Comments

22. Have you experienced any significant barriers in entering Florida's local exchange markets? Please list and describe any major obstacles or barriers encountered that you believe may be impeding the growth of local competition in the state, along with any suggestions as to how to remove such obstacles. Any additional general comments or information you believe will assist staff in evaluating and reporting on the development of local exchange competition in Florida are welcome.

Response: This past year we experienced several weather related challenges for which proper notifications were not sent in a timely manner. Specifically, AT&T issued Force Majeure declarations days after it invoked the Force Majeure process and reports comparing retail to wholesale treatment were delayed or never provided. In addition apparent force reductions or inadequate staffing have caused appointment delays outside the agreed upon intervals by both AT&T and Verizon, thus penalizing the CLEC and its customers.

* Your Company code is shown on the label affixed to the envelope in which this was mailed and on the cover letter.

THIS TABLE IS TO ONLY CAPTURE VoIP LINES. DO NOT INCLUDE LINES REPORTED IN TABLE 1.

Complete Table 5 if you provided VoIP service to Florida *end users* via one or more *voice-grade equivalent (VGE)* lines or wireless *VGE* channels.

An access line connects the end user's customer premises equipment (CPE) to the serving switch and allows the end user to originate and/or terminate local telephone calls on the public switched telephone network (PSTN). The access line counts in Table 5 below must be based on **all** of your different types of access lines (including fixed wireless) that are used to provide VoIP service.

Each field must be populated. All entries must be made without quotation marks.

The data must include lines of all affiliated companies.

TABLE COLUMN INSTRUCTIONS:

Column (a). **Reported NPA-NXX data should not be based on secondary service locations (i.e., where service has been moved temporarily to a secondary location such as a vacation home).**

Each NPA-NXX and corresponding data must be entered in a separate row. Please combine lines that have the same NPA-NXX.

Column (b). Enter the abbreviation **Res** for Residential lines or **Bus** for Business lines. **Residential lines and business lines must be entered in separate rows.**

Column (c). Enter line count as *voice-grade equivalents (VGEs)*. Report *VGEs* based on how the customer is billed. If the customer is billed for a dynamic bandwidth VoIP product, the line count would be the maximum number of VoIP lines available. If the customer is billed for a specific number of VoIP lines, or a range of lines, the VoIP line count would be the number of VoIP lines or the highest number of the range, respectively. **Each line count must be entered in separate rows.**

Please provide data as of December 31, 2010.
