Dear Ms. Fleming:

By this letter, Aqua Utilities Florida, Inc. (AUF or Company) provides its second supplemental response to the Staff's Fifth Data Request, Number 1.

Staff's Fifth Data Request, No. 1, states, "please provide a detailed breakdown of the total number of equivalent residential connections (ERCs) for all AUF systems (including non-regulated), all sister companies that are in other states, as well as the ERC counts for systems AUF affiliates operate for certain municipalities and/or other entities. In the response, ERCs should be determined using the American Water Works Association's meter equivalent factors below."

In its response, AUF has failed to provide the ERCs for all sister companies that are in other states, as well as the ERC counts for systems AUF affiliates operate for certain municipalities and/or other entities.

Please provide this information as in a supplemental response as soon as possible.
