3. What should be the effective date of the conservation cost recovery factors for billing purposes?

CUC:

The factors should be effective beginning with the specified conservation cost recovery cycle and thereafter for the period January 2009 through December 2009. Billing cycles may start before January 1, 2009 and the last cycle may be read after December 31, 2009, so that each customer is billed for twelve months regardless of when the adjustment factor became effective.

RESPECTFULLY SUBMITTED this 30th day of September, 2008.

Beth Keating
