offline, we experienced 6+ years of sooty debris coating all outside surfaces at our residence. It is a constant fight to clean this mess up, not to mention the health risks it presents. Any neighborhood questions about what could be causing this mess have been met with answers that it is "just mold." We all know it is coming from the power plant. It has been obvious. Lo and behold, the plant goes offline for upgrades and the soot stops. Hallelujah! We begin to think about perhaps resurfacing our driveway and pool area. Maybe getting some patio furniture since it won't be immediately destroyed.

FPL starts the Riviera Beach power plant up again and the soot returns. Surely they know we residents are not happy. Maybe they think we are unhappy enough to agree to their rate increases.

Isn't that extortion?

In any case, your efforts to speak on our behalf are again, most appreciated. Please keep talking until someone listens! We wonder where the rest of the panel was when you were making your comments. Thank you again.

Dear Chairman Carter:

Now is the right time to take advantage of FPL's desire to modernize the Riviera Beach power plant. FPL's plan will improve the look of the plant by lowering the stack height. It will also improve the local air quality by reducing emissions attributed to global warming.

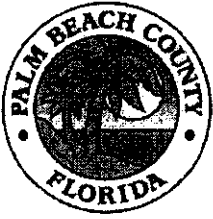

As you review FPL's plan to convert the Riviera Beach power plant into a next generation clean energy center, please carefully consider how important this project is to my community. Thank you.

Sincerely,

Cedrick Thomas
Council Chair

The Honorable Matthew M. Carter, II
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

Dear Chairman Carter:

Modernizing the Riviera power plant is the right thing to do for Palm Beach County and all of FPL's customers. Not only will the upgrade to the Riviera plant produce significant environmental benefits, it will make the plant more fuel efficient which means savings for FPL customers, our constituents.

For these reasons, I support FPL's plan to include a third unit at the West County Energy Center and the important conversion projects they have proposed. In fact, the Palm Beach County Board of County Commissioners gave all necessary approvals for FPL to construct the West County Energy Center. I request that you also support this effort that will benefit all concerned.

Sincerely,

Commissioner Jeff Koons

Tallahassee, FL 322399-0850

Dear Chairman Carter:

This letter is written to request your support for Florida Power & Light Company's plan to reduce emissions, save on fuel costs passed on to customers and improve aesthetics of aging power plants. An important and much needed component of this plan is to modernize the Cape Canaveral plant. Due to the extraordinary increase in fuel prices and concerns over global warming, it is imperative that we do all we can for electric customers to improve the fuel efficiency of FPL's fossil fuel fleet and reduce emissions.

Please give your highest attention to this matter and approved FPL's three-part plan that is good for the environment and our citizens.

Respectfully,

Truman G. Scarborough
Chairman

FPL's plant modernization plan a win-win for all

Your May 11 editorial, "More power to FPL," was right on target. Florida Power & Light has indeed done the utility and the area a big favor by announcing its plan to modernize the Riviera Beach power plant.

This is a win-win for the community and customers. Aesthetically, the modernized plant will feature smokestacks only half the height of the existing stacks. The project will generate an additional \$20 million in tax revenue in its first year. The new unit will be considerably more efficient, using at least 33 percent less fuel to produce the same amount of power. Particulate emissions will be reduced.

An important point: Modernizing the Riviera plant is contingent on FPL getting approval for a third natural gas unit at the company's west county facility. Without that new unit, FPL will not have a sufficient "reserve margin" of generating capacity to take the Riviera Beach plant offline for the upgrade.

I share the hope that the Public Service Commission finds nothing to breathe heavily about with the new west county unit to allow the Riviera Beach plant modernization to move forward.

**Resolution of the Board of Directors
Greater Boynton Beach Chamber of Commerce
May 21, 2008**

THIS RESOLUTION OF THE GREATER BOYNTON BEACH CHAMBER OF COMMERCE IS IN SUPPORT OF FLORIDA POWER & LIGHT COMPANY BUILDING ADDITIONAL CLEAN-BURNING NATURAL GAS-FIRED POWER PRODUCTION AT THE SITE OF THE WEST COUNTY ENERGY CENTER LOCATED IN PALM BEACH COUNTY; FINDING ADDITIONAL POWER GENERATION AT THE SITE WILL BE TO THE BENEFIT OF THE RESIDENTS OF PALM BEACH COUNTY.

