By this letter, the Commission staff requests that Florida Power & Light Company (FPL or Company) provide responses to the following data requests.

1. Page 14 of the Plan Document states that the Residential Low Income Portfolio contains measures that did not pass either the E-TRC or E-RIM tests. Please provide a list of the measures that did not pass either the E-TRC or E-RIM tests. As part of this response, please explain why those measures were included.
2. Page 23 of the Plan Document states that participation in the solar pilot portfolio will be monitored and limited to ensure FPL does not exceed its annual spending cap. Please explain if this cap is for the entire portfolio or by program.

4. In reference to the Business Photovoltaic's for Schools Pilot Program, please explain what size PV system will be installed or how the size of the PV system to be installed will be determined.
5. In reference to the Renewable Research and Demonstration Project (Page 37 of the Plan Document), please explain how FPL's proposed Research and Development Projects will not duplicate the efforts of the Florida Solar Energy Center.
