AFFIDAVIT

STATE OF NEW YORK  
COUNTY OF MONROE

BEFORE ME, the undersigned authority, appeared Gregg C. Sayre, who deposed and said:

My name is Gregg Sayre. I am Assistant Secretary of Frontier Communications of the South, LLC ("Frontier" or the "Company"). As an officer of the Company, I am authorized to give this affidavit on behalf of the Company. This affidavit is being given to support the Florida Public Service Commission's certification as contemplated in 47 C.F.R. §54.314. Please refer to Docket No. 010977-TL.

Frontier hereby certifies that it will only use the federal high-cost support it receives during 2011 for the provision, maintenance and upgrading of facilities and service for which such support is intended.

1. Frontier Communications of The South currently holds ETC status and is an ILEC offering a ubiquitous network throughout the service area. The FCC has clarified that, for the ETCs that it designates, the "service quality improvements in the five-year plan do not necessarily require additional construction of network facilities." *FCC 05-46*, ¶ 23. In such situations, the FCC has stated that the ETC Applicant may provide "an explanation of why service improvements in a particular wire center are not needed and how funding will otherwise be used to further the provision of supported services in that area." *FCC 05-46*, ¶ 23.

Because Frontier Communications of The South has coverage throughout the service area, the company will continue to use USF support to maintain its existing network, rather than to construct additional facilities to expand the coverage area. The company will replace and upgrade facilities and equipment on an "as needed" basis and for this reason, providing projected start and completion dates for projects, and specific geographic locations of such projects, is very difficult.

Frontier has submitted via annual NECA filings, the supporting documentation on network improvements and expenditures in support of our universal service filing and refer to this in lieu of formal network plans.