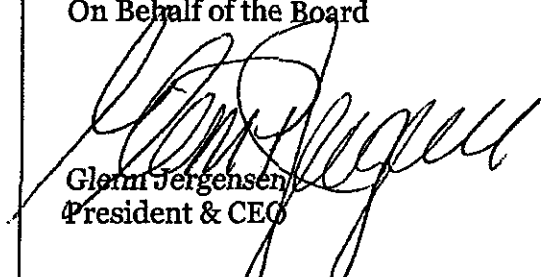

WHEREAS, The Gr. Boynton Beach Chamber of Commerce recognizes the benefits of a clean burning, natural gas electric generating power plant and associated facilities in Palm Beach County; and

WHEREAS, The Boynton Beach Chamber of Commerce recognizes Florida Power & Light Company will include state-of-the-art combustion turbines with best-in-class emission controls; and

WHEREAS, The Boynton Beach Chamber of Commerce recognizes that Palm Beach County and the surrounding areas continue to grow and additional power capacity is needed to meet the energy needs of customers and supports the general welfare of the state; and

WHEREAS, Florida Power & Light Company has the obligation to provide adequate, safe and efficient electric power to its customers and Florida Power & Light Company recognizes the responsibility to provide safe, reliable, affordable electricity while keeping environmental concerns in consideration.

On Behalf of the Board

Glenn Jergensen
President & CEO

**RESOLUTION IN SUPPORT OF THE
WEST COUNTY ENERGY CENTER UNIT 3**

Belle Glade Chamber of Commerce
A RESOLUTION OF _____ (organization's name) IN SUPPORT
OF FLORIDA POWER & LIGHT COMPANY BUILDING ADDITIONAL
CLEAN-BURNING NATURAL GAS-FIRED POWER PRODUCTION AT THE
SITE OF THE WEST COUNTY ENERGY CENTER LOCATED IN PALM
BEACH COUNTY; FINDING ADDITIONAL POWER GENERATION AT
THE SITE WILL BE TO THE BENEFIT OF THE RESIDENTS OF PALM
BEACH COUNTY.

RE: Communication Received in Docket No:080203-EI – FPL’s Need Determination

Commissioner Skop’s Office has received the following correspondence from Alexandria Larson, consumer.

The correspondence has not been viewed or considered in any way by Commissioner Nathan A. Skop. Under the terms of the advisory opinion from the Commission on Ethics (issued July 24, 1991 as CEO 91-31-July 19, 1991), the following correspondence does not constitute an ex parte communication by virtue of the fact that it was not shown to the Commissioner. Because it is not deemed to be an ex parte communication, it does not require dissemination to parties pursuant to the provisions of section 350.042, Florida Statutes. However, in such cases Commissioner Skop has requested that a copy of the correspondence and this memo be, as a matter of routine, placed in the correspondence side of the file in this docket.

June 24, 2008
Dear Public Service Commission,

I spoke at the hearing on June 23, 2008 in reference to the FPL WCEC petition. There were several things that I noticed that give me great pause & concern. The fact that 3 of the commissioners asked no questions or had no interest in the testimony given makes me think that they have given a rubber stamp without any thought given to the public which they are appointed to serve. The fact that the staff asked no questions and offered no thoughts on how FPL will service their customers when we have no more fossil fuel left is disappointing, to offer no alternatives or to do no research whatsoever is truly a dis-service to the public they are supposed protect. Their complete apathy towards billions of dollars in consumer monies is

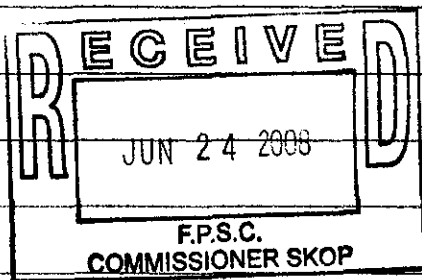

disgraceful. FPL has been gouging the public for years. For a for profit corporation to have taxpayers pay for a pipe to feed a power plant at the cost of 200 million is criminal. The fact that the deep well injection at the rate of 21 million gallons per day produced by this plant has been exempted from any and all oversight because they DEP says the G-4 ~~is~~ aquifer is exempt and will not migrate either in a horizontal or vertical direction is a myth. Florida ecosystem is too fragile to take the chance. Cooling tower water contains several hundred chemicals which should never be introduced into any aquifer system. The PSC is obligated to protect our safety, finances, and fleecing from corporations such as FPL. Only commissioners Nathan Skop and Argenziano asked any relevant questions of all the witnesses

who also happened to be FPL
Employees. The whole hearing
was FPL employees Re Assuring
each other that this plant was
the best & safest not one person
not paid by FPL was present to
offer those same assurances.

