**Issue 3:** Should the Commission approve FPL's revised proposal to delay the implementation of any base rate increase approved in this docket until it can be combined with a subsequent base rate increase in a future Nuclear Cost Recovery base rate filing?

**Recommendation:** No. The Commission should approve FPL's original proposal to implement any base rate increase approved in this docket on the same date as any approved base rate revision in its pending base rate proceeding in Docket No. 080677-EI. Because the recommended base rate increase does not result in a change to any of the rate classes' base rate charge, no revision to the tariff sheets approved in Docket No. 080677-EI is required.

**APPROVED**

**Issue 4:** Should this docket be closed?

**Recommendation:** If no person whose substantial interests are affected by the proposed agency action files a protest within 21 days of the issuance of the order, this docket should be closed upon the issuance of a consummating order.
