Tallahassee, FL 32399

Sterling Planet is authorized by the Center for Resource Solutions' Green-e Energy program to sell certain of its Renewable Energy Certificates (RECs)/renewable electricity as Green-e Energy Certified. A REC is a tradable commodity representing the environmental attributes of 1 MWh of electricity generated from a renewable source. As part of Sterling Planet's reporting requirement to Green-e Energy, this letter is to inform you of electricity generated by Gainesville Hillel located in Gainesville, FL in 2H10 that was sold to customers. The electricity was provided to customers without the environmental attributes, while the associated RECs were purchased by Sterling Planet and then sold to a third party. Under the rules of Green-e Energy, Sterling Planet must notify relevant regulatory authorities that Sterling Planet sold the RECs associated with the generation for which customers purchased the power.

Generator: Gainesville Hillel
Number of RECs: 26
Period Generated: 2H10
Purchaser of RECs: Sterling Planet
Purchaser of Power: customers

If you have any questions feel free to call me.

Sincerely,

Rob Henry
Director, Renewable Energy Supply
