Re: Docket No. 100136-EI – Petition for approval of an accounting order to record a depreciation expense credit, by Progress Energy Florida, Inc.

Dear: Ms. Klancke,

Progress Energy Florida, Inc. ("PEF" or the "Company") received Staff's First Data Request in the above-referenced docket and needs clarification for some of the data requests to better understand what the Commission staff is requesting so that PEF can appropriately respond to these data requests. These requests are included below, identified by their numerical number in Staff's First Data Request, and PEF's clarification request is included below the data request.

15. Please provide a copy of PEF's approved 2010 budget for rate base and net operating income on both a system and jurisdictional basis.

What does Staff mean by "PEF's 2010 approved budget?"

16. Please provide a copy of any updates to the 2010 budget for rate base and net operating income on both a system and jurisdictional basis.

What does Staff mean by "updates to the 2010 budget?"

17. For the months available, please provide a monthly comparison between the budgeted and actual results for 2010 for rate base and net operating income on both a system and jurisdictional basis.

What does Staff mean by "budgeted" results for 2010? Are the references to "budget" numbers in data requests 15, 16, 17 the same?

16609718.1

DOCUMENT NO. DATE

FPSC - COMMISSION CLERK

With respect to the request for "actual results" for 2010 PEF received approval for an extension of time until April 15, 2010 to file its January surveillance report and will have difficulty meeting that deadline. Is the Commission Staff now asking for this information in response to this data request by April 8, 2010 or can PEF provide this information in accordance with its current extension for filing its January 2010 surveillance report?

18. Based on PEF's approved 2010 budget, please provide a calculation of the December 2010 "FPSC Adjusted" average rate base, net operating income, cost of capital and return on equity utilizing the same format as required in the earnings surveillance report.

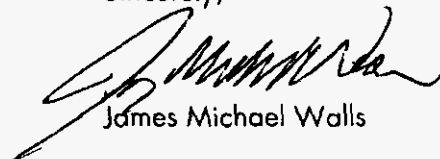

It appears to PEF that data request 18 seeks the same information that was requested in data request 15. Is data request 18 different from data request 15?

19. Based on any updates to PEF's approved 2010 budget, please provide a calculation of the December 2010 "FPSC Adjusted" average rate base, net operating income, cost of capital and return on equity utilizing the same format as required in the earnings surveillance report.

It appears to PEF that data request 19 seeks the same information that was requested in data requests 16 and 17. Is data request 19 different from data requests 16 and 17? Also, to the extent data request 19 is similar to data request 17, PEF seeks the same clarification regarding the existing extension for filing its January 2010 surveillance report that PEF raises above with respect to data request 17.

Thank you for your attention to PEF's request for clarification of Staff's First Data Request.

Sincerely,

James Michael Walls
