Re: Docket No. 090529-EI - Petition to include costs associated with the extended power uprate project in base rates, by Florida Power & Light Company.

Dear Mr. Anderson:

Please provide staff with the following information to facilitate our review of Florida Power & Light Company's Petition.

1. Attachment A, page 3, to FPL's petition is a listing of dollar amounts related to Extended Power Uprate (EPU) Asset Retirements in 2009. Please provide a full description of the equipment (assets) included in Account 323 that are to be retired.
2. Please provide an explanation describing how the retirement of the EPU Assets is directly related to the EPU Project.
3. Are the EPU Assets to be retired in 2009 and the related depreciation expense included in the projected 2010 and 2011 test years in Docket No. 080677-EI? If yes, please provide the system and jurisdictional 13-month average amounts of plant in service and accumulated depreciation, and the 12-month depreciation expense.
4. If the EPU Assets are retired in 2009, is it correct that no further depreciation expense would be incurred in 2010 and beyond?
5. Are there any other expenses (O&M, property taxes, etc.) related to the EPU Assets to be retired in 2009 included in the projected 2010 and 2011 test years in Docket No. 080677-EI? If so, please provide the system and jurisdictional amounts for the projected 2010 and 2011 test years.

7. Were the EPU Assets to be retired in 2009 included in FPL's depreciation study filed in Docket No. 090130-EI? If so, how were the EPU Assets treated?
8. Are any of the expenses or investment related to the modifications of the PSL2 turbine gantry crane that are the subject of this docket included in the projected 2010 and 2011 test years in Docket No. 080677-EI?