There are many alternatives
available to clean up Riviera
Beach without complete destruction
of the Everglades where WCEC
is located. Unit 3 at WCEC is
not necessary or needed. Hold
FPL accountable and show that
the PSC is protecting the public
and not paid Rubber Stamp
Committee that Jeb Bush
appointed. The public has had
enough of the Bush Fraud legacy

Thank You

To Public Service Commission:

These are a few questions I overlooked today.

1. Since WCEC units 1 & 2 are being federally challenged, why is unit 3 being expedited and why the rush to build those first two units?
2. According to the Palm Beach County board of commissioners, we lost 100,000 people last year. How does FPL come to the conclusion we have 81,000 people coming each year?
3. The University of Florida's population figures are from what year? And what is that figure?
4. At the D.E.P. hearings, D.E.P. said FPL is exempt from treating the sludge before it's injected because it goes into the boulder zone (G-4 aquifer). How can raw discharge be exempt?
5. According to the P.S.C. Organizational Chart, the people of Florida are at the

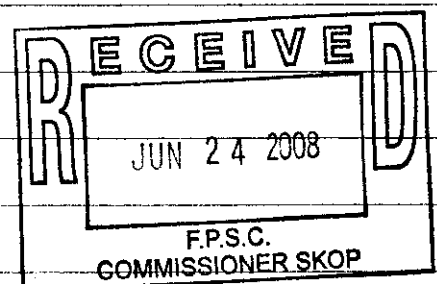

top of the food chain. Yet, why were we treated like stepchildren with lip service? FPL's slick figures and the whole petition was treated as gospel, why?

6. What qualifications does your staff possess that allows you to leave recommendations on important issues to them?

I will expect an expedited response to all of my questions before the decision of your board is made.

Thank you,
Sleen Waite

P.S. The subject of The Whole WCEC project sitting on a taxpayer funded C.E.R.P. project was ignored. The safety of our drinking water is your area of responsibility. Please address this. S

Dear Ms. Larson::

Pursuant to your request, please find enclosed a CD containing a copy of Florida Power & Light Company's Ten-Year Site Plan for the years 2007 and 2008. These documents were discussed by Mr. Steven R. Sim at the hearing held on Monday, June 23, 2008. These site plans can also be accessed on the Florida Public Service Commission website at the following web address:

(<http://www.psc.state.fl.us/search/index.aspx?q=ten%20year%20site%20plan&pr=default&order=r&p=0&cq=>).

Please feel free to contact me if you need further assistance.

Sincerely,

COMMISSION
CLERK

Dear Chairman Carter:

Now is the right time to take advantage of FPL's desire to modernize the Riviera Beach power plant. FPL's plan will improve the look of the plant by lowering the stack height. It will also improve the local air quality by reducing emissions attributed to global warming.

As you review FPL's plan to convert the Riviera Beach power plant into a next generation clean energy center, please carefully consider how important this project is to my community. Thank you.

Sincerely,

Cedrick Thomas

Chairman Matthew M. Carter, II
Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 322399-0850

Dear Chairman Carter:

This letter is written to request your support for Florida Power & Light Company's plan to reduce emissions, save on fuel costs passed on to customers and improve aesthetics of aging power plants. An important and much needed component of this plan is to modernize the Cape Canaveral plant. Due to the extraordinary increase in fuel prices and concerns over global warming, it is imperative that we do all we can for electric customers to improve the fuel efficiency of FPL's fossil fuel fleet and reduce emissions.

Please give your highest attention to this matter and approved FPL's three-part plan that is good for the environment and our citizens.

Respectfully,

Truman G. Scarborough
Chairman
Brevard County Board of County Commissioners
