(Continued from previous page)

Issue 3: What are the appropriate water rates?

Recommendation: The Utility's present rates should be reduced by 2.33 percent. The appropriate monthly water rates are shown on Schedule 1 of staff's memorandum dated July 17, 2008. The Utility should file revised tariff sheets and a proposed customer notice to reflect the Commission-approved rates. The approved rates should be effective for service rendered on or after the stamped approval date of the revised tariff sheets, pursuant to Rule 25-40.475(1), F.A.C. The rates should not be implemented until staff has approved the proposed customer notice. The Utility should provide proof of the date notice was given no less than 10 days after the date of the notice.

APPROVED

Issue 4: Should this docket be closed?

Recommendation: No. If no person whose substantial interests are affected by the proposed agency action issues files a protest within 21 days of the issuance of the order, a Consummating Order will be issued. However, the docket should remain open for staff's verification that the revised tariff sheets and customer notice have been filed by the Utility and approved by staff. When the PAA issues are final and the tariff and notice actions are complete, this docket may be closed administratively.
