**Re: Docket No 080499-WU, Application for certificate to operate water utility in Lake County by TLP Water, Inc.**

Dear Mr. Carey:

This letter is a follow-up on the telephone conversation of February 6, 2009, with Cheryl Johnson, during which time an update of the status of the docket for a certificate to operate a water utility was provided. As mentioned in the conversation, Rule 25-30.034(1) (i), Florida Administrative Code, requires one copy of a detailed system map showing the lines, treatment facilities and the territory to be served. Exhibit 7A and Exhibit 7B were submitted as system maps, but the maps are not to scale and the lines are not distinguishable from the lots. Please submit a map of sufficient scale and detail to enable correlation with the description of the territory to be served.

Also, you submitted a tax return as support for the financial ability of the TLP Water, Inc. and the cost for the plant. However, a more detail breakdown of the costs for plant and the corresponding accumulated depreciation is needed. In addition, documentation regarding the original cost of the land on which the water treatment plant is located will be needed.

According to the application, TLP is presently charging a flat rate of \$39.00 for water services. A model tariff showing all classifications, rules, and regulations, consistent with Chapter 25-9, Florida Administrative Code must be filed. Please provide a copy of a customer bill, which contains all information required by Rule 25-30.335(1), Florida Administrative Code. A copy of the model tariff is accessible on the PSC website at <http://www.floridapsc.com>.

DOCUMENT NUMBER - DATE

00991 FEB-9 09

FPSC-COMMISSION CLERK

Mr. William Carey  
Page 2
