**RE:** Confidential Document No. 02222-10, Docket No. 090451-EM

The material received is a result of an interrogatory (No. 102) from staff. The information is a summary of information regarding the net present value of GRU's projected payments and the levelized cost of electricity, under each of the six binding proposals submitted to GRU in its request for proposals and competitive solicitation process that led to the selection of the 100 MW proposal for the GREC project.

The subject document is confidential in nature. It contains information concerning trade secrets, bids or other contractual data, the disclosure of which would impair efforts of the company to contract for services on favorable terms. In addition, the confidential nature of the material, if broken, could cause harm to the company or its ratepayers if publicly disclosed.
