In re: Nuclear Power Plant Cost  
Recovery Clause

Docket No. 080009-EI

---

Submitted for Filing: July 10, 2008

**AFFIDAVIT OF DANIEL L. RODERICK IN SUPPORT OF  
PROGRESS ENERGY FLORIDA'S THIRD  
REQUEST FOR CONFIDENTIAL CLASSIFICATION**

STATE OF FLORIDA

COUNTY OF CITRUS

BEFORE ME, the undersigned authority duly authorized to administer oaths, personally appeared Daniel L. Roderick, who being first duly sworn, on oath deposes and says that:

1. My name is Daniel L. Roderick. I am over the age of 18 years old and I have been authorized by Progress Energy Florida (hereinafter "PEF" or the "Company") to give this affidavit in the above-styled proceeding on PEF's behalf and in support of PEF's Request for Confidential Classification. The facts attested to in my affidavit are based upon my personal knowledge.
2. I am the Vice President of Nuclear Projects and Construction for PEF's nuclear plant. This department manages nuclear generation growth strategies.
3. As the Vice President of Nuclear Projects and Construction, I am responsible for all aspects of major projects and construction of nuclear generating assets in Florida, including the administration of PEF's contracts for the Crystal River 3 ("CR3") Uprate project and ongoing project analysis.

4. PEF is seeking confidential classification for portions of Progress Energy Florida's Responses to OPC's Second Request for Production of Documents (Nos. 12-57), specifically OPC Request No. 33. A detailed description of the confidential information at issue is contained in confidential Exhibit A to PEF's Third Request for Confidential Classification and is outlined in PEF's Justification Matrix that is attached to PEF's Third Request for Confidential Classification as Exhibit C. PEF is requesting confidential classification of this portion of the response, because it calls for confidential cost projections for the project for the remainder of 2008 and 2009, the disclosure of which would compromise PEF's competitive business interests.

5. Portions of the documents responsive to OPC Request No. 33 reflect the Company's confidential cost projections regarding labor and materials, that would adversely impact PEF's competitive business interests if disclosed to the public. If PEF's suppliers or competitors were made aware of PEF's detailed cost projections to obtain certain goods and services, they may adjust their behavior in the market place with respect to activity such as pricing and the acquisition and provision of such goods, materials, and services. In other words, if these third parties know what PEF expects to have to pay for these goods and services, then those third parties have leverage in negotiating for these goods and services. This would impair PEF's ability to obtain competitive contracts, with favorable terms, that provide economic value to PEF and its ratepayers.

6. PEF is also seeking confidential classification for portions of Progress Energy Florida's Responses to OPC's Second Request for Production of Documents (Nos. 12-57), specifically OPC Request No. 54. A detailed description of the confidential information at issue is contained in confidential Exhibit A to PEF's Third Request for Confidential Classification and is outlined in PEF's Justification Matrix that is attached to PEF's Third Request for Confidential

Classification as Exhibit C. PEF is requesting confidential classification of this information because documents that contain information regarding PEF's confidential and proprietary internal bid and contracting strategies and analyses, the disclosure of which would impair PEF's ability to contract for such goods and services on competitive and favorable terms.

7. Portions of these documents are confidential and sensitive bid and contracting strategy analyses. Specifically, if PEF's suppliers or competitors were made aware of how PEF analyzes bid responses and chooses contract vendors, they may adjust their behavior in the market place with respect to activity such as pricing and the acquisition and provision of goods, materials, and services. This would impair PEF's ability to obtain competitive contracts, with favorable terms, that provide economic value to PEF and its ratepayers.

8. Upon receipt of all this confidential information, and with its own confidential information, strict procedures are established and followed to maintain the confidentiality of the terms of the documents and information provided, including restricting access to those persons who need the information to assist the Company, and restricting the number of, and access to the information and contracts. At no time since negotiating and receiving the contracts and doing the project analyses in question has the Company publicly disclosed that information or contracts. The Company has treated and continues to treat the information at issue as confidential.

9. This concludes my affidavit.

Further affiant sayeth not.

Dated the 14<sup>th</sup> day of July, 2008.

*Daniel L. Roderick*
