Public Records Act]." § 366.093(1), Fla. Stat. Proprietary confidential business information means information that is (i) intended to be and is treated as private confidential information by the Company, (ii) because disclosure of the information would cause harm, (iii) either to the Company's customers or the Company's business operation, and (iv) the information has not been voluntarily disclosed to the public. § 366.093(3), Fla. Stat. Specifically, "information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" is defined as proprietary confidential business information. § 366.093(3)(d), Fla. Stat. Additionally, section 366.093(3)(e) defines "information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information," as proprietary confidential business information.

Portions of the aforementioned transcript and exhibits (collectively the "responsive information") should be afforded confidential classification for the reasons set forth in the Affidavit of John Elnitsky filed in support of PEF's Request for Confidential Classification, and for the following reasons.

The deposition transcript and certain exhibits thereto of Mr. Elnitsky contain sensitive proprietary and confidential information, including pricing and cost information, related to and derived from contractual agreements necessary to complete the Levy Nuclear Project ("LNP") including the Engineering, Procurement and Construction Agreement ("EPC Agreement"). The EPC Agreement includes confidentiality and non-disclosure provisions that forbid the public disclosure of this information. PEF considers this information to confidential and proprietary and

continues to take steps to protect against its public disclosure, including limiting the personnel who have access to this information. Affidavit of Elnitsky, ¶ 4. Public release of this information would harm the Company's ability to contract for necessary goods and services by signaling to the parties with whom PEF attempts to contract that the Company will not be able to maintain the confidentiality of the parties' contractual agreements. See id. at ¶ 5.

The deposition transcript of Mr. Elnitsky contains sensitive proprietary and confidential information related to the ongoing negotiations with potential joint-owners of the LNP. The Company is maintaining the confidentiality of the details of these negotiations, including the identity of the potential joint-owners. Public release of the identities and other details of the negotiations could harm the Company's competitive negotiating position, and possibly lead to the end of negotiations all together. See id.

The transcript and the exhibits to the deposition contain strategic planning information provided to senior management which is competitive-sensitively business information. The transcript discussions and document portions in question contain confidential information relating to competitive business interests, the disclosure of which would impair the competitive business of the Company.

Further, the Company has established and follows strict procedures to maintain the confidentiality of the terms of all of the confidential documents and information at issue, including restricting access to those persons who need the information and documents to assist the Company. See id. at  $\P$  6.

At no time has the Company publicly disclosed the confidential information or documents at issue; PEF has treated and continues to treat the information and documents at issue as confidential. See id. at ¶¶ 5-6.

PEF requests this information be granted confidential treatment by the Commission.

## Conclusion

The competitive, confidential information at issue in this Request fits the statutory definition of proprietary confidential business information under Section 366.093, Florida Statutes, and Rule 25-22.006, F.A.C., and therefore that information should be afforded confidential classification. In support of this motion, PEF has enclosed the following:

- (1) A separate, sealed envelope containing one copy of the confidential Appendix A to PEF's Request for which PEF intends to request confidential classification with the appropriate section, pages, or lines containing the confidential information highlighted. This information should be accorded confidential treatment pending a decision on PEF's Request by the Commission;
- (2) Two copies of the documents with the information for which PEF intends to request confidential classification redacted by section, pages, or lines where appropriate as Appendix B; and,
- (3) A justification matrix of the confidential information contained in Appendix A supporting PEF's Request, as Appendix C.

WHEREFORE, PEF respectfully requests that the redacted portions of the August 3, 2011 deposition transcript and exhibits of John Elnitsky be classified as confidential for the reasons set forth above.

## Respectfully submitted this 31st day of August, 2011.
