Subject: RE: Outstanding Confidential DNs in 090009

After speaking with Dianne Triplett from Progress, I learned that the request for confidentiality for the testimony of Jeffery A. Small (i.e. DN 07622-09) was previously filed in Docket No. 080009-EI. The request begins on DN 07776-08, which can be located in the '08 nuclear docket. This request seeks confidential classification for JAS-02.

By motion dated 9/21/09 in Docket No. 090009-EI, Progress requested that its request for confidential classification of JAS-02 filed Docket No. 080009-EI be transferred to Docket No. 090009-EI for the purposes of seeking confidential classification of the same document, which had been re-filed in the '09 nuclear docket as JAS-1. Accordingly, please transfer the request for confidential treatment filed in Docket No. 080009-EI to Docket No. 090009-EI.

Thanks!
Anna
